

DEPARTMENT OF HEALTH & HUMAN SERVICES

ADMINISTRATION FOR CHILDREN AND FAMILIES

Mary E. Switzer Building
330 C ST, S.W.
Washington, D.C. 20201

Case No: 18-F-0097
Civil Action 18-cv-241

November 30, 2018

Ms. Mary Alice Carter
Executive Director
Equity Forward
85 Broad Street
New York, NY 10004

Dear Ms. Carter:

This is the fifth interim response of the Administration for Children and Families to your December 12, 2017, Freedom of Information Act (FOIA) request for correspondence from certain named Administration for Children and Families (ACF) employees which included certain specified terms, for the months of March, May, September and October 2017. Specifically, you sought the following items:

1. Correspondence to, from or carbon copied to¹:
Scott Lloyd
Jonathan White
Curi Kim
Judith Haron
Anna Marie Bena
Scott Logan
Tricia Swartz (Associate Deputy, ORR)
Jalyn Sualog (Director of Children Services)
James De La Cruz (Houston Field Supervisor)
2. The request asked that the search use the following search terms
 - “pregnancy”
 - “pregnant”
 - “ORR director”
 - “abortion”
 - “ru-486”
 - “CPC”
 - “ultrasound”
 - “rape”

¹ The request also sought emails to, from and carbon copying Maggie Wynne and Dr. David Teuscher. However, ACF advised Equity Forward that these individuals work for at the department level and the Office of the Secretary Division of FOI/Privacy has jurisdiction over those records.

- “nonconsensual”
- “Gestational”
- “judicial bypass”
- “life affirming”
- “unborn child”
- “spiritual counseling”
- “options counseling”
- “WTF”
- “Terminating”
- “terminate”
- “termination”
- “Pregnancy notification”
- “Pregnancy motivations”
- “Scott is”
- “Scott said”
- “from Scott”

Your request was sent to the Office of Refugee Resettlement (ORR) and the Office of the Chief Information Officer for a search for responsive records. The Office of the Chief Information Officer performed the search and provided 159,000 pages of responsive records.

Following extensive negotiations between the parties, it was agreed that ACF would begin its production by disclosing emails without attachments, after which Equity Forward would choose the attachments it wished to receive.

Accordingly, please find enclosed 359 pages of responsive records. Three-hundred ninety-four (394) additional pages were forwarded to the Office of the Secretary (OS), Department of Health and Human Services (HHS) and to other federal agencies for consultation on those pages that originated within those offices.

Some of the information on the disclosed pages has been withheld under the FOIA exemptions (b)(5) and (b)(6). The exemption (b)(5) protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. The exemption protects agency deliberations, both internal and with agency contractors and consultants, attorney-client privileged records and attorney work product. In this case, the withheld information includes pre-decisional discussions within the agency and between agency staff and contractors about management of the program and individual children, sensitive communications between agency staff seeking legal advice and counsel on policy and other matters and documentation of attorney thoughts and work in anticipation of litigation.

The FOIA exemption (b)(6) permits the withholding of records which, if released, would constitute a clearly unwarranted invasion of personal privacy. In this case, the withheld information consists of the names, identity and/or other private information of private individuals and the work cell phones of federal employees. Public disclosure of this information would constitute an invasion of privacy of those individuals whose identifying information was disclosed. In withholding the information, the individual's privacy interest was balanced against any public interest in disclosure. In each instance where information was withheld, it was determined that the individual's privacy interests outweighed any public interest in disclosure of the withheld information. Disclosure of the withheld information would invade the privacy of the subject individuals but would reveal nothing about the operations or activities of the government.

Case No. 18-F-0097
Civil Action 18-cv-241
Ms. Mary Alice Carter
Page 3 of 3

Sincerely yours,

A handwritten signature in black ink, appearing to read "Celeste Smith". The signature is fluid and cursive, with the first name "Celeste" written in a larger, more prominent script than the last name "Smith".

Celeste Smith
Acting FOIA Officer
Administration for Children and Families

Subject: Litigation and Bond Trackers

Hi all,

Here are this week's updates.

UAC litigation. The ACLU filed a new case, *Garza*, in the DC Circuit Court on 10/13, regarding UAC access to reproductive services, (naming ORR among the defendants; requesting a TRO, preliminary injunction, permanent injunction, and class certification; and with the ORR Director the subject of a *Bivens* action). On 10/18, the judge granted the Temporary Restraining Order, ordering Defendants to "promptly and without delay" transport a UAC to an abortion provider. ORR filed a Notice of Appeal, and an Emergency Motion for Stay pending appeal. Today, 10/19, the court stayed its ruling on the TRO to consider the defendants' motion.

In *Gomez*, the court granted a stipulation by the parties to extend federal defendants' time to file a declaration regarding plaintiff's motion to file documents under seal (due 10/23). In *ACLU v Price*, the court granted federal defendants' motion to file an Exhibit to Federal Defendants' response in opposition to Plaintiff's motion to amend its complaint.

Refugee litigation. In *Indiana*, Indiana filed a Reply in Support of its Motion to Stay proceedings pending the US Supreme Court's decision in *Trump v IRAP et al.*

UAC Bond Hearings.

- There are currently 22 outstanding bond hearing requests. Of these:
 - 6 hearings are currently scheduled:
 - 1 hearing in the Arlington, VA
 - 5 hearings in the New York, NY court
 - 3 motions have been filed in San Antonio, TX (awaiting scheduling notices)
 - 1 motion filed by ORR was rejected by the San Francisco court; ORR will re-file
- Since last week:
 - There have been 4 hearings, one of which resulted in the IJ ruling against ORR (the case was in the New York immigration court)
 - Of the remaining 3 cases, 2 cases were continued to later dates, and 1 resulted in the IJ agreeing with ORR and granting bond)
 - Regarding the adverse IJ decision, ORR has until 11/15 to file an appeal (ORR leadership will meet to discuss next week)
- **To date there have been:**
 - 10 IJ decisions (9 agreeing with ORR; 1 overruling ORR)
 - 18 UACs who requested bond hearings but subsequently withdrew their requests
 - 10 UACs who requested bond hearings but no longer require them because they are no longer in ORR custody (e.g., because they were subsequently reunified with a sponsor, were ordered removed, aged out, etc.).

Subject: FW: CNCS Abortion Guidance

Hi Tom and Tabassum,

CNCS has recently re-released their Prohibited Activities that deal specifically with abortion. In light of this, one of our offices has asked if there is similar guidance for other programming. The best I could find was in the HHS policy Statement that says that "HHS funds may not be spent for an abortion", but the CNCS guidance addresses many other activities relating to abortion. Is there further guidance on ORR funding relating to abortion available?

Best,

Thanks, Anna Marie. I am in touch with Esther who is on site in Rochester now and it sounds like the county is going to allow Diane, our GDIT monitor, access to the case files. So I think our crisis has been averted. Thanks again for liaising with OGC on this. Will let you know if there are any more challenges while the monitoring visit is occurring this week.

Anne

This doesn't solve our problem. But here's the answer from OGC. I don't recommend a notarized letter – they're asking way too much. The state vs. county is a dilemma.

From: Fuma, Julia (HHS/OGC)
Sent: Monday, October 23, 2017 10:14 AM
To: Bena, Anna Marie (HHS/OGC) (ACF)
Subject: RE: [URGENT] URM Monitoring Visit

I do not know what they mean by an authentication letter either. It is not a term used in Federal Grants law. My best guess is that the county simply wants something similar to what ORR already sent regarding the GDIT grant but specific to Karen Baird. By "authentication letter", the county might also mean that it wants the letter notarized. If ORR wants to try to work with the county, I would recommend ORR provides Karen

Baird with a notarized letter saying she is an authorized representative of ORR under the access to records regulation, 45 CFR 75.364, pursuant to the contract with GDIT and will keep information confidential.

In order to answer the question of what action you can take against the county precisely, it would be helpful to see the state plan and the NOA. Unless there is a NOA or agreement that says otherwise, I believe that any action ORR takes would have to be against the State. The State is responsible for ensuring compliance with the terms and conditions of the award, including access to records.

The one wrinkle is whether ORR can really demand access to county records. Under 45 CFR 75.352, if the county is a sub-recipient, then the state is the entity in charge of monitoring, and I am not sure if ORR has the right to access the sub-recipient records directly as opposed to asking the state to do the monitoring. At the same time, the ORR regulations at 45 CFR 400.22 say that state agency may not delegate responsibility for administering and supervising its state plan, so I am not sure if states are permitted to have sub-recipients insulated from direct federal oversight. I think the state plan and NOA could help answer that.

ORR could take any action against the state listed in 45 CFR 75.371, including terminating the grant or temporarily withholding payments. It could also take a disallowance, but it would have to make sure that any disallowance would be reasonably related to how the State violated the terms and conditions of the grant.

Subject: FW: CNCS Abortion Guidance

Hi Tom and Tabassum,

CNCS has recently re-released their Prohibited Activities that deal specifically with abortion. In light of this, one of our offices has asked if there is similar guidance for other programming. The best I could find was in the HHS policy Statement that says that "HHS funds may not be spent for an abortion", but the CNCS guidance addresses many other activities relating to abortion. Is there further guidance on ORR funding relating to abortion available?

Best,

(b)(6)

All- we are likely going to receive a big set up on UAC questions from Scott Logan this afternoon and the expectation is that ORR will draft responses. Is it possible to get the draft responses to the below questions by 1pm today? Scott would like to get material as soon as possible.

Thanks,
Laura

Just closing the Loop on this. Jallyn and Jim should consult with Labor Relations or OGC if there is any uncertainty about what is required and how we are to treat our employees with respect to their sincerely held religious beliefs.

Subject: Re: Order granting TRO for UAC in care

FYSA only.

Update: the D.C. Circuit Court of Appeals today issued a partial stay of the District Court's TRO, meaning that for now the UAC's appointment for her procedure tomorrow is canceled. I will advise IES program shortly.

Court of Appeals Docket #: 17-5236 Docketed: 10/18/2017

Rochelle Garza v. Eric Hargan, et al

Appeal From: United States District Court for the District of Columbia

Docket Text:

PER CURIAM ORDER [[1700058](#)] filed ORDERED that the district court's temporary restraining order filed on October 18, 2017, be administratively stayed pending further order of this court to the extent that the order requires appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem to obtain an abortion procedure on October 20, 2017, and/or October 21, 2017. The portion of the order requiring appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem on October 19, 2017, to obtain the counseling required by state law remains in effect, as do paragraphs 3, 4, and 5 and the costs and contempt provisions of the order. The purpose of this administrative stay is to give the court sufficient opportunity to consider the emergency motion for stay and should not be construed in any way as a ruling on the merits of that motion. See D.C. Circuit Handbook of Practice and Internal Procedures 33 (2017). It is FURTHER ORDERED, on the court's own motion, that appellee file a response to the emergency motion for stay by 2:00 p.m. today, October 19, 2017. Any reply is due by 8:00 p.m. today, October 19, 2017. The parties are directed to hand-deliver the paper copies of their submissions to the court by the time and date due. It is FURTHER ORDERED that oral argument be scheduled before this panel on Friday, October 20, 2017, at 10:00 a.m. in Courtroom 31. Before Judges: Henderson, Kavanaugh and Millett. [17-5236]

Subject: Order granting TRO for UAC in care
Importance: High

Jessica and Claudia,

Per the Temporary Restraining Order issued by the U.S. District Court Judge in Washington DC, and further to my and Jessica's conversation on the phone, here is direction from ACF and HHS leadership for the case of the UAC requesting TOP:

IES should coordinate with the UAC's guardian ad litem for the UAC to see her OB GYN tomorrow (Thursday October 19), for a pre-abortion counseling appointment and travel to and from that appointment (she should be returned to the shelter after that appointment), and Friday or Saturday (October 20 or 21) for the abortion procedure (she should be returned to the shelter after that appointment when her medical condition allows it). Please also note that IES should not:

- interfere with or obstruct the UAC's access to abortion counseling or an abortion;
- require the UAC to reveal her abortion decision to anyone, nor should ORR staff or the shelter reveal it to anyone themselves; or
- retaliate against the UAC based on her decision to have an abortion.

Likewise, ORR shall not retaliate or threaten to retaliate against IES for any actions it has taken or may take in facilitating the UAC's ability to access abortion counseling and an abortion.

I am advised that this instruction may change if an appeals court puts this court order on hold, but until you receive notification in writing that this has occurred, please assume the requirement for her to have access to abortion services is in place and proceed with arrangements for the UAC to receive medical services from her OB GYN, including abortion counseling and workup for pregnancy termination.

I am clarifying details related to logistics of the transport to the appointment per our conversation and will update shortly when I have definitive guidance.

Please let me know if you have any questions.

Subject: OLAB Report for March 6-17

Good afternoon,

Attached is the OLAB report for March 6-17. Items of note are:

- Eight bills related to a cross-cut of **ACF** programs, **ANA**, **OFA**, and **ORR** were introduced.
- Five dear colleague letters related to **ACF**, **Head Start**, **Torture Victims**, **homeless** programs, and **pregnancy prevention/abstinence education** programs were circulated.
- Summaries are available for recent hearings on **Improving Outcomes for Youth** in Juvenile Justice, **Indian Affairs Priorities** in the Trump Administration, **HHS Appropriations related to early childhood development**, and **Home Visiting (MIECHV)** reauthorization.
- Forty-one press releases related to **child welfare**, **Head Start**, **Home Visiting**, **homeless youth**, the **President's Budget**, **refugees**, and **unaccompanied children** were issued.
- Two new CRS reports on **Missing and Exploited Children** and El Salvador, which contains a discussion of **unaccompanied children**, are available.

Please let me know if you have any questions about items within the report.

Thank you,
Scott

Subject: OLAB Report for March 6-17

Good afternoon,

Attached is the OLAB report for March 6-17. Items of note are:

- Eight bills related to a cross-cut of **ACF** programs, **ANA**, **OFA**, and **ORR** were introduced.
- Five dear colleague letters related to **ACF**, **Head Start**, **Torture Victims**, **homeless** programs, and **pregnancy prevention/abstinence education** programs were circulated.
- Summaries are available for recent hearings on **Improving Outcomes for Youth** in Juvenile Justice, **Indian Affairs Priorities** in the Trump Administration, **HHS Appropriations related to early childhood development**, and **Home Visiting (MIECHV)** reauthorization.
- Forty-one press releases related to **child welfare**, **Head Start**, **Home Visiting**, **homeless youth**, the **President's Budget**, **refugees**, and **unaccompanied children** were issued.
- Two new CRS reports on **Missing and Exploited Children** and El Salvador, which contains a discussion of **unaccompanied children**, are available.

Please let me know if you have any questions about items within the report.

Thank you,
Scott

Morning Ed had this on it:

NO STATE MATCH IN SENATE HOME VISITING BILL: A group of bipartisan senators is pushing a bill to reauthorize for five years a popular federal program aimed at helping low-income families with young children. The Senate version does not include a controversial provision in a GOP House bill headed to the floor. The popular home visiting program is aimed at assisting low-income families with young children in areas like child abuse prevention and school readiness, and funding for it expires at the end of the month. A plan to fund the program, H.R. 2824 (115), approved by the House Ways and Means committee drew objections from Democrats because it would require states to match funding. The bipartisan Senate bill, introduced by Sens. Chuck Grassley (R-Iowa) and Bob Menendez (D-N.J.), and joined by Sens. Roy Blunt (R-Mo.), Bob Casey (D-Penn.), Cory Gardner (R-Colo.), Ben Cardin (D-Md.) and Sherrod Brown (D-Ohio), does not include the state match requirement.

On: 19 September 2017 12:19, "Logan, Scott (ACF)" <scott.logan@acf.hhs.gov> wrote: Chronicle for Social Change has the skinny on the MIECHV bill. AND we have the subscription to it now!

MIECHV match: House GOP gambles home visiting expansion on state's ponying up *(featuring ACF)*

House Republicans want to grow the reach of the federal home visiting program – Maternal, Infant and Early Childhood Home Visiting (MIECHV) – by making states match the money dollar-for-dollar with a combination of state, county and private funds. To develop the most generous estimate of states that could match at current spending, YSI combined the TANF figures with the 2016 figures for the two home visiting models. There isn't 2016 TANF data breakdowns yet, so we did this on the assumption that what was spent in 2015 would be similar to spending the next year.

Head Start

TMC failed to inform stakeholders, assess impact of relocation from Laredo to San Antonio *(featuring ACF)*

During the monitoring review in February of TMC's Migrant Seasonal Head Start program, the Administration for Children and Families identified four deficiencies and nine areas of non-compliance with federal regulations, financial management systems, cost principles and procurement. On Wednesday, TMC received a notice of termination of its Head Start grant programs after it failed to correct all the deficiencies noted in the monitoring review. The nation's largest provider of educational services for migrant students and their families has 30 days to appeal the decision to the U.S. Department of Health and Human Services' Departmental Appeals Board.

Refugee Resettlement

Trump makes case for keeping political refugees out of the US in UN speech

President Trump told the United Nations Tuesday that his administration prefers to resettle refugees as close to their homes as possible, and can help more refugees that way because it costs more to bring them to the United States. "We seek an approach to refugee resettlement that is designed to help these horribly mistreated people, and which enables their eventual return to their home countries, to be part of the rebuilding process," Trump said in his first address to the U.N. "For the cost of resettling one refugee in the United States, we can assist more than 10 in their home region," he said.

Washington Examiner, DC

Sept. 19, 2017

Trump administration rejects study showing positive impact of refugees

Trump administration officials, under pressure from the White House to provide a rationale for reducing the number of refugees allowed into the United States next year, rejected a study by the Department of Health and Human Services that found that refugees brought in \$63 billion more in government revenues over the past decade than they cost.

New York Times, NY

Sept. 19, 2017

An internal report undercut one of Trump's biggest goals. So it was scrapped.

We've seen it again and again: The administration pushes a new policy. Independent institutions provide facts and empirical analyses that completely undercut that policy's stated rationale. Administration figures then ignore or suppress those facts. Or they push their own "alternative facts," while deriding the real facts as fake. Or they mount a sustained effort to delegitimize the institution that provided them. Now the New York Times reports on the latest example of this, and in this case, the analysis in question comes from inside the administration itself.

Opinion

Washington Post, DC

Sept. 19, 2017

Trump administration officials reject report on refugees: report

Trump administration officials reportedly rejected a study about the positive economic impacts of refugees in the U.S. The New York Times reported that officials rejected a draft report produced by the Department of Health and Human Services. That study said refugees brought in \$63 billion more in government revenue over the past decade than they cost agencies.

Hill, DC

Sept. 19, 2017

Trump White House reportedly nixed study showing benefits of refugees

Ahead of an October 1 decision on how many refugees to admit into the United States next year, the New York *Times* reports that the Trump administration nixed a report showing that displaced people are beneficial to the U.S. economy. Commissioned by the White House in an effort to help justify its anti-immigration policy platform, the full document never made its way to President Trump, and officials believe it was suppressed before it got there.

New York Magazine, NY

Sept. 19, 2017

Take in more refugees, not fewer, bishops urge White House

The Executive Committee of the U.S. Conference of Catholic Bishops said in a written statement Tuesday that they were “troubled and deeply concerned” at reports that the administration was considering the reduction, which they called “inhumane.” The conference proposed a goal of 75,000 refugees instead. “We think it’s really time to get back to the serious business of saving lives, and we urge the administration to have the total this coming year be 75,000.” A reduction in refugee admissions would come at a time when the number of displaced persons across the globe is at an all-time high, the group Human Rights First said.

Trafficking

History will judge those who don't stop sex trafficking

The fact that women and children are sold for sex in our country is a stain on our national character – and it is getting worse because of the internet. Every day that online sex traffickers continue to be protected by federal law is a failure of Congress. As the Senate Commerce Committee holds a hearing on the bipartisan Stop Enabling Sex Traffickers Act, we have an opportunity to fix this flaw in the justice system. Courts have made it clear that their hands are tied until Congress changes the Communications Decency Act to hold online sex traffickers, like Backpage, accountable.

Opinion

Guardian, NY

Sept. 19, 2017

Tech companies push back as Congress tries to fight online sex trafficking

In its next step to amend a federal law which allows websites such as Backpage.com to host ads for child sex-trafficking, the Senate is holding its first hearing Tuesday on a bill entitled the Stop Enabling Sex Traffickers Act. But big Internet companies such as Google, Facebook and a host of others say the bill is a bad idea — “a mistake of historic proportions” according to one opposition letter to Congress — and say that any change to the Communications Decency Act’s Section 230 would open websites to liability and discourage them from chasing away the web’s bad actors.

Washington Post, DC

Sept. 18, 2017

Senators at odds with tech over trafficking

Internet companies say it will endanger their business models by sending them down a slippery slope to being liable to user content. This debate is heating up as the Senate Commerce Committee convenes a Tuesday hearing on the bill featuring defenders and opponents of the proposal. Some corporations in tech and media — like Oracle and 21st Century Fox — have endorsed the proposal in recent weeks.

Unaccompanied Alien Children

US can't have open-ended amnesty for kids who arrive here illegally

Either way, these unaccompanied immigrants are here now. We must deal with them promptly. Otherwise, they too may live most of their lives here, becoming just as appealing tomorrow as Dreamers are today. Legislation replacing DACA should also include provisions to deal with these newer arrivals and to halt this novel form of illegal immigration. Three reforms would work wonders. The first would be to revise the 2008 Trafficking Victims Protection Reauthorization Act (TVPRA), which has exacerbated the problem.

Good afternoon - IOS is compiling a list of all statutorily and judicially required regulations across the Department. By noon on Friday please send me any that fall within your offices and that you did or did not submit on last week's Unified Agenda data call - for any reason. Please use the Fall 2016 Unified Agenda as your starting point and add to that any new regulations that you have from recently-passed legislation (i.e. Cures).

A template is attached for your convenience. We DO NOT need a formal memo - just the completed spreadsheet.

Thank you for your timely submission. ***If your office does not engage in rulemaking, please just close out your assignment. ***

Contact me with any questions.

Thanks,
Sam Shipley

US: House passes 20-week abortion ban (Includes video)

Hill - October 03, 2017

The House passed a bill Tuesday that would ban abortions after 20 weeks. The bill (H. R. 36 - Pain-Capable Unborn Child Protection Act), sponsored by Rep. Trent Franks (R-Ariz.), would make it a crime to perform or attempt an abortion after 20 weeks of pregnancy, with the possibility of a fine, up to five years in prison or both.

US: Indiana justice will lead national opioid task force

Batesville Herald Tribune - October 03, 2017

In response to this national crisis, top state court leaders formed a task force to find solutions, examine current efforts and make recommendations to address the opioid epidemic's ongoing impact on the justice system. Chief Justice Loretta Rush will co-chair the task force.

INTERNATIONAL**Rwanda: Inside Rwanda's shocking orphanages marked for closure**

INews - October 03, 2017

A British charity is backing the decision by Rwanda to shut the orphanages which sprang up after the 1994 genocide, as the country's radical but controversial reforms continue. Five years ago, the Rwandan government decided to close them and start rehoming

children with families - one aspect of a rapidly changing country led by President Paul Kagame, a Tutsi former guerrilla fighter whose rebel forces helped end the genocide. Though orphanages sprang up to alleviate a desperate situation, decades of research shows the detrimental impact of growing up in one. Often isolated and cut off from communities, children suffer a chronic lack of affection and proper adult care, which affects cognitive and socio-economic development.

Hi Colleen and Joe,

The Department has made me a contact for implementation of the 21st Century Cures Act. I wasn't aware ACF had any involvement with the law. Has either CB or the Home Visiting Program been working with the Department on implementation of the law? They have listed this section as what ACF is involved in:

SEC. 10005. SCREENING AND TREATMENT FOR MATERNAL DEPRESSION.

Part B of title III of the Public Health Service Act (42 U.S.C. 243 et seq.) is amended by inserting after section 317L (42 U.S.C. 247b–13) the following:

“SEC. 317L–1. SCREENING AND TREATMENT FOR MATERNAL DEPRESSION.

“(a) GRANTS.—The Secretary shall make grants to States to establish, improve, or maintain programs for screening, assessment, and treatment services, including culturally and linguistically appropriate services, as appropriate, for women who are pregnant, or who have given birth within the preceding 12 months, for maternal depression.

“(b) APPLICATION.—To seek a grant under this section, a State shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require. At a minimum, any such application shall include explanations of—

“(1) how a program, or programs, will increase the percentage of women screened and treated, as appropriate, for maternal depression in 1 or more communities; and

“(2) how a program, or programs, if expanded, would increase access to screening and treatment services for maternal depression.

“(c) PRIORITY.—In awarding grants under this section, the Secretary may give priority to States proposing to improve or enhance access to screening services for maternal depression in primary care settings.

“(d) USE OF FUNDS.—The activities eligible for funding through a grant under subsection (a)—

“(1) shall include—

“(A) providing appropriate training to health care providers; and

“(B) providing information to health care providers, including information on maternal depression screening, treatment, and followup support services, and linkages to community-based resources; and

“(2) may include—

“(A) enabling health care providers (including obstetrician-gynecologists, pediatricians, psychiatrists, mental health care providers, and adult primary care clinicians) to provide or receive real-time psychiatric consultation (in-person or remotely) to aid in the treatment of pregnant and parenting women;

“(B) establishing linkages with and among community-based resources, including mental health resources, primary care resources, and support groups; and

“(C) utilizing telehealth services for rural areas and medically underserved areas (as defined in section 330I(a)).

“(e) AUTHORIZATION OF APPROPRIATIONS.—To carry out this section, there are authorized to be appropriated \$5,000,000 for each of fiscal years 2018 through 2022.”.

Subject: Cures Contact List.docx

Hi again, everyone.

Attached is a Contact List template for the IOS Implementation Strategy on 21st Century Cures.

Can you please send this to your offices to populate?

We are only looking for ONE (1) contact per Office/Row for the time being. For example, if ASPE is listed as an office and the offices of DALTCP, HP, and SDP within ASPE all are involved, I would like only one person listed to represent them all. That person will serve as point person for their office.

Format we're looking for is: Name; E-mail; Phone

As we enter this into the strategic planning network, we may expand access – but for the time being, please only include one person per Office/Row.

Let me know if you have any questions. **Please return this document to me by COB Wednesday May 10, 2017.**

- Sam

Subject: Home Visiting Evidence of Effectiveness (HomVEE) Executive Summary and Summary Brief

Colleagues:

The Maternal, Infant and Early Childhood Home Visiting (MIECHV) Program, which provides grants to states, territories, and tribes, is jointly administered by HRSA and ACF. The home

visiting legislation reserves the majority of funding for home visiting models with evidence of effectiveness, and required the Secretary to establish criteria for evidence of effectiveness.

ACF's Office of Planning, Research and Evaluation (OPRE) has the lead role for determining which home visiting models have evidence of effectiveness. OPRE oversees the Home Visiting Evidence of Effectiveness (HomVEE) systematic review of the evidence of effectiveness for home visiting models that target families with pregnant women and children from birth to kindergarten entry. As we have done for the past several years, we have updated the HomVEE with results of new reviews of home visiting program models.

Today, are publishing updated materials related to the review. These publications include an executive summary that provides detailed information on all 45 home visiting models reviewed by HomVEE and a summary brief that describes the review process, review results, and the 20 program models determined to meet criteria for an "evidence-based early childhood home visiting service delivery model." **This year's review does not add to the list of evidence-based models.** We do not anticipate press interest.

In brief, this year HomVEE:

- Updated one previously reviewed model that already meets DHHS criteria for an evidence-based early childhood home visiting service delivery model: Family Check-Up® for Children (see below for a description of the model).
- Updated 4 implementation profiles:
 - Family Check-Up®,
 - Home Instruction for Parents of Preschool Youngsters® (HIPPY),
 - Parents as Teachers® (PAT), and
 - SafeCare®.
- Updated the Tribal Report that summarizes the systematic review HomVEE conducted that focuses specifically on studies relevant to tribal communities. This report describes the review process, presents descriptive information about the program models reviewed, and describes the lessons learned across the reviewed studies, with a focus on cultural relevance and implementation.

ADDITIONAL INFORMATION

-

Family Check-Up Model

Family Check-Up (FCU) for Children is designed as a preventative program model to help parents address typical challenges that arise with young children before these challenges become more serious or problematic. The program model focuses on high-risk families, where normative challenges are more likely to lead to unfavorable outcomes, such as child conduct problems. FCU seeks to decrease children's conduct, academic, and internalizing problems; reduce maternal depression; and increase parental involvement and positive parenting. FCU for Children is made up of three home visits with an FCU provider who has been trained in the program model. After the three home visits, the provider makes recommendations for a family-based intervention tailored to the needs of the family, such as parent management training, preschool consultation, or community referrals. For the purpose of the HomVEE review, only studies of sites that used home visiting as the primary service delivery method and that included families with children from birth to age 5 were included.

-

Updated Tribal Report: "Assessing the Research on Home Visiting Program Models Implemented in Tribal Communities"

This systematic review focuses specifically on studies relevant to tribal communities. The results of this review of home visiting in tribal communities are summarized in two parts. Part 1 describes the review process and findings and presents descriptive information about the program models reviewed. Part 2 describes the lessons learned across the reviewed studies, with a focus on cultural relevance and implementation. It also proposes considerations for supporting program implementation in tribal communities and for strengthening research on tribal home visiting programs. The review included studies of home visiting program models implemented in tribal communities in the U.S., implemented in indigenous communities outside the U.S., or evaluated with American Indian and Alaska Native families and children. The review was originally released in February 2011; the updated version includes studies identified by HomVEE search strategies as of a literature search conducted in early 2016.

Termination letter being sent today for next day delivery. We're working on an alert for Hill and also list of MSHS programs that are actually operating right now. Do you think an alert after docs are received tomorrow makes sense? Rep. Cuellar already knows and Sen. Cornyn is in the know too. That way it's just one alert with all documents attached.

Disruption won't be immediate because we know

(b)(5)

Does that make sense to you?

Thanks,
Catherine

Refugee office chief deflects questions on abortion policy

By Renuka Rayasam

10/26/2017 11:20 AM EDT

The head of the HHS office that oversees unaccompanied minors deflected questions during a Thursday House hearing about whether he personally met with pregnant teens to talk them out of having abortions and whether undocumented immigrants have constitutional rights.

Scott Lloyd, head of the Office of Refugee Resettlement, was pressed by the House Judiciary Committee about his agency's policy of blocking abortions among pregnant minors in its care. His appearance came a day after an unaccompanied minor in ORR custody, known as Jane Doe in court filings, obtained an abortion after a high-profile legal battle that put the policy in the spotlight.

"My ability to answer [those questions] fully are limited to a number of factors," Lloyd told the panel.

"I'm out in the field in many of our locations and meet with dozens and hundreds of people we serve," Lloyd said. "Among them I am certain some of them were pregnant at the time."

Sheila Jackson Lee (D-Texas) asked specifically about how the policy applies to pregnant minors in ORR custody who have been raped.

"We work in the best interest of all the [unaccompanied minors] that come into our care," answered Lloyd.

Lloyd stumbled when Pramila Jayapal (D-Wash.) pressed him about whether he has the medical training and counseling background necessary to advise pregnant teens about their options and also refused to discuss the Jane Doe case.

"I'm not going to comment on any individual case, but any case that comes across my desk, I will look at a totality of considerations," said Lloyd.

Separately the watchdog group Campaign for Accountability asked the Virginia State Bar to investigate whether Lloyd, formerly a lawyer with the Catholic charitable organization the Knights of Columbus, violated a professional code of conduct by contacting pregnant girls in ORR's care.

Becca,

There wasn't an attachment with your email. I have copied my colleague, Anna Pilato, on this email. She is ACF's Deputy Assistant Secretary for External Affairs and would be the appropriate contact for your organization to reach out to.

Regards,
Scott

Hello Scott,

My name is Rebecca Nathanson, and I work in Government Affairs at the American Congress of Obstetricians and Gynecologists. I wanted to make sure to pass along the attached letter from the Presidents of the American Congress of Obstetricians and Gynecologists, the American Academy of Pediatrics, and the Society for Adolescent Health and Medicine to Director Scott Lloyd expressing serious concerns about reports of women and adolescents in Office of Refugee Resettlement shelters being denied access to reproductive health care. The letter was sent on Friday, October 20th.

Please do not hesitate to contact me with any questions you might have.

Best,
Becca

Scott,
 The current ORR policy is attached. "Medical Services Requiring Heightened ORR Involvement." We also have the IFR on sexual abuse, which provides for emergency contraception in the case of rape in an ORR facility. There is leftover language from the last administration that is on the website and Laura is checking into it.

BREAKING: D.C. Circ. Paves The Way For Immigrant Teen's Abortion

The en banc D.C. Circuit on Tuesday cleared the way for an unauthorized, immigrant teen to have an abortion, vacating a previous order that had given the government more time to find a sponsor for her.

By DAN DIAMOND (ddiamond@politico.com)

ONE DAY UNTIL OPEN ENROLLMENT - With the ACA sign-up period just hours away, and the prominent people are announcing last-minute efforts to try and boost awareness of open enrollment.

For instance, the Independent Drivers Guild in New York City says it's launching its own open enrollment for Uber, Lyft and other app-based services who are uninsured.

"The Trump Administration's decision to cancel publicity around open enrollment will be especially impactful for the Independent Drivers Guild. "Drivers for apps like Uber and Lyft, even those who work full time, are often uninsured."

And in an example of art imitating life, Bradley Whitford - who played policy wonk Josh Lyman on *Saturday Night Live* - is using the event to boost sign-ups.

"One thing I loved about [Lyman] was his pragmatism," Whitford told the Hill. But "people who care about principle."

FIRST IN PULSE: Tech companies announce initiative to boost awareness of open enrollment - A coalition of companies including Fiverr, Care.com, DoorDash, Etsy, Postmates and others working with Stride Health - says it will use their platforms to help uninsured workers. The companies will host community events and send alerts via their apps and social media channels.

The companies touch more than 3.5 million people, a spokesperson said. "Our major goals for the initiative are to help our users need to make the right decision around their health coverage, and that means using broad outreach."

... One reason for the effort: Many of these companies engage with people who rely on the ACA. A significant portion of their workforce has turned to a health insurance marketplace to obtain coverage.

An Obamacare sign is pictured.

The start of Obamacare open enrollment is just hours away. | Getty

30 DAYS SINCE CHIP FUNDING EXPIRED - Meanwhile, it's been a month since Congress let funding for the Children's Health Insurance Program (CHIP) expire. Increasingly nervous advocates are pinning their hopes on a bill that will be considered this week.

- Looking at a legislative fix: A substitute amendment from House Energy and Commerce Chairman E. Scott Lujan's committee includes a two-year delay of Medicaid disproportionate share payments and health center money for two years now includes a two-year delay of Medicaid disproportionate share payments. The bill now eliminates an earlier proposal to increase Medicare costs on wealthy beneficiaries.

Subject: Order granting TRO for UAC in care
Importance: High

(b)(6)

Per the Temporary Restraining Order issued by the U.S. District Court Judge in Washington DC, and further to my and (b)(6) conversation on the phone, here is direction from ACF and HHS leadership for the case of the UAC requesting TOP:

IES should coordinate with the UAC's guardian ad litem for the UAC to see her OB GYN tomorrow (Thursday October 19), for a pre-abortion counseling appointment and travel to and from that appointment (she should be returned to the shelter after that appointment), and Friday or Saturday (October 20 or 21) for the abortion procedure (she should be returned to the shelter after that appointment when her medical condition allows it). Please also note that IES should not:

- interfere with or obstruct the UAC's access to abortion counseling or an abortion;
- require the UAC to reveal her abortion decision to anyone, nor should ORR staff or the shelter reveal it to anyone themselves; or
- retaliate against the UAC based on her decision to have an abortion.

Likewise, ORR shall not retaliate or threaten to retaliate against IES for any actions it has taken or may take in facilitating the UAC's ability to access abortion counseling and an abortion.

I am advised that this instruction may change if an appeals court puts this court order on hold, but until you receive notification in writing that this has occurred, please assume the requirement for her to have access to abortion services is in place and proceed with

arrangements for the UAC to receive medical services from her OB GYN, including abortion counseling and workup for pregnancy termination.

I am clarifying details related to logistics of the transport to the appointment per our conversation and will update shortly when I have definitive guidance.

Please let me know if you have any questions.

All,

In addition to the messages in Nancy's email, I have heard from other staff as well who have received voicemails, calls, and emails expressing disapproval of the position of the Administration on UAC seeking abortion. These are coming in on the individual desk phones of staff.

I have received calls, emails, and voicemails myself on my desk and cell phone.

None of these I have received or that staff have forwarded to me constituted threats. They express strong disapproval of the position taken by the Administration.

**Illegal child immigrants seeking abortion
pose legal, religious clashes**
(front page of the print edition)

Federal judges in the District of Columbia and California are grappling with a thorny legal issue testing the limits of religious freedom and abortion rights involving pregnant illegal immigrants held at government-funded shelters, some of which are run by pro-life religious charities. The young women in many cases have survived harrowing journeys north, some of them pregnant from being raped along the way.

They arrived at the U.S. border as unaccompanied alien children and are entitled under law to special treatment, including medical care.

Washington Times, DC

Oct. 16, 2017

States like Texas can no longer deny access to abortions

Doe's right to access an abortion while in federal care is clearly stated by the law and must not be denied.

Lloyd's directions, and the center's decision to inform Doe's mother of her choice to terminate the pregnancy, show a blatant disregard for Ms. Doe's right to obtain an abortion. Lloyd has no place to impose his own religious beliefs on the children in his care as a representative of the federal government. As part of the executive branch, his job is to enforce the existing laws and policies of the U.S. government, which are exceedingly clear on how his organization should conduct itself in this situation.

Abortion ban for girls in immigration custody revealed in ACLU suit

A flurry of documents in a San Francisco court case has disclosed a previously unknown Trump administration policy, in effect since March: a ban on abortions for pregnant girls who entered the United States alone and are in immigration custody. The policy appears to be illegal, U.S. Magistrate Laurel Beeler said Wednesday, because all women in the United States — including prisoners and immigrants, documented or undocumented — have a constitutional right to abortion.

San Francisco Chronicle, CA

Immigrant teen's advocates: US pushing anti-abortion agenda
(published on dozens of mainstream media websites)

Shortly after taking over the U.S. government office that oversees facilities for unaccompanied immigrant children, Scott Lloyd told a subordinate what to do with a teenager who wanted an abortion. Facilities under HHS "should not be supporting abortion services pre or post-release," but rather "life-affirming options counseling," Lloyd wrote in an email. The apparent new policy is being put to the test, as lawyers have gone to

court to try to force the government to allow a 17-year-old Central American being held at a Texas facility to get an abortion. They accuse the Trump administration of trying to stop any immigrant teens in government custody from terminating a pregnancy.

Associated Press, TX

Undocumented
teen held in Texas is at the heart of an abortion fight
(also carried via local NPR outlets)

Attorneys with the American Civil Liberties Union are asking a federal court in Washington, D.C., to force the Trump administration to allow a young, undocumented immigrant woman in Texas to obtain an abortion. The ACLU said the 17-year-old unaccompanied minor from Central America is being held at a private shelter that contracts with the federal Department of Health and Human Services Office of Refugee Resettlement, and federal officials will not release her to obtain the procedure. The suit seeks an emergency order asking the court to block the federal government from obstructing the girl's access to abortion.

National Public Radio, DC

ACLU files suit in DC
over abortion access for migrant girl in federal custody

The ACLU announced Friday it had filed suit in federal court in Washington, D.C., to stop the government from blocking a 17-year-old migrant girl's access to a Texas abortion clinic. The girl is in federal custody at a shelter in South Texas, but has secured a court order granting her access to abortion and allowing her release to a court-appointed guardian. But in recent weeks, the federal Office of Refugee Resettlement has refused to release her to the guardian, instead sending the girl to religious pregnancy counseling.

Judge refuses

to hear case on teenage illegal immigrant who wants an abortion

A federal judge in California refused to hear a case slated for Wednesday deciding whether the state of Texas must help a teenage illegal immigrant obtain an abortion. U.S. Magistrate Judge Laurel Beeler said she couldn't hear the case because the girl

— who remains anonymous for privacy reasons — is in Texas rather than the state of California. A judge in another state does not have jurisdiction to rule on the case she said.

Daily Caller, DC

Oct. 12, 2017

Texas
backs Trump agency in holding undocumented abortion-seeking minor 'hostage'

Attorney General Ken Paxton declared in a court brief this week in support of the Trump administration's decision to prevent an undocumented minor from obtaining abortion in the state that Texas "must not become a sanctuary state for abortions."

Paxton led six other states, including Louisiana and Oklahoma, in defending ORR in a court brief. However, the feds are legally required to provide unaccompanied minors with basic necessities, such as housing and medical care, including family planning services and abortion.

Austin Chronicle, TX

Oct. 12, 2017

Judge
says feds have no right to block undocumented minor's abortion — but won't stop them

A federal judge has declined to stop the government from blocking a teenage girl living in Texas from getting a legal abortion. The 17-year-old girl is an undocumented immigrant currently in the care of the federal government, since she travelled to the U.S. as an unaccompanied minor, meaning she is entitled to U.S. health care. But, while U.S. Magistrate Judge Laurel Beeler said she found "no justification" for the government restricting Doe's right to an abortion, she said the issue is out of her hands.

San Antonio Current, TX

Oct. 12, 2017

**Undocumented
teen's abortion delayed by CA ruling**

A U.S. magistrate judge in San Francisco refused Wednesday to order federal officials to allow an abortion for an undocumented pregnant 17-year-old who is being held in a government-funded shelter in Texas and who wants the procedure. U.S. Magistrate Judge Laurel Beeler said the case was too remote from the Northern California federal court district for her to take action. Beeler also said in a written ruling that the federal officials were not entitled to obstruct Jane Doe from obtaining an abortion. "The government may not want to facilitate abortion, but it cannot block it. It is doing that here," Beeler wrote.

*California Patch,

Undocumented
teen's request to have an abortion in Texas dismissed by federal judge

A federal judge dismissed a request Wednesday for an undocumented teen to have an abortion in Texas, but her advocates say the fight is not over. The organization requested a temporary restraining order to force the U.S. Department of Health and Human Services to either transport Doe or allow her to be taken to an abortion clinic for her procedure. U.S. Magistrate Judge Laurel Beeler denied the request, saying that because Doe is not from the Northern California district, it's not the correct venue for the decision.

Court won't
hear case of undocumented teenager seeking abortion access

A federal court has refused to hear the case of a pregnant 17-year-old undocumented immigrant at the center of a legal dispute over whether unaccompanied immigrant minors have the right to an abortion in the United States. The California judge denied the request, arguing that she couldn't hear Doe's case because Doe is in Texas. However, the judge did say that "the government has no business blocking Jane Doe's abortion."

Texas Tribune, TX

October 11, 2017

Judge won't order officials to allow abortion

A federal judge in California says she doesn't understand why federal officials don't step aside and allow a pregnant 17-year-old being held in a Texas facility for unaccompanied immigrant children to get an abortion. U.S. Magistrate Judge Laurel Beeler also said Wednesday during a hearing in San Francisco that she didn't think the legal challenge on behalf of the girl by the American Civil Liberties Union of Northern California belonged in her courtroom.

Daily Journal, CA

Oct. 11, 2017

Court

denies request to release undocumented teen from Texas facility for an abortion

A federal court denied a request Wednesday from attorneys advocating on behalf of a pregnant minor in the custody of the Office of Refugee Resettlement in Brownsville. The teenager is being prevented from getting an abortion because of a Trump administration policy that bars unaccompanied immigrant minors from accessing them. The court, which is in Northern California, said it couldn't grant the request because the teen is in Texas. In its ruling, however, it said "the government may not want to facilitate an abortion, but it cannot block it."

ACLU

sues Trump administration to force government to provide abortions for illegal immigrant minors

The American Civil Liberties Union (ACLU) added the case of an unaccompanied minor, who came into the U.S. illegally and is not being given abortion access by the government, to their June lawsuit against the federal government for awarding grant money to religious organizations, such as the United States Conference of Catholic Bishops (USCCB) that help unaccompanied minors but won't refer them for abortions.

Townhall, CA

Oct. 11, 2017

Immigrant minor held 'hostage'
by Texas because she wants abortion care

An unaccompanied immigrant minor at a Texas shelter is being prevented from accessing abortion care by the Office of Refugee Resettlement (ORR), the federal agency overseeing migrant youth crossing the U.S.-Mexico border without a guardian. Officials are both refusing her transportation to the medical facility and refusing to allow her to leave the shelter with her guardian for the purpose of obtaining an abortion. ORR is supposed to provide transportation to minors when they need to go to court or see a doctor.

Rewire, MD

Oct. 11, 2017

The Trump administration

is preventing undocumented immigrant minors from getting abortions

Thousands of unaccompanied, undocumented immigrant minors are currently in the custody of the United States federal government, which is legally obligated to provide them with health care. In March of 2017, the Office of Refugee Resettlement announced that federally funded shelters are barred from taking “any action that facilitates” abortion for these unaccompanied minors without “direction and approval” from ORR Director Scott Lloyd. And according to the ACLU, Lloyd, a Trump nominee, is now prohibiting minors from accessing abortion care—and instead sending them to “crisis pregnancy centers” that urge them not to terminate their pregnancies.

According to the ACLU, Lloyd, the current ORR director, has personally called pregnant minors in an attempt to talk them out of terminate their pregnancies.

Texas
can't become 'sanctuary state for abortions,' Paxton tells court

Texas Attorney General Ken Paxton on Tuesday urged a federal court in San Francisco to say that women in the United States illegally do not have a right to abortion services. Paxton filed a brief in an existing case, which includes an undocumented minor in Texas seeking an abortion, arguing that the “Constitution does not confer on Jane Doe the right to an abortion.”

El Paso Times, TX

October 10, 2017

Teen
detained in Texas after crossing border fights to have abortion

Advocates for a pregnant 17-year-old girl held in a Texas facility for immigrant children who have crossed the border alone are asking a federal judge to allow her to get an abortion, over the opposition of U.S. and state officials. A federal magistrate judge in San Francisco has scheduled a hearing Wednesday on a request filed by the American Civil Liberties Union of Northern California, which accuses the U.S. Department of Health and Human Services of refusing to let the girl be taken for the procedure. Staff at the facility where she's being held refused to take her to her appointments with a doctor to seek an abortion, or let the attorney take her, even though private groups that support abortion rights have raised money for the procedure. Instead, she was taken to a crisis pregnancy center.

Associated Press, TX

Oct. 10, 2017

Court
filing: Trump appointee blocks pregnant teen migrant from getting abortion

A Trump appointee has prevented a 17-year-old migrant at a federally funded shelter in Texas from getting an abortion and directed she be sent instead to religious counseling, according to a motion filed in federal court last week. In court filings over the last few days, they've argued that changes at the Office of Refugee Resettlement are to blame and that the girl, referred

to as Jane Doe, is not an isolated case. According to emails filed with the court, new ORR Director Scott Lloyd has met with a minor in federal custody to discuss her pregnancy and directed his staff to counsel girls about the risks of abortion – an early sign of how Lloyd’s priorities will reflect his past work in pro-life advocacy.

Undocumented
teenager seeks court authorization to access abortion services

A pregnant, 17-year-old, undocumented immigrant is at the center of a legal dispute over whether unaccompanied immigrant minors have the right to an abortion in the United States. Jane Doe, as she's referred to in court filings, is currently at a shelter in Brownsville, in the custody of the Office of Refugee Resettlement (ORR), a federal agency responsible for refugees and unaccompanied undocumented minors. Doe is seeking an emergency court order authorizing her to access abortion services after the federal office blocked her from attending a pre-abortion medical appointment.

Texas Tribune, TX

Oct. 10, 2017

-

Pregnant
immigrant in Texas will test abortion access

Officials with the ACLU and Janes Due Process, a nonprofit that helps teenagers gain access to abortion, argue that Jane Doe’s experience is part of a larger pattern by the Office of Refugee Resettlement, which under President Donald Trump has refused to allow unaccompanied minors to receive abortions, referring them instead to crisis pregnancy centers which counsel women against abortions, often from a religious perspective. “Trump administration officials are literally holding her hostage,” ACLU lawyer (b)(6) said. “The interference by government officials about the most intimate and personal decision a woman can make is horrific. It’s also blatantly unconstitutional.”

Austin American-Statesman, TX

Oct. 10, 2017

Trump
administration blocks legal abortion for undocumented Texas minor in federal care

A 17-year-old undocumented minor living in federal custody in Texas is being denied her right to an abortion by the federal government. American Civil Liberties Union lawyers, who call the move "shocking" and "straight from dystopian fiction" are requesting an emergency hearing Wednesday in a California federal court to grant her abortion access before she's too far along in her pregnancy. The girl, dubbed "Jane Doe" in court documents, is currently living in a Brownsville facility for undocumented and unaccompanied minors run by the feds where, by law, she is required access to "family planning services, including pregnancy tests and ... access to medical reproductive health services and emergency contraception."

San Antonio Current, TX

Oct. 10, 2017

Texas
must not be a 'sanctuary state for abortions,' AG Ken Paxton says in court brief

The federal government should not give unauthorized immigrant minors the right to have abortions, Texas Attorney General Ken Paxton said Tuesday. The American Civil Liberties Union wants to add "Jane Doe," a 17-year-old unauthorized immigrant who sued in Texas to have an abortion, to an existing federal case against the U.S. Department of Health and Human Services. Paxton filed a brief in the case in response, arguing that unauthorized minors do not have the right to have abortions. The ACLU argues that restricting reproductive and abortion care is unconstitutional, but Paxton said the case could establish Texas as a "sanctuary state for abortions."

Dallas Morning News, TX

Oct. 10, 2017

Teenage

illegal immigrant crosses border to get abortion. Now it's up to a judge if she can.

A judge is deciding Wednesday whether the state of Texas must help a teenage illegal immigrant get an abortion — a case that could have serious ramifications. Even though the 17-year-old illegal immigrant received a judicial waiver allowing her — a minor — to get an abortion, the officers detaining her refuse to take her to an abortion clinic American Civil Liberties Union (ACLU) lawyer, (b)(6) (b)(6) told The Associated Press on Tuesday. “I feel like they are trying to coerce me to carry my pregnancy to term,” the girl told a federal court earlier in October, explaining that she was taken to a crisis pregnancy center instead of an abortion clinic.

Hello Everyone,

In reviewing the above UAC's files, I came across the email below. Please clarify regarding the gestational age of her pregnancy. Is she 8 weeks, or more like 18 / 19, as indicated in the email?

Please forward the case review referenced in this email as soon as possible.

Thank you,

Scott

I spoke to Amanda Bennet, CM from Jane's Due Process, to ensure we are taking all the steps and complete them in a timely manner.

?

We will need to take her to apply for the judicial bypass tomorrow morning. Do I go with her or can the clinician or case manager go?

?

Also, she does need a sonogram and options counseling at the same place she will have the procedure done, by Texas law, then wait 24 hours before the procedure takes place. I don't want to step on toes and I don't know exactly how far along she is but her case review said she was already 18 weeks, I am thinking she is between 18 and 19, would Scott be taking care of these appointments or should I contact them?

I was informed that Planned Parenthood might not be able to complete the procedure if she is past 17 weeks but this is not confirmed.

IES LF SHELTER

From: White, Jonathan (ACF) <Jonathan.White@ACF.hhs.gov>

Sent: Wednesday, October 18, 2017 4:45 PM

To: (b)(6) (b)(6)

Cc: Brooks, Teresa (ACF); Lloyd, Scott (ACF)

Subject: Order granting TRO for UAC in care

(b)(6)

Per the Temporary Restraining Order issued by the U.S. District Court Judge in Washington DC, and further to my and (b)(6) conversation on the phone, here is direction from ACF and HHS leadership for the case of the UAC requesting TOP:

IES should coordinate with the UAC's guardian ad litem for the UAC to see her OB GYN tomorrow (Thursday October 19), for a pre-abortion counseling appointment and travel to and from that appointment (she should be returned to the shelter after that appointment), and Friday or Saturday (October 20 or 21) for the abortion procedure (she should be returned to the shelter after that appointment when her medical condition allows it). Please also note that IES should not:

-
interfere with or obstruct the UAC's access to abortion counseling or an abortion;

-
require the UAC to reveal her abortion decision to anyone, nor should ORR staff or the shelter reveal it to anyone themselves; or

-
retaliate against the UAC based on her decision to have an abortion.

Likewise, ORR shall not retaliate or threaten to retaliate against IES for any actions it has taken or may take in facilitating the UAC's ability to access abortion counseling and an abortion.

I am advised that this instruction may change if an appeals court puts this court order on hold, but until you receive notification in writing that this has occurred, please assume the requirement for her to have access to abortion services is in place and proceed with arrangements for the UAC to receive medical services from her OB GYN, including abortion counseling and workup for pregnancy termination.

I am clarifying details related to logistics of the transport to the appointment per our conversation and will update shortly when I have definitive guidance.

Please let me know if you have any questions.

<Scott.Lloyd@acf.hhs.gov>

Good Afternoon Mr. White,

I fully understand and we will proceed as directed pending further updates, as of this moment we

WILL NOT transport UAC to medical center tomorrow 10/20/17. With that said, please see detailed summary of today's consult below....

The care provider staff and UAC arrived (b)(6) located at (b)(6) (b)(6) McAllen, Texas (b)(6) at 8:00 a.m. as requested. Care provider staff were met by (b)(6) Guardian Ad Litem and (b)(6) Attorney, whom were already at health center awaiting the arrival of UAC. Care provider staff and UAC were escorted into building by security officer and attorneys.

Guardian Ad Litem proceeded to assist UAC with the medical forms issued by medical office. Only attorneys accompanied UAC during today's consult, care provider did not partake or witness any portion of services issued during today's consult. both attorneys accompanied UAC, care provider staff remained in waiting area. Following UAC's consult, attorneys advised care provider Medical Coordinator that subsequent

appointment was to be scheduled for tomorrow, 10/20/17 at 8:00 a.m. As per Attorneys, care provider should expect to be present at medical facility for at least 6 hours (please see attached medical progress note issued to care provider staff). At the conclusion of today's appointment, Attorney (b)(6) informed care provider Medical Coordinator that "UAC's appointment for procedure was scheduled for tomorrow 10/20/17 at 8:00AM and to be prepared to see protestors upon arrival. In addition, Ms. (b)(6) (attorney)

stated the procedure would **not** be performed "right away" that "procedure would not be performed until ORR contacted care provider and informed care provider that procedure would be taking place".

Please be advised upon exiting facility, care provider staff identified media presence. Care provider staff took immediate measure to conceal the UAC from any media, however care provider staff were not approached by media and are not able to confirm if video footage was taken of the UAC or staff exiting the facility (an ORR SIR will be submitted regarding medial presence).

Again, as of this moment, 10/19/17 at 4:00 p.m. (CST) care provider **WILL NOT** be transporting UAC to scheduled appointment on Friday, 10/20/17 at 8:00 a.m. Care provider will adhere to ORR Director's previously issued directives unless care provider receives subsequent explicit directives from ORR HQ officials to proceed otherwise.

Please let me know if you have any questions or concerns, we will gladly be of assistance.

Subject: Instructions on UAC in care

Importance: High

(b)(6)

Please see latest guidance from HHS leadership, below:

Yesterday we sent you instructions on complying with the temporary restraining order (TRO) of the U.S. District Court concerning the UAC who is seeking an abortion procedure. We also indicated that TRO would be subject to subsequent orders of appeals courts.

Today we received an order of the appeals court, copied below, which places an “administrative stay” on yesterday’s TRO to the extent that TRO requires that the minor be transported or released for an abortion procedure on October 20 or 21. What this stay means is that ORR is no longer required by court order to transport or release the minor for this purpose, pending subsequent orders of the court.

As a result of this new order, HHS and ORR leadership instruct that you should please again comply with the ORR Director’s September 27, 2017 decision, which directed that the minor shall not be transported or released for the abortion procedure.

Please confirm your receipt of this instruction.

We will again update you as we receive further instructions from the court.

Court of Appeals Docket #: 17-5236 Docketed: 10/18/2017

Rochelle Garza v. Eric Hargan, et al

Appeal From: United States District Court for the District of Columbia

Docket Text:

PER CURIAM ORDER [1700058] filed ORDERED that the district court's temporary restraining order filed on October 18, 2017, be administratively stayed pending further order of this court to the extent that the order requires appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem to obtain an abortion procedure on October 20, 2017, and/or October 21, 2017. The portion of the order requiring appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem on October 19, 2017, to obtain the counseling required by state law remains in effect, as do paragraphs 3, 4, and 5 and the costs and contempt provisions of the order. The purpose of this administrative stay is to give the court sufficient opportunity to consider the emergency motion for stay and should not be construed in any way as a ruling on the merits of that motion. See D.C. Circuit Handbook of Practice and Internal Procedures 33 (2017). It is FURTHER ORDERED, on the court's own motion, that appellee file a response to the emergency motion for stay by 2:00 p.m. today, October 19, 2017. Any reply is due by 8:00 p.m. today, October

19, 2017. The parties are directed to hand-deliver the paper copies of their submissions to the court by the time and date due. It is FURTHER ORDERED that oral argument be scheduled before this panel on Friday, October 20, 2017,
at 10:00 a.m. in Courtroom 31. Before Judges: Henderson, Kavanaugh and Millett. [17-5236]

Subject: UAC - Garza v. Hargan et al.

Deadline: Oct. 16, 2017

Spokesperson: ACF

Query: I'm working on a story about the Jane Doe case here in Brownsville, Texas in which an unaccompanied minor girl has been refused an abortion. I had a few questions I was hoping you could help me answer:

1. I wanted to better understand whether refusing to allow abortions for unaccompanied minor girls who are pregnant is a new federal policy for ORR
2. Where is the policy coming from – is coming from the President? Top HHS officials?
3. How long has it been in place?
4. Has the policy been vetted within HHS?
5. Has director Scott Lloyd personally visited shelters and girls who are in this situation?
6. Are you referring girls to crisis pregnancy centers and if so, which ones?
7. How are you pulling together that list?
8. Are you concerned about legal challenges?
9. How many pregnant girls are in shelters in the U.S?

Proposed Response:

The following may be attributed to the Administration for Children and Families at the U.S. Department of Health and Human Services:

"In most cases when a child enters the United States illegally without a parent or guardian, by law the minor is placed into the care and custody of the Office of Refugee Resettlement at HHS' Administration for Children and Families. At that point, our paramount concern is the child's safety and well-being. While the child is in our custody, our goal is to provide food, shelter and care to her under federal statute. In this specific case, we are providing excellent care to the adolescent girl and her unborn child, who remain under our care until the mother's release."

Subject: RE: Instructions on UAC in care

Good Afternoon Mr. White,

I fully understand and we will proceed as directed pending further updates, as of this moment we
WILL NOT transport UAC to medical center tomorrow 10/20/17. With that said, please see detailed summary of today's consult below....

*The care provider staff and UAC arrived (b)(6) located at (b)(6)
(b)(6) at 8:00 a.m. as requested. Care
provider staff were met by (b)(6) Guardian Ad Litem and (b)(6)
Attorney, whom were already at health center awaiting the arrival of UAC. Care
provider staff and UAC were escorted into building by security officer and attorneys.*

Guardian Ad Litem proceeded to assist UAC with the medical forms issued by medical office. Only attorneys accompanied UAC during today's consult, care

provider did not partake or witness any portion of services issued during today's consult. both attorneys accompanied UAC, care provider staff remained in waiting area. Following UAC's consult, attorneys advised care provider Medical Coordinator that subsequent

*appointment was to be scheduled for tomorrow, 10/20/17 at 8:00 a.m. As per Attorneys, care provider should expect to be present at medical facility for at least 6 hours (please see attached medical progress note issued to care provider staff). At the conclusion of today's appointment, Attorney (b)(6) informed care provider Medical Coordinator that "UAC's appointment for procedure was scheduled for tomorrow 10/20/17 at 8:00AM and to be prepared to see protestors upon arrival. In addition, Ms. Cortez (attorney) stated the procedure would **not** be performed "right away" that "procedure would not be performed until ORR contacted care provider and informed care provider that procedure would be taking place".*

Please be advised upon exiting facility, care provider staff identified media presence. Care provider staff took immediate measure to conceal the UAC from any media, however care provider staff were not approached by media and are not able to confirm if video footage was taken of the UAC or staff exiting the facility (an ORR SIR will be submitted regarding medial presence).

Again, as of this moment, 10/19/17 at 4:00 p.m. (CST) care provider **WILL NOT** be transporting UAC to scheduled appointment on Friday, 10/20/17 at 8:00 a.m. Care provider will adhere to ORR Director's previously issued directives unless care provider receives subsequent explicit directives from ORR HQ officials to proceed otherwise.

Please let me know if you have any questions or concerns, we will gladly be of assistance.

(b)(6)

Please see latest guidance from HHS leadership, below:

Yesterday we sent you instructions on complying with the temporary restraining order (TRO) of the U.S. District Court concerning the UAC who is seeking an abortion procedure. We also indicated that TRO would be subject to subsequent orders of appeals courts.

Today we received an order of the appeals court, copied below, which places an “administrative stay” on yesterday’s TRO to the extent that TRO requires that the minor be transported or released for an abortion procedure on October 20 or 21. What this stay means is that ORR is no longer required by court order to transport or release the minor for this purpose, pending subsequent orders of the court.

As a result of this new order, HHS and ORR leadership instruct that you should please again comply with the ORR Director’s September 27, 2017 decision, which directed that the minor shall not be transported or released for the abortion procedure.

Please confirm your receipt of this instruction.

We will again update you as we receive further instructions from the court.

Court of Appeals Docket #: 17-5236 Docketed: 10/18/2017

Rochelle Garza v. Eric Hargan, et al

Appeal From: United States District Court for the District of Columbia

Docket Text:

PER CURIAM ORDER [1700058] filed ORDERED that the district court's temporary restraining order filed on October 18, 2017, be administratively stayed pending further order of this court to the extent that the order requires

appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem to obtain an abortion procedure on October 20, 2017, and/or October 21, 2017. The portion of the order requiring appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem on October 19, 2017, to obtain the counseling required by state law remains in effect, as do paragraphs 3, 4, and 5 and the costs and contempt provisions of the order. The purpose of this administrative stay is to give the court sufficient opportunity to consider the emergency motion for stay and should not be construed in any way as a ruling on the merits of that motion. See D.C. Circuit Handbook of Practice and Internal Procedures 33 (2017). It is FURTHER ORDERED, on the court's own motion, that appellee file a response to the emergency motion for stay by 2:00 p.m. today, October 19, 2017. Any reply is due by 8:00 p.m. today, October 19, 2017. The parties are directed to hand-deliver the paper copies of their submissions to the court by the time and date due. It is FURTHER ORDERED that oral argument be scheduled before this panel on Friday, October 20, 2017, at 10:00 a.m. in Courtroom 31. Before Judges: Henderson, Kavanaugh and Millett. [17-5236]

(b)(6)

Thank you for the clarification regarding the email and the gestational age, and many thanks to all for turning this around on a Sunday.

We understand these right to know materials to be those used in the context of Texas requirements for abortion:

<http://www.dshs.texas.gov/wrtk/default.shtm>, and they would be the appropriate materials to use as a basis for that discussion.

Regarding consent from the mother, Texas DSHS provides general informed consent materials on its website. These would be the forms to use, but should be verbally supplemented with the content in the "Woman's

Right to Know" materials to provide the content specific to the procedure. The purpose here is that the mother knows clearly what she is consenting to with regard to her daughter, so it will be important for staff to discuss these materials verbally (and send her a link if possible) so that the mother understands what she is consenting to.

<https://www.dshs.texas.gov/WorkArea/linkit.aspx?LinkIdentifier=id&ItemID=8590002330>

<https://www.dshs.texas.gov/WorkArea/linkit.aspx?LinkIdentifier=id&ItemID=8590002329>

Please let me know if you have further questions. I plan to arrive on-site around 9am, so there will be an opportunity to review and discuss further if necessary. I am also available by phone in the meantime, although I am traveling and will only have limited ability to take a call.

Thank you,

Scott

Hi Scott,

My apologies for the delay in getting back with you – folks were in church and wanted to give them time to get to their computers.

I met with team and have confirmed that the email in question, from (b)(6) was a miscommunication between she and the FFS and had nothing to do with (b)(6). Our apologies for the confusion and oversight.

According to UAC Portal records (b)(6) last menstrual period (LMP) 01/05/17 with an estimated date of delivery (EDD) 10/17/17. This information was confirmed with hCG serum quantitative test, this tests the amount of hCG in the blood and can predict the weeks of gestation, **the initial result** was 260 which placed her at approximately 4 week....which now places her around 9 weeks.

Her last OB/GYN appointment was 2/23/17 and EDD was stated at approximately 10/12/17.

Also, as a follow up to our call on Friday night, you said you would send us the link of the packet you wanted to ensure we were following. Can you please send me the link at your earliest convenience, so that we are following your exact

guidance? Lastly, I asked Jonathon for the language, per policy, that needs to be included in mother's parental consent and he said he would get with you. Can you please send that as well, so we can get that translated, if necessary.

Look forward to seeing you tomorrow, safe travels.

Hello Everyone,

In reviewing the above UAC's files, I came across the email below. Please clarify regarding the gestational age of her pregnancy. Is she 8 weeks, or more like 18 / 19, as indicated in the email?

Please forward the case review referenced in this email as soon as possible.

Thank you,

Scott

Copy.

I spoke to Amanda Bennet, CM from Jane's Due Process, to ensure we are taking all the steps and complete them in a timely manner.

?

We will need to take her to apply for the judicial bypass tomorrow morning. Do I go with her or can the clinician or case manager go?

?

Also, she does need a sonogram and options counseling at the same place she will have the procedure done, by Texas law, then wait 24 hours before the procedure takes place. I don't want to step on toes and I don't know exactly

how far along she is but her case review said she was already 18 weeks, I am thinking she is between 18 and 19, would Scott be taking care of these appointments or should I contact them?

I was informed that Planned Parenthood might not be able to complete the procedure if she is past 17 weeks but this is not confirmed.

Here is the new Associated Press article, following an interview with attorney Rochelle Garza:

https://www.washingtonpost.com/national/immigrant-teens-advocates-us-pushing-anti-abortion-agenda/2017/10/13/b1d1b9f4-b03e-11e7-9b93-b97043e57a22_story.html

Immigrant teen's advocates: US pushing anti-abortion agenda

By Nomaan Merchant | Associated Press

HOUSTON — Shortly after taking over the U.S. government office that oversees facilities for unaccompanied immigrant children, Scott Lloyd told a subordinate what to do with a teenager who wanted an abortion.

Facilities under HHS “should not be supporting abortion services pre or post-release,” but rather “life-affirming options counseling,” Lloyd wrote in an email. And the person seeking an abortion “should not be meeting with an attorney regarding her termination” or seeking a waiver exempting her from a state requirement that minors get a parent’s consent, he wrote in another.

The apparent new policy is being put to the test, as lawyers have gone to court to try to force the government to allow a 17-year-old Central American being held at a Texas facility to get an abortion. They accuse the Trump administration of trying to stop any immigrant teens in government custody from terminating a pregnancy.

“She’s being used as a pawn,” Rochelle Garza, a lawyer appointed to represent the interests of the teen, told The Associated Press on

Thursday. She declined to give her client's name and native country due to privacy concerns.

The teen is as much as 14 weeks pregnant in a state that bans most abortions after the 20th week and she's feeling hopeless, Garza said. On Wednesday, a federal judge in San Francisco said the government can't prevent the teen from getting an abortion, but she said the case was filed in the wrong jurisdiction and declined to order the government not to interfere with the teen's abortion access. Garza and the other lawyers, including some from the American Civil Liberties Union, filed a new complaint Friday in federal district court in Washington, D.C.

The ACLU included Lloyd's emails in a filing in the case against the U.S. Department of Health and Human Services, which oversees facilities for children who arrive in the U.S. on their own.

HHS didn't respond to questions about whether it has a formal policy restricting immigrants in its care from seeking abortions. But last month, it issued a draft of its department-wide strategic plan for 2018 to 2022 that defines its mission as "serving and protecting Americans at every stage of life, beginning at conception."

The agency also didn't reply to detailed questions about the emails, many of which had large portions blacked out. It has roughly 5,000 children currently in custody, though it did not say how many are pregnant. It did issue a statement Wednesday saying it is "providing excellent care to the adolescent girl and her unborn child, who remain under our care until the mother's release."

Lloyd became director of HHS' Office of Refugee Resettlement in March after working for the Knights of Columbus, a Catholic group that opposes abortion. In an email dated March 14, Lloyd followed up on a visit with a pregnant teenager living at a facility for unaccompanied children. He asked for the shelter to meet her requests for bananas and soup, and to give her a more comfortable mattress.

"Please have her clinician keep a close eye on her," Lloyd wrote. "As I've said, often these girls start to regret abortion, and if this comes up, we need to connect her with resources for psychological and/or religious counseling."

He also offered to connect the teen with "a few good families" who would "see her through her pregnancy."

In a March 24 email, Lloyd said a girl who was pregnant should be offered "spiritual counseling" or taken for an ultrasound to a crisis pregnancy center. Such facilities seek to discourage women from having abortions.

"She should not be meeting with an attorney regarding her termination or otherwise pursuing judicial bypass at this point," Lloyd said.

Susan Hays, legal director of Jane's Due Process, which helps pregnant minors in Texas to get abortions, accused HHS of being "turned over to ideological extremists who want to use the power of the federal government to impose their religion on everyone else."

Hays, whose group is working with the 17-year-old now seeking an abortion, said another teen earlier this year obtained the judicial

bypass required by Texas law and began a medication abortion, which is administered by pills taken on two successive days.

The first pill was administered on a Friday, but before the second pill could be given Saturday, HHS ordered the facility holding the teen not to let her have it, Hays said. Starting but not completing the abortion could have put the teenager's life at risk.

After Hays and others intervened and threatened to go to court, the teen was allowed to complete the abortion that Sunday, she said.

"That is a dystopian future for teenage girls who are forced to do that, and that's what ORR is doing today," Hays said.

Garza said she is wrongly being denied access to her client, even though she has been appointed a guardian under the law and obtained a judicial bypass order.

The teen will turn 18 before her pregnancy would reach full term, which could lead to her being transferred to an adult detention facility run by U.S. Immigration and Customs Enforcement. Garza said she fears the teen will be forced to have the child in adult detention or deported back to Central America, where she witnessed her parents beat a sister who was pregnant.

"It's going to get to the point where there aren't more options, and then what's going to happen?" Garza said.

IES LF SHELTER

From: White, Jonathan (ACF) <Jonathan.White@ACF.hhs.gov>
Sent: Wednesday, October 18, 2017 4:45 PM
To: (b)(6) (b)(6)
Cc: Brooks, Teresa (ACF); Lloyd, Scott (ACF)
Subject: Order granting TRO for UAC in care

(b)(6)

Per the Temporary Restraining Order issued by the U.S. District Court Judge in Washington DC, and further to my and (b)(6) conversation on the phone, here is direction from ACF and HHS leadership for the case of the UAC requesting TOP:

IES should coordinate with the UAC's guardian ad litem for the UAC to see her OB GYN tomorrow (Thursday October 19), for a pre-abortion counseling appointment and travel to and from that appointment (she should be returned to the shelter after that appointment), and Friday or Saturday (October 20 or 21) for the abortion procedure (she should be returned to the shelter after that appointment when her medical condition allows it). Please also note that IES should not:

- interfere with or obstruct the UAC's access to abortion counseling or an abortion;
- require the UAC to reveal her abortion decision to anyone, nor should ORR staff or the shelter reveal it to anyone themselves; or
- retaliate against the UAC based on her decision to have an abortion.

Likewise, ORR shall not retaliate or threaten to retaliate against IES for any actions it has taken or may take in facilitating the UAC's ability to access abortion counseling and an abortion.

I am advised that this instruction may change if an appeals court puts this court order on hold, but until you receive notification in writing that this has occurred, please assume the requirement for her to have access to abortion services is in place and proceed with arrangements for the UAC to receive medical services from her OB GYN, including abortion counseling and workup for pregnancy termination.

I am clarifying details related to logistics of the transport to the appointment per our conversation and will update shortly when I have definitive guidance.

Please let me know if you have any questions.

Subject: For Your Awareness: CNN & Wash Post Queries

Good Afternoon,

I wanted to make you all aware of two media inquiries currently being worked on in ASPA/w Press Secretary Caitlin Oakley in conjunction with ACF's Brian Marriott.

I will continue to keep everyone updated.

Lydia

Washington Post Inquiry

QUERY: I'm resending my original questions, with a couple questions added. We may have more before the day is through. My deadline for filing for print is 4 p.m. today, but the way things work around here is that if we get enough material for a story earlier we often pop a story online, pointing out that we haven't gotten a response from this person or this agency, and then updating it as soon as we get something to update.

Even if you have partial answers, please do send over asap.

1. • How many minors are currently in ORR custody, and how many are girls vs. boys?
2. • How many pregnant girls do you typically have in custody at any given time? We have heard hundreds up to 1,000, is this accurate?
3. • Who has participated in the efforts to block or persuade girls from getting abortions?
4. • Is Scott Lloyd available for an interview?
5. • Did Mr. Lloyd use ORR or federal resources to travel to counsel any of the girls against abortion?
6. • Why does the policy differ at ORR versus BOP and ICE, where women do get access to abortion?

CNN Inquiry

QUERY: I'm reaching out regarding a story that says senior HHS officials, including Scott Lloyd, have personally been involved in detainees' medical care, in particular:

They also note that Lloyd has personally visited and called pregnant girls in shelters, directed them to a list of approved crisis pregnancy centers, instructed staff to block minors from meeting with attorneys and told shelter operators to call a minor's parents even if she receives permission to go to a judge to obtain authorization for an abortion without their consent. In many cases, parents are hundreds of miles away in their home countries, or minors worry that parents won't approve of the procedure. www.politico.com/story/2017/10/16/undocumented-pregnant-girl-trump-abortion-texas-243844

Does the agency have a statement or information to share on this?

Scott,

Just a quick heads up: we received a SIR today for a female UC at the SWK Casa Presidente Program in Brownsville, TX. Per the SIR, the UC is pregnant as the result of a sexual assault which occurred in her country of origin. Also, per the SIR, the UC is not seeking to terminate the pregnancy, but instead has voiced that she will be proceeding in her pregnancy.

If you need anything else on this case, please advise.

Subject: (b)(6) and mothers conversation

Good evening,

Below is detailed information of conversation with UC and mother. Please call me at (b)(6) for any questions or clarification's.

UC Visit: Case Manager (b)(6) meet with minor to discuss conversation minor had with mother on the evening of 03/11/2017 in reference to needed consent for termination of pregnancy. Minor stated that her conversation with her mother started well. Minor stated she greeted her mother and asked how she was and how her siblings where. Minor reported that her mother asked how she was, and minor stated she told her mother that she was calm and taking her placement day by day. Minor then informed her mother that she needed a letter of consent from her. Minor stated that she explained to her mother that she needed a letter of authorization of consent because she requested termination of pregnancy in the shelter.

Mother stated according to minor, "que no se iba a prestart para eso", meaning she is not going to lend herself to that. Mother stated to minor that it is against her religion to give consent to her daughter or to anyone to terminate a pregnancy no matter what the situation is. Minor informed CM that she did not disclose the reason why she wanted termination of pregnancy because her mother recently had a hysterectomy and was still recovering. Minor stated that she does not want to get her mother sick, and currently mother believes the baby is from her home country boyfriend. Minor stated that during her

conversation with her mother, her mother disclosed to minor that she had an abortion when she was young, and still suffers the choice she made to this day. Minor stated that her mother dreamed her daughter paralyzed from the waist down in a shelter. Mother also stated to minor that she had informed her boyfriend, (b)(6) that the baby is his and that she is going to attempt to come to the US to help her daughter with her child. Minor stated that her mother reassured that her boyfriend (b)(6) would help in caring for any expenses.

As of today 03/12/2017, minor reported to CM that she does not want to proceed with termination of pregnancy due to feeling remorseful. Minor stated that she is taking the amount of time it took for the Government to approve her decision as a sign from God. Minor reported that she has thought about the future with her child and stated that she is unsure what will happen but will leave it in God's hands. She stated if her pregnancy is not meant to be, she would probably have a miscarriage. Minor also reported that she hopes her mother comes to the US to help her and infant. Minor stated that she is at peace with her choice and wanted to notify ORR to dismiss her request. CM stated to minor next step needed is to follow is to notify chain of command. Minor had no other questions or concerns. Observations: Minor was calm. Stated to be content.

Mother conversation: Case Manager (b)(6) called minor's mother, (b)(6) (b)(6) on 03/12/2017 in reference to conversation mother had with minor/daughter (b)(6) CM asked mother what her conversation with her daughter entailed. Minor's mother stated that her daughter called her to ask her to give authorization of termination of pregnancy. Sponsor stated to CM that she is not going to authorize termination of pregnancy due to religious beliefs and because of personal experiences. Mother stated to CM that she is not going to consent to termination of a life. Minors' mother stated that she had a similar experience when she was 22 or 23 in where she had an abortion. Minors' mother stated she suffered emotional, physical, and legal consequences. Minor's mother stated that to this day, she still regrets it and repents daily for her sin. Minors mother stated that she asked God for her forgiveness and due to that, she could not go against God in authorizing her daughter's request. Mother stated that she explained to her daughter that she would not give consent. CM stated to

mother that she would notify her leads on her statement and respectfully accept her refusal. Mother has no other questions or concerns pertaining to medical procedure at this time.

Thank You ,

(b)(6)

Subject:	FOR YOUR AWARENESS: POLITICO Article—Undocumented pregnant girl in Texas tests Trump policy to stop abortions & HHS Statement
Date:	2017/10/17 08:45:34
Priority:	Urgent
Type:	Note

Hello All,

Providing this article for everyone's awareness. I have highlighted the statement provided by HHS last evening.

[Undocumented pregnant girl in Texas tests Trump policy to stop abortions](#)

The policy marks a departure from the Obama administration, when an undocumented teen's request was not reviewed unless she sought federal funds.

By RENUKA RAYASAM

10/16/2017 07:05 PM EDT / Updated 10/16/2017 09:53 PM EDT

AUSTIN, Texas — The Trump administration is preventing an undocumented, pregnant teenager detained in a Brownsville refugee shelter from getting an abortion in a policy shift with big implications for hundreds of other pregnant, unaccompanied minors held in such shelters.

She is not the first to be stopped, according to advocates who work with undocumented teenagers.

For the last seven months, the Health and Human Services Department has intervened to prevent abortions sought by girls at federally funded shelters, even in cases of rape and incest and when the teen had a way to pay for the procedure. The agency has instead forced minors to visit crisis pregnancy centers, religiously affiliated groups that counsel women against having abortions, according to documents obtained by POLITICO, interviews with sources involved in the Brownsville case and those familiar with the agency's policy.

In some cases, a senior HHS official has personally visited or called pregnant teens to try to talk them out of ending their pregnancies.

"There is a pattern of unconstitutional overreach of power in a minor's abortion decision," said the teen's lawyer, Brigitte Amiri of the ACLU.

The ACLU brought suit on Friday on behalf of the 17-year-old in the Brownsville shelter, contending HHS has barred the girl, now about 14 weeks pregnant, from getting the abortion even though she got a judge's permission to have it without parental consent and has obtained the money to pay for it. Abortions after 20 weeks are illegal under Texas law.

The girl, identified in court papers only as Jane Doe, obtained a judge's permission on Sept. 25 and had an initial abortion appointment scheduled for Sept. 28, at the end of her first trimester, Amiri said.

But officials at the Office of Refugee Resettlement, which is part of HHS, refused to transport her to her abortion appointment, instead taking her to a crisis pregnancy center, and calling her mother in her home country to tell her about the pregnancy, according to the ACLU suit and Amiri.

"What's especially disturbing for us about this case, is that the child is in the custody of ORR [the Office of Refugee Resettlement], so she has no other choice, and she is stuck in a form of custody or detention," said Michelle Brane of the Women's Refugee Commission.

HHS officials released a statement Monday night, asserting the agency is within its rights to prevent unaccompanied and undocumented teens in the U.S. from getting abortions.

"The Office of Refugee Resettlement is providing excellent care to this young woman and her unborn child and fulfilling our duty to the American people," said the statement from the Administration for Children and Families, a division of HHS.

"There is no constitutional right for a pregnant minor to illegally cross the U.S. border and get an elective abortion while in federal custody. Federal law is very clear on giving the director of the Office of Refugee Resettlement the legal responsibility to decide what is in the best interests of a minor in the unaccompanied alien children program and, in this case, her unborn baby. We cannot cede our responsibility to care for minors and their babies by releasing them to ideological advocacy groups."

The Trump policy represents a sharp departure from the Obama administration, when the government reviewed an undocumented teen's request for an abortion when she sought federal funding to pay for it, said Robert Carey, director from April 2015 until January of this year.

The funds were approved in cases of rape or incest or when a mother's life was in danger, according to the agency's guidelines. HHS didn't get involved if the teen got funding for the procedure from another source, he said.

"I wasn't approving their right to have the procedure," Carey said.

The ACLU estimates that several hundred pregnant minors are currently in federal shelters throughout the country. Most are from Guatemala, Honduras and El Salvador and immigration experts believe many are victims of rape and sexual violence, either in their home countries or during the perilous journey here. If they are apprehended after crossing the U.S.-Mexico border, they are housed in HHS shelters separate from adults until they are reunited with relatives or other sponsors, or else deported.

The Trump administration policy shift appears to have begun in early March, in the weeks leading up to Scott Lloyd, a lawyer with Knights of Columbus, a Catholic charitable organization, taking the helm of the refugee resettlement agency. On March 6, he and two HHS employees sent an internal memo detailing three cases of minors held in federal custody asking for abortions, according to documents shared with POLITICO.

They say that federally funded shelters must “provide immediate and continuing information” to the agency regarding abortion requests, that neither the agency, nor the facilities, may authorize the procedure and that punitive action would be taken against facilities that violate the protocol. The email also said the girls in those cases had changed their stories about whether the pregnancies resulted from rape or consensual sex with a boyfriend. The document also had “talking points” but they were blacked out in the copy shared with POLITICO.

By MATTHEW NUSSBAUM and CRISTIANO LIMA

Later, as director, Lloyd wrote in a March 30 email to another staffer: “Grantees should not be supporting abortion services pre or post-release; only pregnancy services and life-affirming options counseling.”

Lawyers who work with the teens say the policy appears to have been disseminated informally through email, rather than being formally codified in the agency's policy guide.

They also note that Lloyd has personally visited and called pregnant girls in shelters, directed them to a list of approved crisis pregnancy centers, instructed staff to block minors from meeting with attorneys and told shelter operators to call a minor's parents even if she receives permission to go to a judge to obtain authorization for an abortion without their consent. In many cases, parents are hundreds of miles away in their home countries, or minors worry that parents won't approve of the procedure.

Susan Hays, an Austin attorney who helped the girl in the Brownsville shelter get a judge's permission to have the procedure, said that the girl was worried about telling her parents because they had beaten her sister when she became pregnant out of wedlock.

Lloyd has also threatened to pull funding from shelters, which are under federal contract, for failure to comply, Hays said. “Shelters are scared,” she added.

Access to abortion has long been an issue for girls detained in refugee shelters, because many are religiously affiliated institutions that oppose the practice. But Amiri, Hays and others who work with refugees tell POLITICO that it's unprecedented for an ORR director to personally attempt to dissuade minors from ending a pregnancy.

“Imagine you are an unaccompanied minor and this bureaucrat from Washington, D.C., in a suit comes to visit you,” Amiri said. She called it an “abuse of power to coerce and use immigration status as a bargaining chip.”

HHS did not respond to detailed questions about the agency's policy regarding abortions among undocumented pregnant minors.

By TIM ALBERTA

In response to questions about the Brownsville case, a spokesperson for the Administration for Children and Families said in an emailed statement that "our paramount concern is the child's safety and well-being.

"While the child is in our custody, our goal is to provide food, shelter and care to her under federal statute," the spokesperson said. "We are providing excellent care to the adolescent girl and her unborn child, who remain under our care until the mother's release."

The policy regarding what to do with undocumented minors in shelters that request abortions was first laid out in a 2008 Bush administration memo. That came at the end of the administration, so the Obama administration interpreted the policy.

"A considerable amount of time and energy was put into the development of that policy," Carey said.

Carey estimated that he signed off about three or four times a month on the use of federal funds to help girls terminate their pregnancies in case of rape or incest or when her life was threatened.

"They were entitled to family planning services and left [on their own] to make those decisions to terminate those pregnancies," he said about the decision of a pregnant minor in a federally funded shelter to have an abortion.

The new policy could have far-reaching consequences on all aspects of rules around pregnant unaccompanied minors, from how long they are held in federal shelters to how they are counted, say lawyers and advocates who work with them.

For example, HHS may keep girls until they can no longer legally get an abortion or release them to families that would also discourage abortions, rather than to family members or sponsors. In addition, HHS is considering counting fetuses as unborn children, which could change federal funding at shelters that house pregnant teens, according to sources.

The emergence of the policy is documented in a series of emails between Lloyd and other officials and shelters since March.

In one case, acting ORR director Kenneth Tota tried to stop a medication abortion, which involves taking two prescriptions in sequence. He asked that the girl be sent to the emergency room for an exam to determine if the fetus was still viable after she had taken the first pill, but before she took the second drug to complete the procedure. In the end, the agency let the procedure continue.

In another case, about 10 days before his official appointment, Lloyd visited a Honduran girl in a San Antonio shelter and sent an email to the shelter operator asking to accommodate her request for

bananas and soup and a more comfortable mattress, according to the emails. He added that if things get "dicey" with her sponsor, a relative in the U.S., he knew families that would take her in and see her through her pregnancy and beyond. That potentially violates an agreement in which the government must quickly reunite the minor with family or other sponsor.

In another case this spring, described in the emails, Lloyd said he spoke with a girl requesting an abortion at a Southwest Key shelter in Phoenix. He directed ORR staff to send the girl to a specific crisis pregnancy center for an ultrasound and to keep her from meeting with an attorney regarding her desire to get a judge to give her permission for an abortion. Neither the shelter nor the crisis pregnancy center responded to requests to comment over the weekend.

Although the ACLU's lawsuit applies only to one teenager, Texas Attorney General Ken Paxton said in a news release that he worries a decision in the case could have broad-ranging implications.

"No federal court has ever declared that unlawfully-present aliens with no substantial ties to this country have a constitutional right to abortion on demand," he said. "If 'Doe' prevails in this case, the ruling will create a right to abortion for anyone on earth who enters the U.S. illegally. And with that right, countless others undoubtedly would follow. Texas must not become a sanctuary state for abortions."

Mention ORR

Auburn not-for-profit gets \$44 million fed contract to help refugee children Syracuse.com | Charley Hannagan | 3-27-2017

The U.S. Office of Refugee Resettlement has awarded the Cayuga Centers a nearly \$44 million grant to care for unaccompanied refugee children, the office said last week. The grant is on a three-year funding cycle and will disbursed on a quarterly basis, the office said. About \$11 million of the grant has already been released, the office said.

Support system: Federal funds give refugees a start, but communities offer local safety net

Grand Forks Herald | Andrew Haffner | 3-26-2017

Reggie Tarr oversees the refugee services of the Grand Forks LSS office and works with the programs geared directly for newcomers. Tarr—who originally came to the U.S. as a

refugee from the west African nation of Liberia before settling in Grand Forks and gaining citizenship—said refugees are accepted to come to the U.S. after being vetted first by the Office of the United Nations High Commissioner for Refugees, then again by the U.S. Department of State.

Smith: E Pluribus Unum - or not

Times Free Press | Robin Smith | 3-27-2017

Opinion

The victim's family and community are seeking answers. Clearly, the school failed. And so did our immigration system. Henry Sanchez was caught at America's southern border just days before his 18th birthday last year. Instead of being returned to Guatemala, he was given a court date because of his underage status and was placed in Maryland with a family member through the Office of Refugee Resettlement, according to CNN. He was attending Rockdale High School as he awaited a court appearance in connection with his illegal border crossing.

Private Contractors Force Feed Refugees To States That Quit The Program

Daily Caller | Jim Simpson | 3-26-2017

Opinion

Adding insult to injury, starting in 1995, the Department of Health and Human Services, Office of Refugee Resettlement (ORR), began assigning a private refugee resettlement contractor (called Voluntary Agency or VOLAG) to keep the resettlement program running in states that drop out. This would ensure a continual flow of refugees to the state.

Federal Judge Who Blocked Trump Travel Ban Will Rule on Plaintiffs Request to Double Number of Refugees in FY 2017

Brietbart News | Michael Patrick Leahy | 3-24-2017

Judge Theodore Chuang of the U.S. District Court in Maryland, who issued a temporary restraining order on March 15 halting part of President Trump's Executive Order 13780, has scheduled a hearing on March 28 to consider the merits of a request made by the plaintiffs in their complaint to revoke the section of that exec order that limited the maximum number of refugees authorized to enter the United States in FY 2017 to 50,000.

Facts, concerns exchanged at educational immigration conference

Faribault Daily News | IDA MOJADAD | 3-24-2017

To the repeated gratitude of Sen. Al Franken, Faribault held an educational immigration conference on Friday that also presented the chance for frank discussion.

The Faribault Diversity Coalition, Faribault Public Schools and the Faribault Area Chamber of Commerce sponsored the conference in an effort to start additional dialogue around immigration issues felt in Faribault. Franken gave a brief speech at the beginning that commended the audience for attending to gather facts, ask questions and challenge themselves to conversations with friends and neighbors.

Refugee Resettlement

CHART: Where The World's Refugees Are**NPR | Malaka Gharib | 3-27-2017**

A new report shows that the refugee crisis hasn't slowed down — and people don't always end up where you think. The flow of refugees is steadily increasing, according to the U.N. Refugee Agency (UNHCR). As of mid-2016, there were 16.5 million refugees globally, 5 million more than in mid-2013. More than 30 percent of all refugees as of mid-2016 came from Syria, the largest source of global refugees.

She helped deport hundreds of undocumented immigrants. Now she's fighting for them.**Washington Post | Steve Hendrix | 3-27-2017**

She knew her chances of persuading Trimble to grant her client political asylum were awful. Even before President Trump's crackdown on the country's 11 million undocumented immigrants, the judges at Stewart had been deporting detainees at startlingly high rates. Trimble had turned down 95 percent of those seeking asylum from fiscal 2011 to 2016, according to a study of immigration judges by Syracuse University. But for 40 minutes, Albamonte gamely made the case for Geregian Abrahamyan, a 23-year-old who said he was repeatedly beaten and threatened because of his political activity in Armenia.

Senate committee recommends 'do not pass' on refugee resettlement study**KFYR | Max Grossfeld | 3-25-2017**

A Senate committee is recommending the body "do not pass" a bill to study refugee resettlement in North Dakota. The bill would study the impact of resettlement on the state, including the religious background of the refugees countries of origin as well as their ages, gender breakdown and the public services they use. Opponents of the bill say it would require information illegal to access.

Florida legislators take on hard-line immigration policies**News Chief | Ana Ceballos The Associated Press | 3-25-2017**

The election of President Donald Trump is giving new impetus to Florida state lawmakers in pushing measures seen as tough on immigration but that have gone nowhere in the Legislature in recent years. Legislators are moving ahead with bills — some of which could face constitutional challenges — that call for harsher sentences for people living in the U.S. illegally, penalties for local governments with "sanctuary" policies, and a halt to the state's voluntary participation in the federal refugee resettlement program.

Nebraska Democratic Party draws fire for putting voter registration forms in gift baskets for refugees**Omaha World-Herald | Mara Klecker and Andrew J. Nelson | 3-27-2017**

The chairwoman of the Nebraska Democratic Party said she has been receiving threats since news about the party's donations to refugee resettlement groups — which included voter registration forms — hit conservative blogs last week. Jane Kleeb, the Democratic Party leader, said that as part of a meeting on March 18, staff donated about 50 baskets of

items to Lutheran Family Services and the Refugee Empowerment Center. Along with baby formula, flatware and dishware, the party included voter registration forms and letters from KleeB explaining what it means to be a Democrat.

Impact of Trump refugee cuts felt by churches, nonprofits and internationals
Baptist News | JEFF BRUMLEY | 3-27-2017

“The most affected by this order are the refugees, the ones waiting to come to this wonderful country,” said Ali Al Sudani, director of refugee services for Interfaith Ministries for Greater Houston. That agency is contracted by the federal government to resettle refugees in the region. But the frustration and suffering affects thousands in the United States, too, say Al Sudani and others who work with refugees in the U.S. Those affected include church groups trained to help refugees – fewer refugees could mean fewer opportunities to answer those callings.

Unaccompanied Children

‘They’ve survived untold horrors’: Undocumented teens don’t deserve to be demonized

Washington Post | Petula Dvorak | 3-27-2017

Their dreams — to become a lawyer, an interior decorator, a sailor in the Navy — are a lot like the dreams that other kids at their Maryland high school have. It’s their nightmares — seeing relatives killed, paying off coyotes, being raped at the border, spending weeks in a detention center, being homeless in a new country — that make them so different.

Minors crossing to U.S. find help in Minnesota courts, but worry about changes
Minneapolis Star-Tribune | Mila Koumpilova | 3-27-2017

A 16-year-old Elder Leiva crossed the U.S.-Mexico border in late 2014, unsure of what awaited him beyond the Rio Grande. Even as he settled with an aunt in Minnesota and enrolled in high school, one all-important question lingered: Would he get to stay? For many of the 1,000 Central American unaccompanied minors who’ve joined relatives in this state since 2014, the answer to that question has been yes. Some won asylum. Many more obtained legal status through a visa program for abused and abandoned children that involves appealing to local courts. A major increase in applications for that program has led to an unprecedented backlog.

Lawmakers seek answers in rape case as local officials cite SCOTUS on taking in illegal immigrants

Fox News | Rebecca Kesten | 3-24-2017

Pressure is mounting, as Senate lawmakers demand answers on the immigration history of two suspects in the rape of a 14-year-old girl in the boy’s bathroom of a Maryland public high school, but school officials say they were obligated to educate the pair.

Yes, please have program staff transport the UAC, provided that no program staff feels compelled to participate should they have conscientious objections.

Please find out particulars of the procedure—what sort of procedure will it be (D&C, D&E) , is it one or two steps (some require the insertion of laminaria to dilate the cervix one day before), will they administer diujoxin to the fetus beforehand, what is the follow-up care, what are the risks, and complications etc.?

Subject: RE: New lawsuit

Here is the new Associated Press article, following an interview with attorney Rochelle Garza:

https://www.washingtonpost.com/national/immigrant-teens-advocates-us-pushing-anti-abortion-agenda/2017/10/13/b1d1b9f4-b03e-11e7-9b93-b97043e57a22_story.html

Immigrant teen's advocates: US pushing anti-abortion agenda

By Nomaan Merchant | Associated Press

HOUSTON — Shortly after taking over the U.S. government office that oversees facilities for unaccompanied immigrant

children, Scott Lloyd told a subordinate what to do with a teenager who wanted an abortion.

Facilities under HHS “should not be supporting abortion services pre or post-release,” but rather “life-affirming

options counseling,” Lloyd wrote in an email. And the person seeking an abortion “should not be meeting with an attorney regarding her termination” or seeking a waiver exempting her from a state requirement that minors get a parent’s consent, he wrote in another.

The apparent new policy is being put to the test, as lawyers have gone to court to try to force the government

to allow a 17-year-old Central American being held at a Texas facility to get an abortion. They accuse the Trump administration of trying to stop any immigrant teens in government custody from terminating a pregnancy.

“She’s being used as a pawn,” Rochelle Garza, a lawyer appointed to represent the interests of the teen, told

The Associated Press on Thursday. She declined to give her client’s name and native country due to privacy concerns.

The teen is as much as 14 weeks pregnant in a state that bans most abortions after the 20th week and she’s feeling

hopeless, Garza said. On Wednesday, a federal judge in San Francisco said the government can’t prevent the teen from getting an abortion, but she said the case was filed in the wrong jurisdiction and declined to order the government not to interfere with the

teen’s abortion access. Garza and the other lawyers, including some from the American Civil Liberties Union, filed a new complaint Friday in federal district court in Washington, D.C.

The ACLU included Lloyd’s emails in a filing in the case against the U.S. Department of Health and Human Services,

which oversees facilities for children who arrive in the U.S. on their own.

HHS didn’t respond to questions about whether it has a formal policy restricting immigrants in its care from seeking

abortions. But last month, it issued a draft of its department-wide strategic plan for 2018 to 2022 that defines its mission as “serving and protecting Americans at every stage of life, beginning at conception.”

The agency also didn’t reply to detailed questions about the emails, many of which had large portions blacked

out. It has roughly 5,000 children currently in custody, though it did not say how many are pregnant. It did issue a statement Wednesday saying it is “providing excellent care to the adolescent girl and her unborn child, who remain under our care until the mother’s release.”

Lloyd became director of HHS' Office of Refugee Resettlement in March after working for the Knights of Columbus,

a Catholic group that opposes abortion. In an email dated March 14, Lloyd followed up on a visit with a pregnant teenager living at a facility for unaccompanied children. He asked for the shelter to meet her requests for bananas and soup, and to give her a more comfortable mattress.

"Please have her clinician keep a close eye on her," Lloyd wrote.

"As I've said, often these girls start to regret

abortion, and if this comes up, we need to connect her with resources for psychological and/or religious counseling."

He also offered to connect the teen with "a few good families" who would "see her through her pregnancy."

In a March 24 email, Lloyd said a girl who was pregnant should be offered "spiritual counseling" or taken for

an ultrasound to a crisis pregnancy center. Such facilities seek to discourage women from having abortions.

"She should not be meeting with an attorney regarding her termination or otherwise pursuing judicial bypass at

this point," Lloyd said.

Susan Hays, legal director of Jane's Due Process, which helps pregnant minors in Texas to get abortions, accused

HHS of being "turned over to ideological extremists who want to use the power of the federal government to impose their religion on everyone else."

Hays, whose group is working with the 17-year-old now seeking an abortion, said another teen earlier this year

obtained the judicial bypass required by Texas law and began a medication abortion, which is administered by pills taken on two successive days.

The first pill was administered on a Friday, but before the second pill could be given Saturday, HHS ordered the

facility holding the teen not to let her have it, Hays said. Starting but not completing the abortion could have put the teenager's life at risk.

After Hays and others intervened and threatened to go to court, the teen was allowed to complete the abortion

that Sunday, she said.

“That is a dystopian future for teenage girls who are forced to do that, and that's what ORR is doing today,”

Hays said.

Garza said she is wrongly being denied access to her client, even though she has been appointed a guardian under

the law and obtained a judicial bypass order.

The teen will turn 18 before her pregnancy would reach full term, which could lead to her being transferred to

an adult detention facility run by U.S. Immigration and Customs Enforcement. Garza said she fears the teen will be forced to have the child in adult detention or deported back to Central America, where she witnessed her parents beat a sister who was pregnant.

“It's going to get to the point where there aren't more options, and then what's going to happen?” Garza said.

Importance: High

Elevating immediately for your awareness. A former UAC, a pregnant girl released last month to her sister in Las Vegas, was stabbed in the bathroom at school.

She is in the hospital and reported to be in stable condition, as is the unborn child. The identity of the assailant is unknown, and there is not yet any information to indicate whether this is a gang-related incident. We have no information to indicate whether the attack is in any way related to her UAC status or not.

There has been local media coverage of the high school bathroom attack.

Details including links to local news stories about the stabbing incident are in the attached summary. The password for this protected summary will follow under separate email.

Trump Administration Claims It's Not Blocking Abortion For Detained Immigrant Teen

The Trump administration argued before a federal appeals court on Friday that blocking an abortion for a pregnant teenager held in immigrant detention doesn't violate her rights because she has the option of leaving the U.S. and returning to her home country, where abortion is outlawed.

Huffington Post

Oct 20, 2017

Immigrant's abortion case fosters lively court debate, no ruling yet (featuring ACF)

The government's interest in promoting childbirth over abortion allows federal officials to avoid any actions that would allow a 17-year-old immigrant, in federal custody in Texas after crossing the Mexico border illegally, to have an abortion, Trump administration lawyers told a federal appeals court Friday. But lawyers for the teen, identified only as Jane Doe or JD, argued that government officials are enforcing illegal "veto power" over the teen's decision to exercise her constitutional right to an abortion.

Austin American-Statesman, TX

Oct. 20, 2017

Federal appeals court hears case of undocumented teen seeking abortion in Texas (featuring ACF)

Whether an undocumented teen in Texas can get a scheduled abortion remains up in the air after the U.S. Court of Appeals heard oral arguments Friday morning from the federal government and the American Civil Liberties Union in Washington, D.C. The three-judge panel has agreed to consider the Trump administration's request to stay a Wednesday ruling that allowed the teen to access abortion services. The pregnant undocumented teen, known in court filings as Jane Doe, is at the center of a legal dispute over whether unaccompanied immigrant minors have the right to an abortion in the United States. In Friday's hearing, the federal government lawyer said that the Trump administration is not denying Doe's constitutional right to an abortion.

Texas Tribune, TX

Oct. 20, 2017

Appeals court weighs whether immigrant teen can be denied abortion while in U.S. custody *(featuring ACF)*

Federal judges weighing the case of a Central American teenager seeking to end her pregnancy seemed inclined on Friday to resolve the issue without wading into the explosive mix of immigration and abortion law — but at the same time acknowledged that such action may be impossible. The 17-year-old's case reached the federal appeals court in Washington after a District Court judge on Wednesday ordered government officials to allow the teen to have an abortion “without delay.” The Trump administration appealed, saying it is not obligated to facilitate an abortion in part because the U.S. government has an interest in “promoting child birth and fetal life.”

Washington Post, Dc

Oct. 20, 2017

Appeals court weighs undocumented teen abortion case *(featuring ACF)*

A legal battle between the Trump administration and a 17-year-old immigration detainee in Texas forced a federal appeals court in Washington to do something Friday it rarely does: wrestle with a complex case about abortion rights. However, at least one of the three judges on the D.C. Circuit Court of Appeals panel, Brett Kavanaugh, made clear throughout the unusual oral argument session Friday that he's eager to dispose of the case without making any precedent-setting rulings.

Politico, DC

Oct. 20, 2017

Court wrestles with undocumented teen's abortion request *(featuring ACF)*

The D.C. Circuit Court of Appeals on Friday appeared unconvinced Friday the government can block an undocumented 17-year-old girl who is in federal custody from getting an abortion. The government argues the Department of Health and Human Services (HHS) can choose not to “facilitate” the teen's access to an abortion. But Judge Brett Kavanaugh, a George W. Bush appointee, asked if women in federal prison, under Supreme Court precedent, have the right to obtain an abortion. Department of Justice Attorney Catherine Dorsey said they do have the right because women in prison have no way other way to obtain one. But the immigrant teen is different, Dorsey said, because she has the right to voluntarily leave the United States. But Kavanaugh responded that, by Dorsey's own definition, the government would be facilitating the abortion of prisoners.

Hill, DC
Oct. 20, 2017

Ruling on whether illegal teen can get abortion in America hangs in the balance

(featuring ACF)

In an ongoing case to determine whether an illegal immigrant teenager can receive an abortion in the U.S., a federal appeals court heard oral arguments Friday. “The government is causing her irreparable harm” by forcing her to remain pregnant against her will, plaintiff attorney (b)(6) said during oral arguments. The defense attorney responded by saying the U.S. Department of Health and Human Services (HHS) is “not putting an obstacle in her path, but declining her an abortion.” She added that the girl — who crossed the border illegally Sept. 7 and is 15 weeks pregnant — can sign for “voluntary departure” at any point.

Daily Caller, DC
Oct. 20, 2017

The Trump administration just made its most Orwellian attack on abortion

(featuring ACF)

The United States government is holding a woman prisoner to keep her from obtaining an abortion. Let that fact sink in for a moment. The core issue at the heart of *Garza v. Hargan* is whether the coercive power of the state can be used to hold someone prisoner to keep them from obtaining an abortion.

Subject: RE: New lawsuit

Here is the new Associated Press article, following an interview with attorney Rochelle Garza:

https://www.washingtonpost.com/national/immigrant-teens-advocates-us-pushing-anti-abortion-agenda/2017/10/13/b1d1b9f4-b03e-11e7-9b93-b97043e57a22_story.html

Immigrant teen's advocates: US pushing anti-abortion agenda

By Nomaan Merchant | Associated Press

HOUSTON — Shortly after taking over the U.S. government office that oversees facilities for unaccompanied immigrant

children, Scott Lloyd told a subordinate what to do with a teenager who wanted an abortion.

Facilities under HHS “should not be supporting abortion services pre or post-release,” but rather “life-affirming

options counseling,” Lloyd wrote in an email. And the person seeking an abortion “should not be meeting with an attorney regarding her termination” or seeking a waiver exempting her from a state requirement that minors get a parent’s consent, he wrote in another.

The apparent new policy is being put to the test, as lawyers have gone to court to try to force the government

to allow a 17-year-old Central American being held at a Texas facility to get an abortion. They accuse the Trump administration of trying to stop any immigrant teens in government custody from terminating a pregnancy.

“She’s being used as a pawn,” Rochelle Garza, a lawyer appointed to represent the interests of the teen, told

The Associated Press on Thursday. She declined to give her client’s name and native country due to privacy concerns.

The teen is as much as 14 weeks pregnant in a state that bans most abortions after the 20th week and she’s feeling

hopeless, Garza said. On Wednesday, a federal judge in San Francisco said the government can’t prevent the teen from getting an abortion, but she said the case was filed in the wrong jurisdiction and declined to order the government not to interfere with the

teen’s abortion access. Garza and the other lawyers, including some from the American Civil Liberties Union, filed a new complaint Friday in federal district court in Washington, D.C.

The ACLU included Lloyd’s emails in a filing in the case against the U.S. Department of Health and Human Services,

which oversees facilities for children who arrive in the U.S. on their own.

HHS didn’t respond to questions about whether it has a formal policy restricting immigrants in its care from seeking

abortions. But last month, it issued a draft of its department-wide strategic plan for 2018 to 2022 that defines its mission as “serving and protecting Americans at every stage of life, beginning at conception.”

The agency also didn’t reply to detailed questions about the emails, many of which had large portions blacked

out. It has roughly 5,000 children currently in custody, though it did not say how many are pregnant. It did issue a statement Wednesday saying it is “providing excellent care to the adolescent girl and her unborn child, who remain under our care until the mother’s release.”

Lloyd became director of HHS' Office of Refugee Resettlement in March after working for the Knights of Columbus,

a Catholic group that opposes abortion. In an email dated March 14, Lloyd followed up on a visit with a pregnant teenager living at a facility for unaccompanied children. He asked for the shelter to meet her requests for bananas and soup, and to give her a more comfortable mattress.

"Please have her clinician keep a close eye on her," Lloyd wrote.

"As I've said, often these girls start to regret

abortion, and if this comes up, we need to connect her with resources for psychological and/or religious counseling."

He also offered to connect the teen with "a few good families" who would "see her through her pregnancy."

In a March 24 email, Lloyd said a girl who was pregnant should be offered "spiritual counseling" or taken for

an ultrasound to a crisis pregnancy center. Such facilities seek to discourage women from having abortions.

"She should not be meeting with an attorney regarding her termination or otherwise pursuing judicial bypass at

this point," Lloyd said.

Susan Hays, legal director of Jane's Due Process, which helps pregnant minors in Texas to get abortions, accused

HHS of being "turned over to ideological extremists who want to use the power of the federal government to impose their religion on everyone else."

Hays, whose group is working with the 17-year-old now seeking an abortion, said another teen earlier this year

obtained the judicial bypass required by Texas law and began a medication abortion, which is administered by pills taken on two successive days.

The first pill was administered on a Friday, but before the second pill could be given Saturday, HHS ordered the

facility holding the teen not to let her have it, Hays said. Starting but not completing the abortion could have put the teenager's life at risk.

After Hays and others intervened and threatened to go to court, the teen was allowed to complete the abortion

that Sunday, she said.

“That is a dystopian future for teenage girls who are forced to do that, and that's what ORR is doing today,”

Hays said.

Garza said she is wrongly being denied access to her client, even though she has been appointed a guardian under

the law and obtained a judicial bypass order.

The teen will turn 18 before her pregnancy would reach full term, which could lead to her being transferred to

an adult detention facility run by U.S. Immigration and Customs Enforcement. Garza said she fears the teen will be forced to have the child in adult detention or deported back to Central America, where she witnessed her parents beat a sister who was pregnant.

“It's going to get to the point where there aren't more options, and then what's going to happen?” Garza said.

Importance: High

Elevating immediately for your awareness. A former UAC, a pregnant girl released last month to her sister in Las Vegas, was stabbed in the bathroom at school.

She is in the hospital and reported to be in stable condition, as is the unborn child. The identity of the assailant is unknown, and there is not yet any information to indicate whether this is a gang-related incident. We have no information to indicate whether the attack is in any way related to her UAC status or not.

There has been local media coverage of the high school bathroom attack.

Details including links to local news stories about the stabbing incident are in the attached summary. The password for this protected summary will follow under separate email.

Cc: Tota, Kenneth (ACF); Bartholomew, Michael (ACF)
Subject: Follow up on our conversation of this afternoon/requirements for UC at BCFS San Antonio requesting abortion procedure

(b)(6)

Pursuant to our conversation today, please have BCFS provide to the Acting Director of ORR Ken Tota (Kenneth.Tota@acf.hhs.gov) with an informational document regarding the request by the UC at BCFS San Antonio abortion procedure which specifies:

- The request made by the UC
- A full copy of the Judicial Bypass, if any
- Communication regarding whether BCFS requests Federal funding for the procedure
- Disclosure of all steps BCFS and any third parties took to facilitate acquisition of the judicial bypass

- Information on the procedural history of the Judicial Bypass, including if there were prior requests (this information may follow the initial information if not yet available)
- The name and A# of the requesting child

ORR will also review case notes and medical information on the child in the UAC Portal.

We will request additional information as determined necessary.

Per our discussion, no action should be taken to schedule appointments or arrange for a procedure without authorization from the ORR Director.

Information related to this UC request should be routed directly to the Director of ORR. Communications with the ORR Medical Team should be solely focused on medical information rather than legal or policy questions or issues of authorization.

If there are questions or concerns, please let me know.

To: Gonzalez, Jose (ACF)

Subject: Quick thoughts

Jose,

Just a few things, while they are fresh in my mind:

1)

(b)(6) said she preferred the food at Seton—that it wasn't Honduran enough at BCFS (she mentioned bananas, which I thought BCFS has, and soup). If there is a way to accommodate at BCFS with any food requests, please find a way. She's feeling

very nauseous because of the pregnancy.

2)

She also says she has pain in her arms and legs at night and thinks it might be the mattress. This is one to keep in mind, if there is an extra mattress laying around, maybe plywood instead of the planks underneath as you were saying at the extended care facility, maybe foam or something on top of the mattress. Something to look into.

3)

(b)(6) —please have her clinician keep a close eye on her. As I've said, often these girls start to regret abortion, and if this comes up, we need to connect her with resources for psychological and / or religious counseling. It's not going to affect some girls right away or at all. If there are any additional updates on her case, I'd like to know.

4)

If things get dicey with (b)(6) sponsor, I know a few good families with a heart for these situations who would take her in in a heartbeat and see her through her pregnancy and beyond. (b)(6) said she would accept this if things can't work out with her aunt soon. I am unclear at this point how to match these two together, if this becomes necessary. How do potential foster parents get into the pipeline for these situations?

That's all I can think of right now. Thanks again for everything, and for the hard work and dedication of you and your team.

UNDOCUMENTED PREGNANT GIRL TESTS TRUMP POLICY TO STOP ABORTIONS - The 17-year-old teenager detained in a Texas refugee shelter from getting an abortion, POLITICO's Renuka Rayas

It's a policy shift with big implications for hundreds of other pregnant, unaccompanied minors who have spent months intervening to prevent abortions sought by girls at federally funded shelters, even in case of emergency procedure, Renuka reports. The agency has instead forced minors to visit crisis pregnancy center for abortions.

... In some cases, a senior HHS official has personally visited or called pregnant teens to try to talk them out of abortions.

Scott Lloyd, who was formerly a lawyer with Knights of Columbus, a Catholic charitable organiza

attorneys and told shelter operators to call a minor's parents even if she receives permission to go home with her consent.

"There is a pattern of unconstitutional overreach of power in a minor's abortion decision," said the American Civil Liberties Union.

HHS responds: "The Office of Refugee Resettlement is providing excellent care to this young woman. There is no constitutional right for a pregnant minor to illegally cross the U.S. border and give birth. The Department of Health and Human Services said in a statement. "We cannot cede our responsibility to care for migrant groups."

Texas has become the latest battleground in the fight over access to abortion, with an undocumented teen being de

FIRST IN PULSE: MOST AMERICANS CONFUSED, UNDER-INFORMED AHEAD OF OPEN E

Covered, which was conducted by Hart Research Associates between Sept. 28 and Oct. 3, before regulations.

Among the findings:

- **Most Americans don't know when ACA open enrollment starts or ends.** Only 12 percent of Americans knew when open enrollment would start, and - in the 42 states where this is the case - just six percent knew that Dec. 15 would be the dead

Insured respondents were somewhat more knowledgeable; 31 percent knew that Nov. 1 was when the deadline to sign up.

- **Most Americans aren't sure whether the marketplaces will exist in 2018.** Nearly 60 percent and consumers will lose their coverage next year or they aren't sure.

... Advocates say the polling shows the need to fund Obamacare-related ads and outreach, which

"The takeaways are pretty clear but overall, people are confused and awareness about Open Enro Get America Covered, told PULSE. "[But] instead of doing the outreach that is necessary, they're confusing."

FIRST IN PULSE: Obamacare supporters launch effort to highlight Trump's 'sabotage' - Propping up President Donald Trump from "sabotaging" the Affordable Care Act, POLITICO's Paul ...

The effort includes a new report showing that in at least 20 of the 28 states where final 2018 rate to Trump's actions. In addition, five other states indicated that rates would go higher if Trump for payments, as he did last week. The campaign also includes a website, StandUpToSabotage.com, and Medicaid.

... "The President's repeated and blatant acts of sabotage are deliberately undermining the law, as said Leslie Dach, chair of Protect Our Care, in a statement. "It is high time Republicans in Congress

restoring funding for CSRs and open enrollment."

TRUMP WANTS AN OBAMACARE DEAL, ALEXANDER SAYS - Trump urged Republican Sen. Alexander to provide encouragement that might help sway Republicans who are skeptical of a bipartisan agreement.

Alexander said Trump told him by phone on Saturday that he'd like to see a bill that funds the Obamacare return, he wants to see "meaningful flexibility for the states in providing more choices," Alexander said.

"He said he wanted to make sure that in this interim period while we're still arguing about the long-term, in his words," Alexander said of Trump.

... The ongoing discussions between Alexander and Sen. Patty Murray, the top Democrat on the Finance Committee, Thursday said Obamacare's cost-sharing reduction payments would end as soon as next week, according to Alexander.

Montana health plans get go-ahead to raise rates. Both Montana Health CO-OP and PacificSource reversed their administration's decision to pull Obamacare cost-sharing subsidies last week. While Montana Health CO-OP's agency reversed its decision on Friday. More for Pros.

... State insurance commissioner Matt Rosendale said he wasn't happy by the insurers' requests to raise rates.

"I am extremely disheartened by these last-minute actions of both Pacific Source and Montana Health CO-OP, as advised by both companies just months ago, that with or without CSR payments, they would be able to continue their actions, they inform me that was not true."

MARINO OUT AS DRUG CZAR NOMINEE - President Donald Trump on Tuesday announced, that Rep. Tom Marino's Drug Control Policy has pulled out of consideration.

"Rep. Tom Marino has informed me that he is withdrawing his name from consideration as drug czar," Trump said in a tweet.

Marino was a focus of a Sunday Washington Post/CBS investigation that concluded Congress, and the White House, made efforts to combat the abuse of opioids. Marino was one of the House's main proponents of the bill to disqualify him from leading the drug control office.

Marino was first tapped by Trump to be drug czar in the spring but withdrew from consideration after the investigation.

HATCH, PhRMA DISPUTE WAPO/CBS STORY - Speaking on the Senate floor Monday evening, Sen. Orrin Hatch signed off on the bill, but provided lawmakers with some of the key language now criticized by the pharmaceutical industry.

President Barack Obama signed the bill into law on the advice of his DEA administration, Hatch said. The Utah Republican said opponents of the Trump administration rewrote the history of the bill as a group of disgruntled ex-DEA employees.

Hatch also dismissed the notion that lobbying from drug distributors or manufacturers influence sinister conspiracy at play," Hatch said.

- PhRMA also pushed back on the story. The industry group said it did not support or lobby in the Act, S. 483 (114). The Post/CBS story has a chart that lists \$40.8 million in PhRMA lobbying expenses; if any, it spent on S. 483.

THIS IS TUESDAY PULSE - Where you can find your author this morning on NPR's "1A," where someone calls in with an NBA-related question; PULSE has thoughts on both CSRs and PERs.)

MINNESOTA GETS ITS ACA WAIVER - Minnesota Gov. Mark Dayton made it official Monday that the state will raise health insurance premium increases in the individual market for next year, despite a spat he had with the Trump administration.

Minnesota is set to receive roughly \$1 billion in federal funds over five years for the Obamacare expansion, but the state also set to see money reduced for a separate health coverage program for low-income residents.

"I maintain my position that Minnesota is entitled to the federal Basic Health Plan funding, which it waived those rights by signing this waiver," Dayton, a Democrat, said in a statement about the waiver. The waiver would cut federal funding to 100 percent of the federal poverty level.

... Minnesota state Republicans also criticized the cuts to the Basic Health Plan, with Republican Sen. Tim Walz expressing the belief that the federal government should reward, not punish, states for bringing down costs.

The Trump administration's record on granting states Obamacare waivers has been mixed even in the earlier this year.

Where the rest of the waivers stand:

- Alaska: HHS and the Treasury Department approved the state's waiver in July, agreeing to send

- **Iowa:** CMS deemed the state's application complete but has not made a final decision. Public co
- **Massachusetts:** The state on Sept. 8 requested a waiver to set up a premium stabilization fund came a month before Trump ordered that the federal government scrap those same subsidies nat
- **Oklahoma:** The state withdrew its proposal on Sept. 29 after blaming the federal government f
- **Oregon:** CMS deemed the state's application complete but has not made a final decision. Public

IN CONGRESS

Kaine, Bennet prepare to unveil 'Medicare-X.' The plan from Sens. Tim Kaine and Michael Bennet Medicare, initially in areas where there are few insurers or high health care costs. But by 2023, "I to a joint release from the senators. "By 2024, the public plan would be added as another option"

IN THE COURTS

FIRST IN PULSE: Under-the-radar SCOTUS patent case could have big implications for drug Access, & Knowledge (I-MAK), which is out with a new paper on a constitutional challenge to the as the PTAB, is essential

"The Supreme Court's decision on whether the PTAB can continue to review and appropriately in have long-term impact on drug prices," the group writes. "Unmerited patents result in higher drug them." Read the policy brief.

Subject: Follow up on our conversation of this afternoon/requirements for UC at BCFS San Antonio requesting abortion procedure

Kevin,

Pursuant to our conversation today, please have BCFS provide to the Acting Director of ORR Ken Tota (Kenneth.Tota@acf.hhs.gov) with an informational document regarding the request by the UC at BCFS San Antonio abortion procedure which specifies:

- The request made by the UC
- A full copy of the Judicial Bypass, if any
- Communication regarding whether BCFS requests Federal funding for the procedure
- Disclosure of all steps BCFS and any third parties took to facilitate acquisition of the judicial bypass
- Information on the procedural history of the Judicial Bypass, including if there were prior requests (this information may follow the initial information if not yet available)
- The name and A# of the requesting child

ORR will also review case notes and medical information on the child in the UAC Portal.

We will request additional information as determined necessary.

Per our discussion, no action should be taken to schedule appointments or arrange for a procedure without authorization from the ORR Director.

Information related to this UC request should be routed directly to the Director of ORR.
 Communications with the ORR Medical Team should be solely focused on medical information rather than legal or policy questions or issues of authorization.

If there are questions or concerns, please let me know.

Good Evening,

On a separate note, please be advised that UAC had requested to receive "outside counseling services", more specifically UAC stated she is interested in attending counseling with a community health provider in addition to counseling sessions she receives at facility with assigned Clinician. Therefore, we have scheduled an appointment with Modern View Counseling (provides comprehensive mental health services) on November 6, 2017, are we allowed to proceed with taking UAC to this appointment??

Below you will find information on this provider, please advise if we proceed with UAC attending this appointment for comprehensive MH services.

Good Evening,

Please be advised that care provider was contacted by attorney (b)(6) and informed that "the window for appointment this evening was missed, therefore child should return to facility". According to Ms. (b)(6) she is in the process of re-scheduling for Wednesday 10/25 or Thursday 10/26. In addition, Ms. (b)(6) advised care provider that she would be visiting UAC at shelter this evening. At this time care provider has not received confirmation of next appointment, therefore we are on stand-by, thank you.

Please see below guidance for today's appointment from ORR Director Scott Lloyd:

"The program should accompany her to and from the appointment according to standard procedures for a serious medical procedure.

Please provide all details as to the time of the appointment, the location, and any other relevant details. After the

appointment, please provide an update on what occurred, and whether the UAC still desires the termination after the first consultative appointment. Please also provide any relevant information regarding needs or requests from the UAC, and any other relevant information. Please ensure the UAC knows she is able, at her choice, to contact her parent(s) and, if she desires, any counseling, including religious / spiritual."

Thanks.

Subject: Re: Order granting TRO for UAC in care

Good Evening Mr. White,

The Guardian Ad Litem has requested in writing (see attached email) that we transport minor to scheduled appointment and that Attorney/Guardian Ad Litem will meet UAC and care provider staff at said appointment, is ORR in agreement with Care provider transporting UAC as requested, this would be the standard procedure for transportation of UAC under all standard circumstances, I only hope to obtain clear authorization to have my care provider staff (assigned clinician and Medical assistance) proceed with transporting UAC as requested, please advise, thank you.

(b)(6) LCCA

IES LF SHELTER

From: White, Jonathan (ACF) <Jonathan.White@ACF.hhs.gov>

Sent: Wednesday, October 18, 2017 4:45 PM

To: (b)(6) (b)(6)

Cc: Brooks, Teresa (ACF); Lloyd, Scott (ACF)

Subject: Order granting TRO for UAC in care

(b)(6) and (b)(6)

Per the Temporary Restraining Order issued by the U.S. District Court Judge in Washington DC, and further to my and (b)(6) conversation on the phone, here is direction from ACF and HHS leadership for the case of the UAC requesting TOP:

IES should coordinate with the UAC's guardian ad litem for the UAC to see her OB GYN tomorrow (Thursday October 19), for a pre-abortion counseling appointment and travel to and from that appointment (she should

be returned to the shelter after that appointment), and Friday or Saturday (October 20 or 21) for the abortion procedure (she should be returned to the shelter after that appointment when her medical condition allows it). Please also note that IES should not:

- interfere with or obstruct the UAC's access to abortion counseling or an abortion;

- require the UAC to reveal her abortion decision to anyone, nor should ORR staff or the shelter reveal it to anyone themselves; or

- retaliate against the UAC based on her decision to have an abortion.

Likewise, ORR shall not retaliate or threaten to retaliate against IES for any actions it has taken or may take in facilitating the UAC's ability to access abortion counseling and an abortion.

I am advised that this instruction may change if an appeals court puts this court order on hold, but until you receive notification in writing that this has occurred, please assume the requirement for her to have access to abortion services is in place and proceed with arrangements for the UAC to receive medical services from her OB GYN, including abortion counseling and workup for pregnancy termination.

I am clarifying details related to logistics of the transport to the appointment per our conversation and will update shortly when I have definitive guidance.

Please let me know if you have any questions.

Jonathan,

It's unclear what they mean here. Not sure what they mean by "services" and "abortion counseling." Please ask them to explain clearly, because if I recall, we were very clear about what they were to do.

Grantees should not be supporting abortion services pre or post-release; only pregnancy services and life-affirming options counseling.

Thank you,
Scott

Subject: Re: UC requesting pregnancy termination

Good afternoon, in response to your questions, We, at Las Palmas have staffed this case and here are the answers to your questions.

1. Minor has received services provided at shelter with her clinician. The program is moving towards reunification and supporting the minor's plan of abortion once arriving to her destination in Florida, where she will receive abortion counseling services. Would you recommend otherwise?

2. Sponsor has been notified of pregnancy during a family session. Minor has disclosed that she would like to have an abortion. Minor has declined to inform mother in COO about the pregnancy. The safety plan developed for minor includes that she would notify and get consent from mother before moving forward with abortion once in Florida. Sponsor has expressed full support of any decision client makes towards her pregnancy.

3. Safety plan has been developed with information of resources for both prenatal care and abortion services. Medical will develop a safety plan for referral to neurologist once reunified with sponsor.

Your guidance is greatly appreciated. Thank you for your time.

Thank you,

Good Afternoon,

Can you answer the following questions?

- Can we confirm that the minor has received options counseling for the pregnancy as discussed?
- Can we confirm that the sponsor and the minor's parents have been notified of the pregnancy?
- Can we please ensure that resources for pregnancy supports in Florida where the minor is headed are part of the discharge plan?

Subject: UC requesting pregnancy termination

Hello Dr. Bartholomew, I am writing in regards to female minor, (b)(6) she is the youth that arrived at Las Palmas Program 924 and was requesting to terminate her pregnancy. At this time minor has been taken to OB/GYN appointment where it is confirmed that she is 9 weeks 6 days pregnant. Case manager notified us that the only things pending to reunify minor was medical (xray, labs, ect). Upon requesting chest xray, PCP noted that youth's xray was abnormal. Although she is negative for TB condition, the following findings were documented.

Findings as reported by (b)(6) MD: There is a dextroconvex thoracolumbar scoliosis measuring approx 8 degrees, with apex at T12-L1, with suspicion butterfly vertebrae at T12 and possibly T11.

For this reason PCP is referring to neurologist for further evaluation. We have called to schedule an appointment for neurologist in which they are telling us that it will be about 3 weeks for an appointment and they need to verify they can see a pregnant minor. Taking into consideration her pregnancy and her decision to terminate, keeping her

here will add weeks to her pregnancy to or about 12 weeks. I am asking for your guidance as to how to proceed from here.

Will minor be able to proceed with pregnancy termination? (She still refuses to tell mom in COO, sponsor is aware of pregnancy)

Is the neurologist visit necessary here or can that be followed up with upon reunification?

Thank you in advance.

Thank you,

Subject:	Heads up: positive pregnancy test in UC
Date:	2017/03/21 09:14:09
Priority:	Normal
Type:	Note

Ken & Scott,

Just wanted to advise you that the DHUC medical team forwarded received a medical SIR on a positive urine pregnancy test for a 16yo UC (test results yesterday). The UC is at Southwest Key Las Palmas in Mesa, AZ.

A few key facts:

- Per UC report, she has not experienced sexual assault either in transit or in home country.
- The plan is to hold two family sessions for the purpose of notifying the client's mother of her pregnancy.
- There are no other requests or concerns indicated at the time.

The Medical SIR description is as follows:

On 03/20/2017 at the 12:49 p.m. Lead Medical disclosed to the assigned Clinician that the client result of the pregnancy test was positive.

Later on, the clinician assessed the client in order to explore mental health concern related to the data revealed in the Significant Incident

Report by Medical Department. The client mentioned that she was sexuality active in COO. The client added that her previous sexual

activities were consented by her. The client denied being a victim of sexual assault in Honduras or during her journey. The client also

verbalized that she felt weird and nervous due to his pregnancy. The client mentioned that she was surprised to know that she was pregnant.

The client indicated that her last menstrual cycle was on February 22 and she was not mindful or suspicion of her pregnancy. During the

interview, the client appears to be stable. The client was oriented to person, place, situation, and time. The client was alert, her eye contact

was good, and her facial expression was reasonable. Her attitude and behavior during the session were appropriate and cooperative. She

was very communicative and receptive. The client overall appearance was acceptable. The client exhibits an anxious affect. Her speech was normal rate and normal tonal variation; the voice was appropriate volume. The thought process was goal-directed. Her association was intact. She also denied suicide or homicide ideas. Her fund of knowledge is good, similarities are intact and intelligence level is estimated to be normal. There not any mental concern at this moment. (b)(6) PhD Clinician
03/20/2017 Two family session would be conducted with the purpose to inform client's pregnancy to her mother and discussed the safety plan with the sponsor. A safety plan will be completed in order to address the actual condition of the client regarding her pregnancy and well-being. The clinician will follow-up with the client in the individual session or as needed.

Please advise any next steps, if any, you would require.

Jonathan

Request No. 2018-00042-C-OS

***Equity Forward v. HHS*, Civil No. 18-0241 (D.D.C.)**

November 30, 2018

Mary Alice Carter
Equity Forward

Dear Ms. Carter:

This letter is the fourth interim response to your December 11, 2017, Freedom of Information Act (FOIA) request submitted to the U.S. Department of Health and Human Services (HHS) Administration for Children and Families.

Specifically, you requested access to and copies of certain correspondence involving the following officials and employees within the Department of Health and Human Services, Administration for Children and Families:

- Scott Lloyd
- Maggie Wynne
- Jonathan White
- Curi Kim
- Judith Haron
- Anna Marie Bena
- Scott Logan
- Tricia Swartz (Associate Deputy, ORR)
- Jallyn Sualog (Director of Children Services)
- James De La Cruz (Houston Field Supervisor)
- Dr. David Teuscher (Region 6 Director)

Specifically, we request access to and copies of all correspondence sent by, sent to, or carbon-copying (“CC”) any of these individuals during the months of March, May, September or October 2017, which includes any of the following keywords or phrases:

- “pregnancy”
- “pregnant”
- “ORR director”
- “abortion”
- “ru-486”
- “CPC”
- “ultrasound”
- “rape”
- “nonconsensual”
- “Gestational”
- “judicial bypass”
- “life affirming”
- “unborn child”

- “spiritual counseling”
- “options counseling”
- “WTF”
- “Terminating”
- “terminate”
- “termination”
- “Pregnancy notification”
- “Pregnancy motivations”
- “Scott is”
- “Scott said”
- “from Scott”

Your request was forwarded to this office to conduct a search for records from custodians Maggie Wynne, Judith Haron and Dr. David Teuscher.

For this fourth interim response, the HHS Office of the Secretary has processed 762 pages of potentially responsive records captured in the agency’s search of Maggie Wynne’s records. After a careful review of these pages, I have determined to release 22 pages to you in their entirety, and I am further releasing 64 pages in part, with portions redacted, pursuant to Exemptions (b)(5), (b)(6) of the FOIA (5 U.S.C. §§ 552). I have also determined to withhold 26 pages in their entirety, pursuant to Exemption (b)(5) of the FOIA (5 U.S.C. § 552). Additionally, I determined that seven (7) pages were non-responsive to your request and that 545 pages were duplicative of pages referenced above. Finally, I have determined that 62 pages should be sent for consultation to other government agencies to review their equities and return to this office for final response to you. Lastly, I have determined to refer 36 pages to the Department of State (DOS) to respond directly to you.

FOIA exemption (b)(5) protects inter-agency or intra-agency memoranda or letters which would not be available by law to a party other than an agency in litigation with the agency. This exemption protects documents that would be covered by any privilege an agency could assert in a civil proceeding. These privileges include, among others, the deliberative process privilege, the attorney-client privilege, and the attorney work-product privilege.

FOIA exemption (b)(6) permits a Federal agency to withhold information and records about individuals in “personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” The definition of “similar files” has historically been broadly interpreted to include a wide variety of files, and the United States Supreme Court has held that Congress intended the term “similar files” to be interpreted broadly, rather than narrowly. I have analyzed these records and find they meet the threshold requirement of this exemption. Additionally, I have reviewed and weighed the public interest in disclosure of this information against the privacy interest in nondisclosure, and found that the privacy interest outweighs the public’s interest in disclosure.

Page 3 of 3
Request No. 2018-00042-C-OS
***Equity Forward v. HHS*, Civil No. 18-0241 (D.D.C.)**

We will continue to review the remaining records as efficiently and expeditiously as possible, consistent with our available resources and the Order of the Court. Should you have questions or concerns regarding the Department's response and/or the processing of your request, any such issues should be communicated to your legal counsel and Department of Justice Attorney representing the Department in this matter.

Sincerely yours,

For 

Michael S. Marquis
Director
Freedom of Information and Privacy Acts Division

Subject: Draft HWHE 2017 Workshop Targeted Invitation Letter (3 14 2017).doc

Hi Mitch –

Thanks for chatting earlier today.

As I said on the phone, HHS has been involved with Healthy Women, Healthy Economies (HWHE) since its inception in 2014. Under the Asia Pacific Economic Cooperation (APEC), HWHE brings together officials from healthy, labor, and women's issues ministries, along with industry partners, to promote women's success in labor force participation by the development of a policy toolkit that addresses women specific health concerns that impact their ability to do this. We've also developed a literature review and economic and business cases in support of the toolkit. This activity is unique in that it is truly inter-governmental and cross-sectoral and has been embraced by public and private sector champions.

In 2015 and 2016 HWHE workshops took place on the margins of the Health Working Group meeting. This year the workshop will be on the margins of the Human Resources Development Working Group events in Hanoi (the labor ministry work group). For the past two years, the HHS Assistant Secretary for Global Affairs has co-signed a letter to invite speakers and panelists to attend the workshop. We've been asked to do this again for this year's workshop as well which I'm hoping we can do.

I've attached a draft invitation and the current agenda for May. Please let me know if you need anything else (including copies of any of the documents I've referenced above) to consider. We need to get the letter out fairly quickly (the workshop is in two months!) so I'm hoping we can decide on this soon. I'm also happy to brief anyone as needed.

Thanks again for considering this.

v/r,

Erika

Subject: For Clearance FRIDAY COB: NAFTA Investment Text
Attachments: NAFTA 2.0 Investment Chapter - text.docx; NAFTA 2.0 Investment Chapter - TPSC memo.docx

Importance: High

Good afternoon,

Attached is USTR's proposed text for the NAFTA investment chapter, with **clearance due by tomorrow (Friday 9/14) COB**. We just received this text last night, and just had an interagency call with USTR, who provided some explanations. A few important points:

1. (b)(5)
2. (b)(5)

I am happy to answer any more specific questions. **USTR indicates that the deadline of COB tomorrow is firm, and my recommendation would be to clear on the text as-is. Please let me know if anyone has any concerns.**

Thank you,

Emily

Who's Going to Be the Next Leader of WHO?

<http://foreignpolicy.com/2017/05/22/whos-going-to-be-the-next-leader-of-who/>

As the World Health Organization votes in a monumental open ballot for its new chief, the developing world and the developed world are in a battle of ideas.

- BY LAURIE GARRETT
- MAY 22, 2017

This week, health professionals from 194 nations will gather in Geneva to decide the fate of the World Health Organization (WHO). For the first time since its 1948 creation, every nation will vote for WHO's new director-general, determining the future orientation and leadership of the controversial, underfunded agency. The U.S. delegation will be led by Health and Human Services Secretary Tom Price, fresh from last week's journey to Liberia, where the Ebola virus raged in 2014.

There is a lot riding on this unprecedented election and other points of debate that will be thrashed in more than a week of meetings. For poor countries, the fight is about scarce resources, the paucity of trained health professionals, rising costs of medicines, and transfer of biomedical technologies from the West and developed nations. Middle-income countries want to build national health systems that meet the standards set by the likes of Singapore and Japan, bringing long life expectancies to nations as infectious threats diminish. And for the wealthier nations, including the United States, the future of WHO is strongly tied to health security: rapid control of epidemics, ensuring no lethal pandemic sweeps the planet as HIV did in the 1980s and influenza did in 1918, claiming the lives of tens of millions of people.

For decades, the leaders — and the priorities of WHO — have been decided behind closed doors by a small executive board, and candidates won their positions by making promises to about 30 ministers of health, representing the big donors like the United States and poorer nations that rotated periodically onto the board. Those promises, meant to be secret, have included vowing to back particular global health initiatives, guaranteeing top jobs to key country representatives or their relatives, spending millions of dollars to build clinics or programs inside a voting country, and even bribery. As I described in detail a year ago, I personally witnessed such bribery in the past and have seen a long list of outrageous demands on the part of executive board voters by former director-general candidates, including insisting on an appointment to Geneva (with subsidized private schooling) and demanding construction of a tertiary-care hospital in a country's capital. Commonly, votes were swapped, as countries vowed to back one another's candidates for a variety of U.N. positions.

For the first time, every nation will have a chance to vote in a one-country, one-vote process that gives equal weight to behemoths like China and India as well as miniscule Vanuatu and Lichtenstein. Voting will begin on May 23 by secret ballot and may go more than one round if none of the initial candidates garners a clear majority. Whoever proves victorious will take office on July 1, directing the troubled agency.

Three finalists are in the running, representing Britain, Ethiopia, and Pakistan. And as the election day nears, the differences between the candidates and their likely priorities for the future of global health are becoming more apparent. And lurking in the background is the Ebola virus, which re-emerged in late April in a remote region of the Democratic Republic of the Congo and is spreading, having so far caused 29 suspected cases, three deaths, and more than 400 additional contacts in a region rife with violent conflict and refugee movements.

Historically, the United States, Japan, Britain, China, France, and Germany have cast the key votes in this process. (The Bill & Melinda Gates Foundation — the second-largest donor to WHO — has cast a pivotal, but unofficial, ballot.) The leadership of world health efforts has reflected those nations' top concerns. Margaret Chan, a Hong Kong-born physician, will step down this summer after 10 years in the job, leaving behind a mixed legacy. Propelled to the job by Beijing following China's SARS epidemic humiliation, Chan's candidacy was backed by an unparalleled Chinese surge in promises made to nations throughout the world, especially across the African continent.

The SARS virus, which eventually sickened more than 8,000 people, claimed 774 lives, and spread to 31 countries, first emerged in southern China in late 2002 but was covered up by Beijing authorities until April 2003. The official position of the Chinese Communist Party prior to that was that a tiny outbreak in Guangzhou was successfully stifled and that SARS was not a significant issue for mainland China. By the time Beijing admitted to having SARS, the virus was in every Chinese province, and the world community blamed China for the global outbreak. Beijing — determined to save face and never again be shamed for covering up an epidemic — identified Hong Kong's Chan, who led her community's aggressive response to the virus, as its choice for the next director-general of WHO. The 2006 campaign was hard fought by a field of excellent candidates, with China throwing a tremendous amount of money into hospitals and other health projects across Asia and Africa; Chan carried the day in a January 2007 executive board vote and was re-elected without opposition in 2012. The United States ultimately supported Chan's candidacy in both elections.

This week, the Donald Trump administration will send a delegation to Geneva, casting its first U.N. leadership votes and weighing in on a long roster of reforms and controversies slated for debate in the 70th World Health Assembly. Topping the list of debates will be WHO reforms meant to correct flaws in the agency's slow and misguided initial responses to the 2014 Ebola epidemic in West Africa. The virus spread through Guinea, Liberia, and Sierra Leone, with isolated cases in other nations, for nine months before Chan declared a global health emergency, triggering the multibillion-dollar, multinational epidemic control effort that commenced in September 2014 and lasted well into 2016.

The U.S. delegation will be led by Secretary Price, accompanied by some HHS staff and the acting director of the Centers for Disease Control and Prevention (CDC), Anne Schuchat. Price and his staff have made no public statements regarding any of the candidates for WHO leadership or key issues on the World Health Assembly agenda. It is widely assumed, though not confirmed by HHS, that the secretary will cast his first vote for Britain's David Nabarro, reflecting the Trump administration's warm relationship with the post-Brexit government of Prime Minister Theresa May. It is also widely believed that the Barack Obama administration backed a different candidate, Ethiopia's Tedros Adhanom Ghebreyesus — a point acknowledged to some degree in former CDC Director Thomas Frieden's letter to the *New York Times*, praising the former Ethiopian minister of foreign affairs and health, who prefers to be called "Dr. Tedros." He has received endorsements from many former Obama administration officials.

There is no indication that the United States, or any of the major donor states from Asia and Europe, backs the candidacy of Pakistan's Sania Nishtar, a former minister of health and founder of the nongovernmental health-promotion group Heartfile.

In the end, the fight boils down to what seems to be a neck-and-neck race between Nabarro and Tedros, in which Nishtar could emerge at the very least a spoiler, even a surprise winner if the voting goes into multiple rounds with no clear majority victor.

Tedros received a unanimous endorsement a year ago from the African Union, committing all its 54 voting nations to the Ethiopian's candidacy. Africa feels its time in leadership is long overdue, given that no health official from the continent has held the top post. In recent months, that full-scale commitment seemed to be weakening, as the British reached out to Anglophone nations with promises of aid money in an effort to build Nabarro's voting base. U.S. Secretary of State Rex Tillerson may have unwittingly pushed the AU members back into a solid bloc, top diplomats told me, when he snubbed the scheduled April meeting in Washington with AU Commission Chair Moussa Faki, canceling at the last minute. Former Ambassador Reuben Brigety, who represented the Obama administration to the AU, called the Tillerson diplomatic fiasco "the dumbest thing in the world."

Many Africans, as well as progressive humanitarian groups such as Médecins Sans Frontières (MSF), are convinced the Trump administration and U.S. Congress plan to radically reduce all forms of foreign assistance, including global health programs, in the fiscal year 2018 budget, as was laid out in the president's "skinny budget" and a recently leaked draft of the foreign aid budget. With most aspects of WHO's economic future seeming grim, and the agency operating now \$300 million in the hole, any hint of a U.S. rollback in support raises anger in poor and middle-income countries. In a May 17 statement to the G-20 health ministers' summit in Germany, MSF International President Joanne Liu chided, "G-20 governments need to be focusing on the well-being of people in the midst of emergencies and outbreaks rather than tackling this issue from the angle of the threat such emergencies or outbreaks pose to their own countries."

Liu's comments touch a sensitive nerve for much of the world, namely that the United States and other wealthy nations are only concerned about preventing the spread of diseases that might threaten their own populations and that foreign assistance programs are viewed in Washington, London, Tokyo, and Beijing as trivial. In a speech in Liberia, also on May 17, Price said, "We are here to show President Trump's appreciation to Liberians for the work they are doing, and we will work side by side to develop the health workforce to solve remarkable challenges in the area of infectious diseases."

In contrast, Tedros downplays the continent's infectious diseases, placing emphasis on plans to build community-based health programs that can provide essential services to all. During Tedros's years as minister of health, Ethiopia trained 40,000 community health workers, reduced its HIV rate, and lowered pregnancy-associated death rates in its female population. The Ethiopian and Eritrean diaspora communities have waged a Twitter war on Tedros, accusing him of responsibility for human rights abuses, improper distribution of food supplies amid famine in his country, belligerence toward neighbor states, and even sanctioning the torture of political prisoners. More recently, Georgetown University law professor Lawrence Gostin, who backs Nabarro's candidacy, told the *New York Times* that Tedros deliberately covered up cholera outbreaks in his country, perhaps allowing thousands of people to die. Observers have argued that Gostin's cholera disclosure was Tedros's "Comey moment." (The euphemism "acute watery diarrhea" is used in lieu of "cholera" in Ethiopia and Nile nations — I personally suffered the cholera-that-shall-not-be-named in Egypt as a result of exposure to Nile water in 1988.)

Meanwhile, Nabarro's star is tightly linked to his decades of service inside the U.N. system, working in multiple agencies and directly for two former secretary-generals, Kofi Annan and Ban Ki-moon. If it can be said that a U.N. official is a company man, Nabarro is that, as most of his professional life has been within the

system. For years he has functioned as the man secretary-generals call in to clean up massive messes and corral multiple agencies, such as during the 2005 H5N1 influenza pandemic, the botched Ebola response of 2014-2016, and most recently the Haitian cholera epidemic — for which U.N. Nepalese peacekeeping soldiers are blamed, having carried the bacteria in their bodies and contaminated water supplies following the 2010 earthquake.

Just as cholera seems to be upsetting Tedros's apple cart, so it is the same bacterial disease that is Nabarro's Achilles's heel. This year, on Nabarro's watch, Haiti has reported 5,095 suspected cases of the disease and 69 deaths; while that is roughly half the number seen by this time last year, and an 88 percent decline from the 2011 peak of 350,000 cases, the streams and rivers of Haiti are filled with the microbes, and infection is a new normal in the island nation — which hadn't a single case of the disease before the U.N. unwittingly brought it into Haiti in 2010. Given its culpability, the U.N. promised to raise \$400 million for Haiti's cholera fight and mobilize antibiotics and vaccines as needed, but as of April just \$17.7 million was raised and only \$2 million deposited into accounts.

Among the many U.N. tasks assigned to Nabarro over the years is that of implementing the 17 Sustainable Development Goals and 169 targets every nation on Earth is meant to achieve by 2030. Goal No. 3 calls for "good health and well-being for all," something that is achievable, Nabarro believes, through construction of effective health systems inside every nation. But as the U.S. Congress hashes out America's own health system, most of Nabarro's agenda conceives of WHO playing an advisory role, helping each country find its own health provision sweet spot.

Sania Nishtar faces the toughest fight — but not for any alleged sin she has made other than that of being born in Pakistan. China and India oppose her candidacy because she is Pakistani, and other opposition cite her lack of U.N. experience. The former Pakistani minister of health, were she to eke out the votes, would be the first person to serve as director-general since WHO's 1948 founding who has devoted much of her working life to endeavors other than government and the U.N. Nishtar founded Heartfile to bring first-world cardiovascular prevention and treatment to developing nations, and both the NGO and its leader are embraced by the civil society community (which, of course, cannot vote, as only ministers of health may cast ballots). Nishtar's vision for the future of WHO calls for absolute transparency regarding all of the agency's funding and appointments, close collaboration with civil society and humanitarian groups, and significant reform of all WHO activities.

Nishtar is the only candidate who has vowed to serve a single five-year term, so as to guarantee she will not be swayed by vote-seeking and campaign fundraising. And she has promised that not a single vote will be won by giving away job appointments, bribes, or financial commitments of any kind.

While most observers give Nishtar little chance of defeating Nabarro or Tedros, there is a good possibility neither man will claim a 60 percent majority in the first round, freeing the process for some wild hallway horse-trading. I would hope that Nishtar's transparency policies, commitment to NGOs and civil society, and her willingness to serve a single term might then prevail.

Perhaps some of the 194 voters might then recall that the greatest leader WHO ever had, Gro Harlem Brundtland, brought the institution back from another existential moment because she, too, insisted on serving a single term.

Subject: Mexico City Policy

Dear Sir/Madam,

This letter is written in support of the Mexico City Policy. I come to this as someone who has worked extensively both in the United States, beginning early in the HIV epidemic, as well as in sub-Saharan Africa through both the President's Emergency Plan for AIDS Relief, and private donor funds focused on HIV/AIDS; now having worked for more

than 30 years in the HIV/AIDS issue. Our initial work was in the US with newly diagnosed women. In the early days of the epidemic (1987-1995) there were very few resources for women, the Children's AIDS Fund served as a resource and reference for many—including state health departments seeking assistance with linking patients to care, often which did not exist at that time. Over the years, as we counseled thousands of HIV impacted women and worked with health department personnel, we made tremendous strides in the overall understanding of what HIV positive women were seeking and how to meet their needs. This work continued in the US through a network of more than 250 local care providers who over time stepped forward to provide treatment and support for these brave and amazing women.

In 2004, when the President's Emergency Plan for AIDS Relief was launched, we heartily joined the initiative. Understanding that HIV/AIDS was the primary health issue in sub-Saharan Africa, we welcomed the opportunity provide life-saving treatment and care. Our approach was to listen to the thoughts, concerns and needs of the clients as we moved ahead together to provide treatment and care for more than 650,000 individuals in multiple countries. Interestingly the HIV positive women we worked with all expressed their desire to have children. While this was a surprise to us, their perspective was that they wanted to have a child to love and be a family. In our more than 25 years of working with HIV positive women in the US and in sub-Saharan Africa, not one has requested assistance to find services that would assist with aborting the child. Every woman has seen the child as her legacy to the family and the community. Most have great dreams for their children and are excited to begin that process. In most of our managed sites we provided family planning information; women were interested in safe spacing and timing of pregnancies, but not terminating pregnancies.

Because of my extensive work with HIV positive women both in the US and abroad, I strongly urge that the current Mexico City policy not be changed. Working in multiple cultures and situations helps one understand the extent of the local opinions and norms. Abortion is not an acceptable norm for women in nearly all of sub-Saharan Africa whether they are dealing with HIV or other issues. I strongly support the current position on the Mexico City policy.

Sincerely, Anita Smith

President, Children's AIDS Fund International

Hi Sarah-Lloyd,

Here is an email which should bring you up to speed on the various information that has gone out to the OPDIVS and tasks pending.

(b)(5)

(b)(5)

I will send an email out to the distribution list with information of coverage the next few weeks.

I will be checking email (however infrequently ☺) so do not hesitate to reach out if you have a question or need something.

Enjoy Labor Day!

Good Afternoon,

As many of you are aware the public announcement of the MCP was conducted on Monday. We are aware that there are many questions for HHS remaining, particularly regarding the way forward for implementation. I apologize for the late notice and hope that you can join for a call with Maggie Wynne tomorrow. I have attached the final documents available and a link to the information available to the public on the State Department web site. Please be prepared to also share any information you may have. If you have any questions that you would like to submit prior to the call that would also be greatly appreciated. You can send them to myself or Hannah Burris.

Subject: MCP Compliance Sub-Group USAID Information
Attachments: Checklist for Missions to Monitor SD Sites 6.15.pdf; COMPLIANCE PLAN TEMPLATE 2-10-14 final.doc; Resource Packet for USAID Partners FINAL with charts 3-2015.pdf; USAID Compliance Overview 4-24-17.pdf

Good morning,

I would like to share with you some informational materials shared by USAID. These are all in reference to compliance with USAID's Family Planning, Abortion and HIV/AIDS statutory and policy requirements.

As shared by Ellen Starbird - *Here are some of the resources we use for informing people about the legislative and policy requirements that guide USAID's FP program and/or for undertaking compliance monitoring.*

1) links::

- <https://www.usaid.gov/what-we-do/global-health/family-planning/usaid-family-planning-guiding-principles-and-us-0>
- <https://www.globalhealthlearning.org/course/us-abortion-and-fp-requirements-2017>

The first is part of the family planning section of USAID's external website. The second is the link to the Global Health Learning Center where the online abortion and FP requirements course can be found. Both of these have been updated to reference MCP. (For example, the current MCP clauses as they apply to family planning can be found at the external website link above).

2) Compliance plan template (attached)

3) Resource packet (attached) with links to key documents, including the "cheat sheet" of legislative and policy requirements as of FY15.

4) Checklist for monitoring service delivery sites (attached)

These resources (2-4) have NOT yet been updated to include MCP.

We hope to have updated draft training slides that we can share with you soon. We will also, of course, send you the final versions when we have them so you can adapt them to HHS's programs and needs.

Please do not hesitate to contact me, Steve Smith or Hannah Burris with any questions.

SUBJECT: OMB Request for Views on S 1757 - Building America's Trust Act

(NOTE: Attached, please find S. 1757, the Building America's Trust Act.)

The Office of Management and Budget has asked for the Department's views on this bill as passed the Senate.

In order that we may respond promptly to this request, please give your comments as soon as possible but no later than 1:00 P.M., THURSDAY, SEPTEMBER 28 to both (1) JOSH BROWN of this Division and (2) cc: our general e-mailbox (email.gcl@hhs.gov) (Microsoft Outlook users, select: OS GCL, EMAIL from the Global Address List).

To ensure that the Department's comments are given full consideration, please observe the following guidelines in providing your office's comments:

- Focus on substance -- we generally refrain from making editorial/stylistic comments on other agencies' documents absent errors that would be embarrassing.
- Supply specific recommended changes in the document, in track-changes format where possible; avoid general observations about the document's topic.
- Supply reasons and explanations for all recommended changes, if the reasons are not obvious.

If you have any questions, call the GCL staff attorney named above, at 202-401-6097, or our Legislative Reference Service, at 202.690.7750.

SUBJECT: SSA Draft Bill on SSDI Reform

(NOTE: Attached please find draft legislative language and a section-by-section from SSA for a series of SSDI reform proposals included in the President's FY 18 Budget.

The following proposals are included in this package:

- Offset Overlapping Unemployment Insurance-Disability Insurance Payments
- Allow SSA to Use Commercial Databases to Verify Real Property Data in the Supplemental Security Income Program
- Government-wide Use of Customs and Border Protection Entry/Exit Data to Prevent Improper Payments
- Use of Death Information to Prevent Improper Payments
- Expanded Authority to Recover Incorrect Payments Made after a Beneficiary's Death
- Hold Fraud Facilitators Liable for Overpayments
- Increase the Overpayment Collection Threshold for Old-Age, Survivors, and Disability Insurance Benefits
- Exclude Social Security Debts from Discharge in Bankruptcy
- Test New Approaches and Reform Disability Programs
- Reinstate Reconsideration in 10 Prototype States
- Reduce 12 Months Retroactive Disability Insurance Benefits to 6 Months
- Eliminate Workers' Compensation Reverse Offset
- Create Sliding Scale for Multi-Recipient SSI Families.)

The Office of Management and Budget has asked for the Department's views on this draft bill.

media@hhs.gov
www.hhs.gov/news
Twitter [@HHSMedia](https://twitter.com/HHSMedia)

FOR IMMEDIATE RELEASE

May 17, 2017

The Secretary's Ventures Fund Announces 2017 Projects

HHS will award \$375,000 in total funding to five projects

Health and Human Services Secretary Tom Price, M.D. today announced the selection of five entrepreneurial projects for investment by the Secretary's Ventures Fund (HHS Ventures). The projects were chosen from across HHS and are part of the latest round of funding and support designed to advance the Department's innovation agenda.

"As we begin the Reimagine HHS process, it is vital to recognize and nourish innovation within the Department," said Secretary Price. "These Ventures teams typify this spirit at HHS."

HHS Ventures is a highly competitive effort that provides growth-stage funding and support to HHS employees with proven ideas for how to dramatically improve their office, agency, or the Department's ability to carry out its mission.

This year, HHS Ventures is supported by funding from the Office of the Secretary, the Centers for Disease Control and Prevention (CDC), the National Institutes of Health (NIH), the Food and Drug Administration (FDA), and the Centers for Medicare & Medicaid Services (CMS).

The projects selected by HHS Ventures represent critical areas of opportunity in improving the efficiency of the Department and include:

Optimizing Cyber-Molecular Surveillance of Viral Hepatitis

The CDC's Division of Viral Hepatitis designed and implemented the Global Hepatitis Outbreak and Surveillance Technology (GHOST), the CDC's first cloud-based surveillance and analysis system. GHOST is a virtual diagnostic system that extracts epidemiological intelligence from next-generation sequencing data.

GHOST provides a surveillance and analysis system for state laboratories to perform independent, inexpensive, and accurate outbreak investigations and then enabling collaboration and coordination across the public health system through a cloud-based system. Moreover, the modular structure and automation tools for GHOST are readily scalable to cyber-molecular surveillance of other viral infections.

The Fight against Zika: Leveraging Health Information Technology

The Office of the National Coordinator for Health Information Technology (ONC) and CDC are partnering to combat the devastating effects of the Zika virus. An important part of a patient's care can be the lab testing and results that accompany a visit to a clinician. While most systems have the ability to establish contact between commercial labs and providers, public health laboratories do not have the ability to exchange this information electronically. Almost all Zika tests are performed at public health laboratories and, because the information can't be transmitted electronically, the orders, test results, and additional information (such as pregnancy status) are either sent via paper form or telephone.

This project would enable efficient data transmission and improve care for patients by transmitting orders and results in a faster and more efficient way. It would serve as an extension of existing electronic test order and result technology. Additionally, this would build the capacity of public health laboratories to respond and manage future changes in testing requirements guidance from public health authorities.

Internet Devices to Improve Animal Care

Millions of rodents are used in HHS research labs each year to both understand mechanisms of disease and develop new therapies. Monitoring the health of these animals is critical for ensuring that research studies produce quality data and research animals are treated humanely.

Currently, trained specialists monitor the health of these animals with daily checks of each cage. This is both time consuming and expensive. To improve health monitoring, a team from NIH and the FDA developed an internet-enabled device that turns a conventional rodent cage into a "smart cage". The "smart cage" assesses food and water intake and sends high resolution data to an online server in real-time. This project represents a novel effort to understand rodent care and processes for monitoring rodent health. It has the potential to reduce the costs of health monitoring while improving the quality of care for research animals.

Electronic Signature Capture and Data Transfer

The Indian Health Service's Phoenix Indian Medical Center (PIMC) has over 1,000 patient visits daily. Many of these patients need to complete insurance verification forms and multiple signatures are required for treatment and billing. In the past, paper forms were printed, verified by the patient or amended, and signed by the patient. Hospital staff then

transported the signed forms to a separate building with a medical records facility, where they were scanned and stored. This process is cumbersome and inefficient.

In an effort to reduce labor and equipment costs and improve patient care, PIMC has tested and is adopting an electronic signature pad to capture patient signatures electronically. This system would create electronic forms and upload the signed forms directly into the network safely and efficiently.

Streamlining Acquisition of Lab Supplies

HHS currently purchases laboratory supplies using a variety of methods that are expensive, inefficient, and duplicative. The HHS Program Support Center is developing an end-to-end process to acquire laboratory supplies by creating an online marketplace to be used by laboratories across HHS. By applying proven supply chain and category management methodologies along with state of the art technology, HHS can reduce inefficiencies, improve consumer satisfaction, and enhance business processes. This approach is scalable to other commodities purchased across HHS and the federal government.

DEPARTMENT OF HEALTH & HUMAN SERVICES

ADMINISTRATION FOR CHILDREN AND FAMILIES

Mary E. Switzer Building
330 C ST, S.W.
Washington, D.C. 20201

Case No: 18-F-0097
Civil Action 18-cv-241

December 27, 2018

Ms. Mary Alice Carter
Executive Director
Equity Forward
85 Broad Street
New York, NY 10004

Dear Ms. Carter:

This is the sixth interim response of the Administration for Children and Families to your December 12, 2017, Freedom of Information Act (FOIA) request for correspondence from certain named Administration for Children and Families (ACF) employees which included certain specified terms, for the months of March, May, September and October 2017. Specifically, you sought the following items:

1. Correspondence to, from or carbon copied to¹:
 - Scott Lloyd
 - Jonathan White
 - Curi Kim
 - Judith Haron
 - Anna Marie Bena
 - Scott Logan
 - Tricia Swartz (Associate Deputy, ORR)
 - Jalyn Sualog (Director of Children Services)
 - James De La Cruz (Houston Field Supervisor)
2. The request asked that the search use the following search terms
 - "pregnancy"
 - "pregnant"
 - "ORR director"
 - "abortion"
 - "ru-486"

¹ The request also sought emails to, from and carbon copying Maggie Wynne and Dr. David Teuscher. However, ACF advised Equity Forward that these individuals work for at the department level and the Office of the Secretary Division of FOI/Privacy has jurisdiction over those records.

- “CPC”
- “ultrasound”
- “rape”
- “nonconsensual”
- “Gestational”
- “judicial bypass”
- “life affirming”
- “unborn child”
- “spiritual counseling”
- “options counseling”
- “WTF”
- “Terminating”
- “terminate”
- “termination”
- “Pregnancy notification”
- “Pregnancy motivations”
- “Scott is”
- “Scott said”
- “from Scott”

Your request was sent to the Office of Refugee Resettlement (ORR) and the Office of the Chief Information Officer for a search for responsive records. The Office of the Chief Information Officer performed the search and provided 159,000 pages of responsive records.

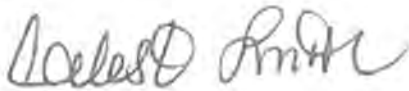

Following extensive negotiations between the parties, it was agreed that ACF would begin its production by disclosing emails without attachments, after which Equity Forward would choose the attachments it wished to receive.

Accordingly, please find enclosed 403 pages of responsive records. Three-hundred fifty-two (352) additional pages were forwarded to the Office of the Secretary (OS), Department of Health and Human Services (HHS) and to other federal agencies for consultation on those pages that originated within those offices.

Some of the information on the disclosed pages has been withheld under the FOIA exemptions (b)(5) and (b)(6). The exemption (b)(5) protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. The exemption protects agency deliberations, both internal and with agency contractors and consultants, attorney-client privileged records and attorney work product. In this case, the withheld information includes pre-decisional discussions within the agency and between agency staff and contractors about management of the program and individual children, sensitive communications between agency staff seeking legal advice and counsel on policy and other matters and documentation of attorney thoughts and work in anticipation of litigation.

The FOIA exemption (b)(6) permits the withholding of records which, if released, would constitute a clearly unwarranted invasion of personal privacy. In this case, the withheld information consists of the identities and/or other private information of private individuals and the work cell phones of federal employees. Public disclosure of this information would constitute an invasion of privacy of those individuals whose identifying information was disclosed. In withholding the information, the individual's privacy interest was balanced against any public interest in disclosure. In each instance where information was withheld, it was determined that the individual's privacy interests outweighed any public interest in disclosure of the withheld information. Disclosure of the withheld information would invade the privacy of the subject individuals but would reveal nothing about the operations or activities of the government.

Sincerely yours,

Celeste Smith
Acting Director
Office of Communications
Freedom of Information Office
Administration for Children and Families
Department of Health and Human Services

Subject:	FOR AWARENESS - BREAKING: Washington Post "Judge orders Trump administration to allow abortion for undocumented teen"
Date:	2017/10/18 16:55:17
Priority:	Urgent
Type:	Note

For awareness, news now breaking on today's court hearing for Garza v. Hargan:

Judge orders Trump administration to allow abortion for undocumented teen

A federal judge on Wednesday ordered the U.S. government to allow an undocumented teenager in its custody to have an abortion, after saying she was "astounded" the Trump administration was trying to prevent the procedure.

I apologize I failed to mention, care provider has been informed by attorney (b)(6) that UAC should be fed and provided with a snack. Previous instructions issued to care provider by attorneys was that "night before medical procedure UAC was **NOT** to eat/consume anything after midnight", therefore we will provide UAC with a meal and snack travel bag for her to consume during her transportation and visit tomorrow as we have been reassured there is no reason not to feed her, thank you.

Good Afternoon Mr. Lloyd,

Please be advised we just received the attached legal document/restraining order from ad litem representing (b)(6) (b)(6) Order indicated request for minor to be taken by ad litem or program to nearest abortion facility tomorrow, October 19, 2017.

Should it be determined for program to transport minor for procedure noted to specified location, the program would assist with making necessary arrangements and provide supervision by one of our staff during transportation; staff selected to transport would be either assigned clinician or case manager, or as indicated by ORR.

We request your guidance on how the program should proceed.

Thanks in advance for your assistance in this matter.

Subject: TRO & Appointments for (b)(6)

Good Afternoon!

I hope this email finds all of you well :)

Please be informed that the D.C. Court determined that (b)(6) should be transported to her medical appointments set for tomorrow, **Thursday, October 19, 2017** and **Friday, October 20, 2017**. Please have her at the following address by **8:00 A.M.** on both days: **802 South Main Street, McAllen, Texas 78501**. I plan on being present, as her Guardian Ad Litem. I have attached the Court's order to this email.

If there are any questions about coordinating transportation, please give me a call at my office number below.

Kind regards,

Rochelle Garza

Subject:	Re: Appeals Court Order
Date:	2017/10/20 21:35:24
Priority:	Normal
Type:	Note

Good Evening Mr. White,

Please be advised that I fully understand the issued directive below. I will ensure that we proceed accordingly and contact you should we have any questions or concerns.

From: White, Jonathan (ACF) <Jonathan.White@ACF.hhs.gov>

Sent: Friday, October 20, 2017 6:53:54 PM

To: (b)(6) (b)(6)

Cc: Lloyd, Scott (ACF); Brooks, Teresa (ACF)

Subject: FW: Appeals Court Order

(b)(6)

I am writing to relay instructions from HHS/ACF leadership, following the ruling today by the Federal Court of Appeals.

A further order of the court has come down in the case of the minor seeking abortion (order attached). In operative part, the federal Court of Appeals Order says “the District Court’s temporary restraining order entered on October 18, 2017, be vacated as to paragraphs 1 and 2 of the order and that the case be remanded to the District Court.” Recall that paragraphs 1 and 2 of the District Court’s order had stated that HHS, ORR or shelter staff shall transport or allow the minor to be transported for the pre-abortion and abortion appointments, and shall not interfere or obstruct her access to abortion counseling or abortion.

Because these two paragraphs of the District Court order have been vacated, ORR and shelter staff should revert to complying with the ORR Director’s September 27, 2017 decision directing that the minor is not authorized to be transported, or to be allowed to be transported, for an abortion appointment or a pre-abortion counseling appointment.

The District Court’s order in paragraphs 3, 4, and 5 are still in effect, however: they require that HHS, ORR, and shelter staff not: reveal the minor’s abortion decision or require her to do so; retaliate against the minor based on her abortion decision; or retaliate or threaten to retaliate against the shelter. ORR and shelter staff, as applicable, should continue complying with these requirements, subject to the ORR Director’s September 27, 2017 decision described above.

The Court of Appeals’ order today also states that ORR shall have until 5 p.m. Eastern Time on October 31, 2017, to possibly find a sponsor for the minor, and the District Court cannot issue a new injunction requiring the minor to be transported for an abortion before that time. However, if she is not released to a sponsor by that time, the Court of Appeals said that the District Court may issue a new Temporary Restraining Order after that time, which may then be appealed. Until the District Court issues a new Temporary Restraining Order after that deadline, or until some other appeals court reverses this Court of Appeals order, ORR and shelter staff should continue complying with the ORR Director’s September 27, 2017 decision described above.

I would appreciate your writing to confirm receipt and understanding.

Thanks, as always, for your assistance.

Subject:	FOR YOUR AWARENESS: Media Clips: Garza v. Hargan Litigation
Date:	2017/10/19 12:53:13
Priority:	Normal
Type:	Note

Good Afternoon,

Below is media coverage scheduled for today's clips on the Garza v. Hargan et al case:

Court to review ruling allowing abortion for immigrant teen (featuring ACF)

An appeals court on Thursday temporarily stayed a judge's ruling that would have allowed a pregnant 17-year-old being held in a Texas facility for unaccompanied immigrant children to obtain an abortion. The U.S. Court of Appeals for the District of Columbia issued a short ruling that still allowed the teenager to be taken to a counseling meeting with the doctor who would perform the abortion. If the appeals court lifts the stay during a hearing Friday morning, the teen might still be able to have the procedure later Friday or on Saturday.

Associated Press, TX

Oct. 19, 2017

Trump administration still trying to block undocumented teen's abortion (featuring ACF)

The Justice Department on Thursday appealed a D.C. district judge's ruling ordering a government-operated detention facility in Texas to let a pregnant, undocumented teen get the abortion she's been seeking. If the D.C. Circuit Court of Appeals doesn't act on the appeal, it's likely that the Central American teen, called "Jane Doe" in court papers, will undergo abortion counseling Thursday. Under Texas law, a woman must undergo such counseling 24 hours before receiving the procedure.

Vice News, NY

Oct. 19, 2017

Trump's DOJ opposes abortion for an undocumented teen & it won't give up (featuring ACF)

On Wednesday a federal judge ruled in favor of a teenage undocumented immigrant's right to obtain an abortion, something the Trump administration has actively tried to stop. The Health & Human Services' Office of Refugee Resettlement and the Department of Justice had taken moves to stop the teen, who arrived from Central America and was caught crossing the U.S.-

Mexico border in September, from visiting an abortion provider. That victory, however, could be short-lived as the Department of Justice has appealed the decision to the U.S. Court of Appeals for the D.C. Circuit, hoping for a stay on the decision.

Bustle, NY

Oct. 19, 2017

Trump administration appeals abortion ruling (featuring ACF)

The Trump administration is appealing a judge's order requiring that the government allow an undocumented pregnant minor in a federally funded Texas shelter receive an abortion. The administration Wednesday night appealed the ruling to the U.S. Court of Appeals for the D.C. Circuit.

Politico, DC

Oct. 18, 2017

Judge: Trump administration must allow undocumented teen to have abortion (featuring ACF)

A federal judge in Washington on Wednesday ordered the Trump administration to allow an undocumented pregnant minor at a federally funded Texas shelter to receive an abortion. Judge Tanya S. Chutkan issued an order restraining the administration from interfering with the girl's access to an abortion hours after oral arguments Wednesday. The Trump administration is seeking an emergency stay to block the order. Since March, the Trump administration has been preventing undocumented pregnant minors being held in federally funded shelters from having abortions. The decision Wednesday could hamper the administration's argument that it has a right to make such decisions.

Judge orders Trump administration to allow abortion for undocumented teen (featuring ACF)

A federal judge on Wednesday ordered the U.S. government to allow an undocumented teenager in its custody to have an abortion, after saying she was “astounded” the Trump administration was trying to prevent the procedure. Lawyers for Attorney General Jeff Sessions signaled to U.S. District Judge Tanya S. Chutkan in Washington that the 17-year-old did not have a constitutional right to an elective abortion in federal custody, unless it was a medical emergency. “I am astounded by that position,” Chutkan said in a 40-minute hearing that was mostly consumed by a back-and-forth between the judge and Scott Stewart, a deputy assistant attorney general. She ordered the government to transport the teenager to have the procedure — or allow her guardian to transport her — “promptly and without delay.”

Federal judge rules illegal-immigrant minor has right to abortion (featuring ACF)

Illegal-immigrant minors in the U.S. have an unfettered constitutional right to obtain an abortion, a federal judge ruled Wednesday, ordering both the Trump administration and Texas officials to back off and allow a 17-year-old girl being held in a government-run shelter to be

taken to a clinic. District Judge Tanya S. Chutkan, who was appointed by President Obama, said during a hearing she was “astounded” that the administration was trying to hinder the girl, identified in court papers only as “J.D.” “Despite the fact that she’s in this country illegally, she still has constitutional rights,” the judge said.

Judge rules teen in US illegally must be allowed to obtain an abortion (featuring ACF)

A federal judge in Washington ordered the Trump administration to allow a teen who is in the U.S. illegally and under the custody of the U.S. government to have an abortion. U.S. District Judge Tanya Chutkan, who was appointed by former President Barack Obama, said Wednesday she was “astounded” to learn that the 17-year-old girl from Mexico, who is being detained in South Texas, was not allowed to obtain the procedure. She ordered the federal government to transport the girl to an abortion facility or to allow a guardian to take her “promptly and without delay” to have a counseling appointment on Thursday and an abortion by Friday or Saturday.

ACLU wins court order against Trump administration that blocked a young woman from an abortion*(featuring ACF)*

Talk about government overreach. It is a complete invasion of privacy for the Office of Refugee Resettlement to be weighing in on the reproductive health issues of a young woman in custody, particularly because their job is to make sure that refugees are safely integrated into the United States and American culture. Among the scope of their duties would be to make sure unaccompanied immigrant children are cared for and have all they need to ensure their well-being. Policing their right to make decisions about procreating is not among their scope of work.

 Scott,

Regarding your question from today about the number of pregnant UC currently in custody nationwide, I have spoken with the Data Team and DHUC, and I am advised that while we cannot produce a 100% accurate number, we can analyze some data from SIRs, the medical module, and other sources to come up with a fairly close number. Of course, due to Murphy's Law, the reporting server needed to produce these answers is also down right now. The project is forecast to take about 2-3 days, but I have tasked people to do it so we should have that for you this week, unless the IT downtime for the reporting server is longer than forecast.

Hope this will meet your needs.

Hi Mr. Lloyd,

I'm a political reporter at Univision and we are following closely the latest news on the case of Jane Doe. We'd love to know if your agency is planning to appeal today's ruling. If not, what's your reaction to the decision.

We'd also like to know what the motivations are for delaying Jane's access to the procedure.

Finally, we'd also appreciate if you could tell us about the reasons for ORR new policies (such as requiring your approval for these procedures or transferring the girls to crisis pregnancy centers).

I can also be reached at my cell (b)(6) Thanks.

Best,

Subject: Order granting TRO for UAC in care
Importance: High

(b)(6) and (b)(6)

Per the Temporary Restraining Order issued by the U.S. District Court Judge in Washington DC, and further to my and (b)(6) conversation on the phone, here is direction from ACF and HHS leadership for the case of the UAC requesting TOP:

IES should coordinate with the UAC's guardian ad litem for the UAC to see her OB GYN tomorrow (Thursday October 19), for a pre-abortion counseling appointment and travel to and from that appointment (she should be returned to the shelter after that appointment), and Friday or Saturday

(October 20 or 21) for the abortion procedure (she should be returned to the shelter after that appointment when her medical condition allows it). Please also note that IES should not:

- interfere with or obstruct the UAC's access to abortion counseling or an abortion;
- require the UAC to reveal her abortion decision to anyone, nor should ORR staff or the shelter reveal it to anyone themselves; or
- retaliate against the UAC based on her decision to have an abortion.

Likewise, ORR shall not retaliate or threaten to retaliate against IES for any actions it has taken or may take in facilitating the UAC's ability to access abortion counseling and an abortion.

I am advised that this instruction may change if an appeals court puts this court order on hold, but until you receive notification in writing that this has occurred, please assume the requirement for her to have access to abortion services is in place and proceed with arrangements for the UAC to receive medical services from her OB GYN, including abortion counseling and workup for pregnancy termination.

I am clarifying details related to logistics of the transport to the appointment per our conversation and will update shortly when I have definitive guidance.

Please let me know if you have any questions.

Subject: ORR Guidance for Pregnant UC

Importance: High

Good afternoon! Effective immediately, ORR is requiring grantees to notify ORR through their assigned Federal Field Staff immediately of any request or interest on any girl's part in terminating her pregnancy. A response from ORR Director would be required before taking any next steps (i.e., scheduling appointments, pursuing a judicial bypass, or any other facilitative step).

Per the policy, "Grantees are prohibited from taking any actions in these cases without direction and approval from ORR." Approval for such procedures would be provided in the form of a signed authorization from the Director of ORR. To restate and reinforce the existing policy, grantees may not perform Heightened Medical Procedures without written authorization from the ORR Director, except in emergency medical situations (as described in Emergency Medical Services). Grantees should not conduct procedures, or take any steps that facilitate future appointments without signed written authorization from the ORR Director. Note that the requirement for written authorization by the ORR Director applies whether the procedure will be paid for with Federal funds or by other means.

Please ensure close adherence and understanding of the policy. Approval for such procedures can only be authorized by the ORR Director in writing. Failure to adhere to this policy will be a significant issue of non-compliance.

If there are questions or concerns, please do not hesitate to contact your assigned Federal Field Staff for clarification.

Thank you!

Sarah

Done. Let me know anything else you might need. I'm heading into the mountains today but experience teaches me where I'll be still gets blackberry signal (the wilderness isn't what it used to be), so I'm available for anything you need.

Hoping to see you joining us in Switzer this week--ITIO shows signs you are moving in, which I find encouraging.

Good Afternoon Mr. White,

I fully understand and we will proceed as directed pending further updates, as of this moment we

WILL NOT transport UAC to medical center tomorrow 10/20/17. With that said, please see detailed summary of today's consult below....

The care provider staff and UAC arrived Whole Woman's Health located at 802 South Main Street, McAllen, Texas 78501 at 8:00 a.m. as requested. Care provider staff were met by Rochelle Garza, Guardian Ad Litem and (b)(6) Attorney, whom were already at health center awaiting the arrival of UAC. Care provider staff and UAC were escorted into building by security officer and attorneys.

Guardian Ad Litem proceeded to assist UAC with the medical forms issued by medical office. Only attorneys accompanied UAC during today's consult, care provider did not partake or witness any portion of services issued during today's consult. both attorneys accompanied UAC, care provider staff remained in waiting area.

Following UAC's consult, attorneys advised care provider Medical Coordinator that subsequent

appointment was to be scheduled for tomorrow, 10/20/17 at 8:00 a.m. As per Attorneys, care provider should expect to be present at medical facility for at least 6 hours (please see attached medical progress note issued to care provider staff). At the conclusion of today's appointment, Attorney (b)(6) informed care provider Medical Coordinator that "UAC's appointment for procedure was scheduled for tomorrow 10/20/17 at 8:00AM and to be prepared to see protestors upon arrival. In addition, (b)(6)

(b)(6) (attorney)

*stated the procedure would **not** be performed "right away" that "procedure would not be performed until ORR contacted care provider and informed care provider that procedure would be taking place".*

Please be advised upon exiting facility, care provider staff identified media presence. Care provider staff took immediate measure to conceal the UAC from any media, however care provider staff were not approached by media and are not able to confirm if video footage was taken of the UAC or staff exiting the facility (an ORR SIR will be submitted regarding medial presence).

Again, as of this moment, 10/19/17 at 4:00 p.m. (CST) care provider **WILL NOT** be transporting UAC to scheduled appointment on Friday, 10/20/17 at 8:00 a.m. Care provider will adhere to ORR Director's previously issued directives unless care provider receives subsequent explicit directives from ORR HQ officials to proceed otherwise.

Please let me know if you have any questions or concerns, we will gladly be of assistance.

Subject: Instructions on UAC in care

Importance: High

(b)(6)

Please see latest guidance from HHS leadership, below:

Yesterday we sent you instructions on complying with the temporary restraining order (TRO) of the U.S. District Court concerning the UAC who is seeking an abortion procedure. We also indicated that TRO would be subject to subsequent orders of appeals courts.

Today we received an order of the appeals court, copied below, which places an “administrative stay” on yesterday’s TRO to the extent that TRO requires that the minor be transported or released for an abortion procedure on October 20 or 21. What this stay means is that ORR is no longer required by court order to transport or release the minor for this purpose, pending subsequent orders of the court.

As a result of this new order, HHS and ORR leadership instruct that you should please again comply with the ORR Director’s September 27, 2017 decision, which directed that the minor shall not be transported or released for the abortion procedure.

Please confirm your receipt of this instruction.

We will again update you as we receive further instructions from the court.

Court of Appeals Docket #: 17-5236 Docketed: 10/18/2017

Rochelle Garza v. Eric Hargan, et al

Appeal From: United States District Court for the District of Columbia

Docket Text:

PER CURIAM ORDER [1700058] filed ORDERED that the district court's temporary restraining order filed on October 18, 2017, be administratively stayed pending further order of this court to the extent that the order requires appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem to obtain an abortion procedure on October 20, 2017, and/or October 21, 2017. The portion of the order requiring appellants to transport J.D. or allow J.D. to be transported by either her guardian or attorney ad litem on October 19, 2017, to obtain the counseling required by state law remains in effect, as do paragraphs 3, 4, and 5 and the costs and contempt provisions of the order. The purpose of this administrative stay is to give the court sufficient opportunity to consider the emergency motion for stay and should not be construed in any way as a ruling on the merits of that motion. See D.C. Circuit Handbook of Practice and Internal Procedures 33 (2017). It is FURTHER ORDERED, on the court's own motion, that appellee file a response to the emergency motion for stay by 2:00 p.m. today, October 19, 2017. Any reply is due by 8:00 p.m. today, October

19, 2017. The parties are directed to hand-deliver the paper copies of their submissions to the court by the time and date due. It is FURTHER ORDERED that oral argument be scheduled before this panel on Friday, October 20, 2017,
at 10:00 a.m. in Courtroom 31. Before Judges: Henderson, Kavanaugh and Millett. [17-5236]

I spoke to (b)(6) CM from Jane's Due Process, to ensure we are taking all the steps and complete them in a timely manner.

?

We will need to take her to apply for the judicial bypass tomorrow morning. Do I go with her or can the clinician or case manager go?

?

Also, she does need a sonogram and options counseling at the same place she will have the procedure done, by Texas law, then wait 24 hours before the procedure takes place. I don't want to step on toes and I don't know exactly how far along she is but her case review said she was already 18 weeks, I am thinking she is between 18 and 19, would Scott be taking care of these appointments or should I contact them?

I was informed that Planned Parenthood might not be able to complete the procedure if she is past 17 weeks but this is not confirmed.

Subject: ORR Guidance for Pregnant UC

Importance: High

Good afternoon! Effective immediately, ORR is requiring grantees to notify ORR through their assigned Federal Field Staff immediately of any request or interest on any girl's part in terminating her pregnancy. A response from ORR Director would be required before taking any next steps (i.e., scheduling appointments, pursuing a judicial bypass, or any other facilitative step).

Per the policy, "Grantees are prohibited from taking any actions in these cases without direction and approval from ORR." Approval for such procedures would be provided in the form of a signed authorization from the Director of ORR. To restate and reinforce the existing policy, grantees may not perform Heightened Medical Procedures without written authorization from the ORR Director, except in emergency medical situations (as described in Emergency Medical Services). Grantees should not conduct procedures, or take any steps that facilitate future appointments without signed written authorization from the ORR Director. Note that the requirement for written authorization by the ORR Director applies whether the procedure will be paid for with Federal funds or by other means.

Please ensure close adherence and understanding of the policy. Approval for such procedures can only be authorized by the ORR Director in writing. Failure to adhere to this policy will be a significant issue of non-compliance.

If there are questions or concerns, please do not hesitate to contact your assigned Federal Field Staff for clarification.

Thank you!
Sarah

Subject:	Pregnancy notification
Date:	2017/05/03 14:05:35
Priority:	Normal
Type:	Note

Mr. Lloyd,

A 17 yo UAC, admitted on May 2, 2017 to the IES Palm Valley shelter in TX , was reported during the initial medical examination to be 4 months pregnant and receiving prenatal care while in home country. Child reported pregnancy was a result of consensual sexual relations. The UAC pregnancy screening during the initial medical exam was positive. DHUC team was informed via Intakes notification.

The UAC made no statement or allegation of sexual abuse or assault. There is no medical concern related to this pregnancy identified at this time.

Child will age out of the program on May 9, 2017; the medical personnel referred the UAC to OB/GYN services to resume prenatal care.

The portal does not indicate any request related to information regarding pregnancy termination.

I would anticipate that we would direct the provider to:

(b)(5)

Please advise of any additional requirements or steps to be taken at this time.

Mr. Lloyd,

FYSA

A 15 yo UAC is reported via Intakes daily notification to be 6 months pregnant. The UAC is currently enroute to the Heartland program in Chicago, IL for admission. Once DHUC has more information via the initial medical exam, we will update you.

Mr. Lloyd,

For your information.

A 15 yo UAC is enroute to the Crittenton shelter in Fullerton, CA, who is reported to be 34 weeks pregnant. Intakes reported to the DHUC team via routine notification consistent with procedure.

DHUC will update you once the Initial Medical Exam (IME) has been done.

Good afternoon! (b)(6) is requesting some follow up information regarding family planning for pregnant girls. Please let me know what you think

Thanks

From: (b)(6) <(b)(6)@swkey.org>
Subject: another policy question
Date: 09 May 2017 15:30
To: "Viola, Sarah (ACF)" <Sarah.Viola@acf.hhs.gov>

Hi Sarah,

Hope your week has gotten off to a good start. I need some more direction on dealing with pregnancy cases and hope that you can provide additional insight/guidance.

Our programs are seeking guidance in terms of what information is permitted to share with pregnant girls in our care. Based on the policies and guidance recently put out on this topic, our

understanding is that the client can only receive information on termination of her pregnancy options from appropriate professionals (OBGYN/Planned Parenthood etc.) after she has expressed interest in doing so. However, if the client is not aware that a termination is an option for her how will she know to seek information about it if she isn't aware the option exists?

Also, if our clinicians assess that she is in distress over her pregnancy, will they be permitted to discuss all options (adoption, term) in an objective and clinical manner? Or is this not permitted by policy?

We are requesting the guidance as to be absolutely certain we are doing everything according to policy, but at the same time ensuring that we are doing the right things for these young ladies in our care.

I look forward to hearing back from you on this topic. Thank you!

Mention ORR

Feds to ask for dismissal of Tennessee's refugee lawsuit

The Tennessean | Joel Ebert | 5-9-2017

The federal government will ask for a dismissal of Tennessee's lawsuit over refugee resettlement, according to document filed in federal court on Monday. While seeking more time to file their request, attorneys for the Department of Justice said Tennessee lacks standing and "their claim is unripe."

Foreign Minor Resettlements to MS-13 Hotspots Continues for 4th Year, Data Show

Breitbart | John Binder | 5-9-2017

The first quarter report for Fiscal Year 2017 from the Office of Refugee Resettlement (ORR) indicates no effort by the federal government to slow the mass relocation of typically Central American unaccompanied refugee children in areas like Nassau and

Suffolk Counties, New York, which have become breeding grounds for the violent MS-13 gang.

MILES OF UNDERSTANDING

The Daily Iowan | Lily Abromeit | 5-9-2017

According to data provided by the Office of Refugee Resettlement, the number of primary refugee arrivals has gradually increased since 2010 in Iowa. In 2015, the latest data available, 787 refugees were first resettled in Iowa. These refugees came from 23 different nations; the most from Burma/Myanmar at 38 percent, followed by the Congo at 10 percent.

Refugee Resettlement

Refugees From Violence and War Build New Lives In New York

Village Voice | SULOME ANDERSON | 5-9-2017

New York has never been an easy city in which to start a life under the best of circumstances, and the high cost of living stymies formal refugee resettlement efforts. Those who arrive, like Loubna, with developed talents and international connections through their work are still thrust into the maelstrom of New York's competitive cultural life. Others — those resettled with the help of aid organizations, family arrivals from troubled states, undocumented refugees from war and repression — are cut off from the only lives they've ever known and struggle to navigate through New York's pitfalls and opportunities.

Refugee resettlement debate heats up at Fargo City Commission meeting

KFGO | Don Haney | 5-9-2017

Piepkorn says a legislative study approved this session should supply information on the true costs of refugee resettlement. He believes those costs should be reimbursed by the federal government. A citizens group critical of Piepkorn's criticism of refugee resettlement is expected to turn in petitions later this week calling for the commissioner's recall.

Coalition counts cost of delay to US refugee deal in budget

The Guardian | 5-9-2017

Spending on offshore detention centres has not been reduced in the federal budget to reflect the refugee resettlement agreement with the United States because of the deep uncertainty surrounding the arrangement.

AP report: U.S. wants tally of Haitian immigrants' crimes

PBS Newshour | ALICIA A. CALDWELL, ASSOCIATED PRESS | 5-9-2017

The Trump administration has begun hunting for evidence of crimes committed by Haitian immigrants as it decides whether to allow them to continue participating in a humanitarian program that has shielded tens of thousands from deportation since a devastating earthquake.

Unaccompanied Children

Northwest Immigrant Rights Project Sues Feds Over Request to Stop Helping Undocumented People

The Stranger | Sydney Brownstone | 5-9-2017

In the same motion, NWIRP argued that this would "deprive thousands of unrepresented immigrants—including asylum seekers and unaccompanied children—of the chance to consult with a NWIRP lawyer and to receive critical assistance in understanding immigration law and navigating the byzantine immigration system."

Group Helps Provide Stability for Unaccompanied Minors Arriving in Greater Portland

Maine Public Radio | CAROLINE LOSNECK | 5-9-2017

Navigating life as a teenager can be difficult — there's prom, drivers ed, preparing for college and managing relationships. But how about being a teen from a foreign country without parents or an adult guardian to guide you? That's where a small, informal network of caring adults comes in. Over the last 6 years, the network has helped unaccompanied minors who've arrived in Greater Portland legally on student visas after fleeing their own war torn countries. There are no official numbers, but the group estimates about 60 students have settled in the area.

Cleared Of Rape, Immigrant Teens Now Face Child Pornography Charges

WAMU | Armando Trull | 5-9-2017

Two undocumented immigrant teens cleared of raping a 14-year-old schoolmate in Montgomery County are now facing child pornography charges in what critics are calling a prosecutorial attempt to make up for dropping a case that drew comment from the White House.

Zika Virus Disease, confirmed and probable cases

1

Total confirmed cases: 1

Total probable cases: 2

Laboratory tests compatible with Zika virus infection

2

Total count: 7

Laboratory tests compatible with Flavivirus infection, not otherwise specified (NOS)

3

Total count: 34

Pending case classification ⁴

Total count: 5

¹ Reported symptoms, including past symptoms that have since resolved, AND laboratory tests compatible with Zika virus infection (confirmed), or Flavivirus NOS (probable). Currently, only cases who meet the confirmed or probable Council of State and Territorial Epidemiologist Case Definition are reported on the CDC website.

² No symptoms, but laboratory tests compatible with recent Zika virus infection. Currently not reported on the CDC website.

³ No symptoms, but laboratory tests compatible with Flavivirus NOS infection (i.e., inconclusive test results; could be Dengue). Currently not reported on the CDC website.

⁴ Pending more information about state and CDC classification of case.

Hurricane News Update - Afternoon Update

Friday, September 8, 2017 9:00 PM EDT

Editor's Note

Bulletin Intelligence is offering complimentary storm updates to clients who are leading the response to the recent hurricanes and those who are in the path of the storm. Our goal is to keep those most affected informed. We'll continue this service throughout Hurricane Irma and its immediate aftermath, with updates going out at 2 p.m. ET and 9 p.m. ET. If you or a member of your team would like to be added to the distribution, please email us [here](#) or reply to this briefing.

Trump Signs \$15 Billion Disaster Funding Bill That Raises Debt Ceiling.

President Trump on Friday signed legislation passed by Congress earlier in the day that allocates \$15.25 billion in additional disaster relief funds while also raising the debt ceiling. While media coverage was largely favorable toward Trump for signing the funding package, reporting

highlighted that Congressional Republicans were furious with the President for striking a deal with Democrats to pass the legislation.

USA Today (9/8, Korte, Jackson) reports that after Trump arrived at Camp David on Friday for “a weekend huddling with his cabinet and monitoring the federal response to hurricanes Harvey and Irma,” the President “signed a bill to provide \$15.25 billion in additional disaster relief funds, White House press secretary Sarah Huckabee Sanders said.” According to USA Today, the Administration’s response is “increasingly complicated as the federal government fights what is essentially a three-front war: Recovery in Texas and Louisiana, life-saving efforts in Virgin Islands and Puerto Rico, and preparation and evacuation in Florida, Georgia and South Carolina.” Bloomberg News (9/8, Wasson) reports Sanders tweeted H.R. 601 would provide “much needed support for storm survivors. Our thoughts and prayers are with all impacted.”

The Washington Times (9/8, Miller) reports Sanders additionally argued Trump was “not concerned that he angered some Capitol Hill Republicans by striking a deal with Democrats to quickly pass emergency disaster relief” because “it was more important to break the gridlock in Congress.” Sanders said, “The biggest message is we are a lot less focused on what makes Congress happy and [instead on] what makes Americans better and stronger.” She continued, “He’s going to continue working with whoever is interested in moving the ball forward to help the American people.” Reuters (9/8, Rampton, Zargham) reports Sanders added, “I certainly think that the goal is to have bipartisan efforts and certainly legislation where you’ve got Republicans and Democrats both working towards it. ... And I certainly would expect to continue to see that.”

Meanwhile, the Wall Street Journal (9/8, Radnofsky) reports Trump defended his decision on Friday and the New York Times (9/8, Baker) reports he also “rejected Republican complaints about his decision to work with Democrats on fiscal and immigration issues” in several tweets “chiding his own party for failing to advance major legislation and calling on congressional leaders to begin overhauling the tax code immediately.” In two posts, the President said, “Republicans, sorry, but I’ve been hearing about Repeal & Replace for 7 years, didn’t happen! Even worse, the Senate Filibuster Rule will never allow the Republicans to pass even great legislation. 8 Dems control – will rarely get 60 (vs. 51) votes. It is a Repub Death Wish!” He continued, “Republicans must start the Tax Reform/Tax Cut legislation ASAP. Don’t wait until the end of September. Needed now more than ever. Hurry!” However, the AP (9/8) says that Trump’s tweet “ignores the fact that Senate Republicans trying to pass the health care bill were working under rules that required a simple majority, not 60 votes.”

In addition, the Washington Times (9/8, Persons) reports Office of Management and Budget Director Mulvaney on Fox News “said Friday that President Trump proved he can govern in his deal with Democrats this week.” Mulvaney asserted, “Let’s look at it from this perspective, what did the president do in addition to clearing the decks by cutting this deal with the Democrats earlier this week? He proved that he can govern. He proved that he can run the country and prioritize what’s most important at the appropriate times.” Mulvaney added, “I think he’s looking at that debt ceiling saying, look, that might impede my ability to effectively govern the country, so is there a way to deal with this in a different way?”

Conservative Lawmakers Boo, Hiss As Bill Passes.

The AP (9/8, Taylor) reports “the House voted 316-90 for the measure

that would refill depleted emergency accounts as Florida braces for the impact of Hurricane Irma and Texas picks up the pieces after the devastation of the Harvey storm” and raise the debt ceiling, but “all 90 votes in opposition were cast by Republicans, many of whom seethed after Trump cut the disaster-and-debt deal with Democratic leaders with no offsetting budget cuts.” The New York Times (9/8, Kaplan, Shear) reports conservatives lawmakers “vented” at Treasury Secretary Mnuchin and Mulvaney during a closed-door meeting that had “sought to drum up more Republican support for the legislation” and the Wall Street Journal (9/8, Peterson, Hughes) reports House Republicans were surprised by the appeal from Mulvaney, given his former opposition to raising the debt limit during his tenure in the House. The AP (9/8, Daly) reports the lawmakers “hissed and booed” both Mnuchin, who asked Republicans to “vote for the debt ceiling for me,” and Mulvaney, “though at least one lawmaker said the booing was largely good-natured.”

According to the Washington Post (9/8, Debonis, Snell), “to many GOP members, the administration’s messengers were poorly chosen: Mnuchin is a New York financier known for his past as a Democratic fundraiser. Mulvaney is a former House conservative who spent much of his legislative career browbeating GOP leaders over the national debt and budget deficits.” Rep. Ryan Costello asserted, “There were probably a lot of members in there in disbelief. ... I do know that there is a lot of frustration with the deal that was cut by the president, and I think it’s a very difficult pill for many in there to swallow.” Politico (9/8, Bade, Cheney) similarly says “the huddle quickly went off the rails when Rep. Tim Walberg stood up to say...Trump needed to play more with the team” while “more than a dozen lawmakers...echoed that same sentiment, according to sources in the room.”

Meanwhile, Politico (9/8, Scholtes) in a separate article reports “several Republicans pressed the Cabinet officials to commit to a strategy for

handling deficit spending the next time Congress must vote to raise the debt limit, according to lawmakers who attended the meeting.” Rep. Jeff Duncan said that he told Mnuchin, “Show us a plan. ... We can’t just keep borrowing money. We’re going to be \$22 trillion in debt.”

Ultimately, McClatchy (9/8, Dumain) reports “more than two dozen congressional Republicans from storm-vulnerable states Friday voted against authorizing \$15.25 billion in disaster relief funds.” McClatchy says that although they appeared “insensitive,” the conservative lawmakers “insisted constituents would understand their votes.” In a separate article, McClatchy (9/8, Daugherty) reports Reps. Matt Gaetz and Ted Yoho voted against the bill, with Gaetz condemning the funding package as “generational theft.” Bloomberg News (9/8, Wasson) reports that in an interview after the meeting, Yoho “responded to Mnuchin’s comments by saying: ‘He’s not one of my constituents!’” In addition, Rep. Dave Brat of Virginia said: “The comments from the Treasury secretary today were not helpful. I found them to be intellectually insulting.”

Pelosi Refuses To Apologize For Reaching Agreement With Trump.

The Washington Post (9/8, Snell) reports House Minority Leader Pelosi “isn’t apologizing to Democrats and liberal activists for cutting a deal with President Trump on spending and the debt limit.” In an interview on Friday, Pelosi asserted, “I make no apology for doing that with the person who is going to sign the bill. ... It gives you great leverage.” The AP (9/8, Werner) reports she also “predicted on Friday that Democrats will have increased leverage on immigration and other issues, after a debt and disaster aid deal they cut with...Trump passed the House on the strength of Democratic votes.” Pelosi told reporters that if legislation depends “on Democratic votes, it increases our leverage. ... It gives us a possibility for passing the DREAM Act” as an amendment to spending

legislation.

However, the Washington Times (9/8, Persons) reports House Freedom Caucus Chairman Mark Meadows insisted Friday on MSNBC that Trump's deal with Democrats was a "one off" occurrence and not a trend. He asserted, "Because of [the] hurricane relief, there wasn't a whole lot of options. When you look at this you either had an 18-month clean debt limit, or you had what was agreed to, a three-month clean debt limit. When given two bad options, you can't be too critical of anybody, but I can tell you what it was. Our grassroots are very confused."

Former Presidents Launch Fund For Hurricane Relief Aid.

The Wall Street Journal (9/8, Radnofsky) reports former Presidents Barack Obama, George W. Bush, Bill Clinton, George H.W. Bush, and Jimmy Carter in a 30-second ad that aired during the opening National Football League game on Thursday night kicked off an appeal to Americans for hurricane relief funding. The New York Times (9/7, Haag) says "the campaign, One America Appeal, began with [the] public service announcement" in what "was a rare showing of unity in American politics, and President Trump, who has disregarded traditional presidential decorum and has criticized some of his predecessors, endorsed their effort." Trump tweeted, "We will confront ANY challenge, no matter how strong the winds or high the water. I'm proud to stand with Presidents for #OneAmericaAppeal."

Administration Warns Of Irma Threat, Urges Floridians To Obey

Evacuation Orders.

The Washington Times (9/8, Miller) reports the White House said on Friday that President Trump “is closely monitoring Hurricane Irma and federal resources are positioned to help,” but he also “urged people in the path of the powerful storm to heed local officials and take all possible precautions.” At the daily White House press briefing, White House homeland security advisor Tom Bossert “said federal agencies were ‘fully engaged’ to support Florida and other states as the storm moves up the coast. But he stressed that danger was real and encourage people to get ready.” Bossert added, “It’s not a tough-love message, it is a message of clarity and honesty, at some point folks will be on their own. ... I want people to understand that they have a part to play here too.”

Reuters (9/8, Chiacu) reports Trump in his weekly address warned that Irma “is a storm of absolutely historic destructive potential” and called on “everyone in the storm’s path to be vigilant and to heed all recommendations from government officials and law enforcement.”

Meanwhile, Reuters (9/8, Shepardson) reports Federal Emergency Management Agency Administrator Long at a news conference on Friday asserted Irma “continues to be a threat that is going to devastate the United States in either Florida or some of the southeastern states” and “warned people not to ignore evacuation orders.” In addition, Health and Human Services Secretary Price called Irma a “remarkably dangerous storm,” and he cautioned that “the window to get yourself in the right spot...is closing rapidly.”

As Irma “pounded the Bahamas and the northern part of Cuba on Friday

evening, before cycling toward Florida,” the New York Times (9/8, Times) reports Long said, “It’s not a question of if Florida’s going to be impacted. ... It’s a question of how bad Florida’s going to be impacted” while Florida Gov. Rick Scott “said it would be ‘way bigger than Andrew,’ referring to the 1992 storm that was the most destructive hurricane to hit the state.” In addition, Long recommended “people from Alabama to North Carolina should be monitoring the storm and making preparations.”

Politico (9/8, Caputo) reports Sen. Marco Rubio is also “warning that Hurricane Irma could ‘overwhelm the system’ in Miami, as the nation’s eighth-largest city – and leaders across the state – prepares for the storm amid a kind of creeping dread.” In a phone interview, Rubio told Politico, “You’ve got a lot of elderly people living in old structures and trailer parks who don’t want to leave. You’ve got cruise ships dropping people off at the Port of Miami. ... You’ve got major airports in Miami, Fort Lauderdale, Palm Beach. I don’t care if the towers open and the airlines are flying, you can’t get anyone on the plane without TSA agents. And if those TSA agents live in Miami and were evacuated or harmed by the storm, it’s going to be a while until you get them back to work.”

In an interview with the Miami Herald (9/8, Smiley), Miami Mayor Tomás Regalado (R) called on the President and Environmental Protection Agency Administrator Pruitt “to acknowledge that climate change is playing a role in the extreme weather that has slammed his city and the continental U.S. this summer.” Regalado asserted, “This is the time to talk about climate change. This is the time that the president and the EPA and whoever makes decisions needs to talk about climate change. ... If this isn’t climate change, I don’t know what is. This is a truly, truly poster child for what is to come.”

Administration Prepared To Take Action As Irma Looms.

The Miami Herald (9/8, Rosenberg) reports Federal Emergency Management Agency has packed “around 5 million meals and 5 million liters of water with other relief supplies” in trucks at an Alabama air base, has “mobilized eight sophisticated search-and-rescue teams to stand by in Georgia and by the eve of the arrival of Hurricane Irma on Friday, moved about 300 extra federal employees into Florida,” including FEMA’s regional administrator Gracia Szczech for “state planning at the Emergency Operations Center in Tallahassee.” A FEMA spokeswoman Mary Hudak said, “We’re embedded at the state EOC – elbow to elbow, shoulder to shoulder – to make sure there is close and clear communication on any requirement that might come to us from the state.” According to the Herald, “the federal government has an array of other human and tangible assets on standby beyond the impact zone to move in, at the governor’s request, as people emerge from their shelters to see what havoc Irma’s winds have wrought.”

Reuters (9/8, Ali) reports the US Navy also “said on Friday that it was moving the aircraft carrier Abraham Lincoln into position to provide humanitarian relief from Hurricane Irma if needed.” In a statement, the Navy “said...the Abraham Lincoln, along with the amphibious assault ship Iwo Jima and transport dock ship New York, had been ordered to get underway on Friday and that a destroyer would join them.” The Miami Herald (9/8, Rosenberg) reports the Fleet Forces Command said in the statement that “These ships are capable of providing medical support, maritime civil affairs, maritime security, expeditionary logistic support, medium and heavy lift air support, and bring a diverse capability including assessment and security.” The Navy added “the Arleigh Burke-class destroyer USS Farragut was already ‘conducting local operations’ and has been ordered to join the group.”

US Waives Jones Act To Ensure Fuel Available For Hurricane Responders.

Reuters (9/8, Gardner) reports the Department of Homeland Security on Friday "said it was temporarily waiving a law that limits the availability of cargoes on the U.S. coasts, a step that will ensure enough fuel reaches emergency responders during Hurricane Irma and in the wake of Hurricane Harvey." Acting DHS Secretary Elaine Duke said that "with Hurricane Irma, one of the most powerful Atlantic storms in a century, expected to hit Florida in days, the region will experience 'one of the largest mass evacuations in American history' and see historic levels of restoration and response crews." She added "waiving the Jones Act will ensure there is fuel to support lifesaving efforts and restore services and infrastructure in the wake of the storm."

National Hurricane Center: Irma "Likely To Make Landfall In Florida As A Dangerous Major Hurricane."

Georgia as well as "the Carolinas – where heavy rains and flooding are expected early next week – declared emergencies Friday," the Washington Post (9/8, Achenbach, Berman) reports "but attention remained focused on Florida," where forecasts predict "up to 20 inches of rain and thrashing winds no matter how the storm pivots before hitting the mainland United States." The National Hurricane Center warned Friday, "Irma is likely to make landfall in Florida as a dangerous major hurricane, and will bring life-threatening wind impacts to much of the state regardless of the exact track of the center."

According to the Washington Post (9/8, Samenow), "A hurricane catastrophe has become nearly unavoidable; it's only a matter of what areas are hardest hit and how severely." The Post says that Irma "is comparable in strength to Hurricane Andrew, which devastated parts of South Florida in 1992, but much larger in size." The Post adds that "based on the latest computer model projections, it's almost impossible the storm will miss" while the Miami Herald (9/8, Staletovich) says "reliable forecast models projecting the storm's path predictably began to agree on a final, fateful track, with a direct hit along the south coast Sunday after crossing the middle Keys – although any wobble at this point could still change the storm's course." While Irma was downgraded to a Category 4 hurricane and the eye almost doubled to more than 45 miles across, National Hurricane Center forecaster Mike Brennan warned that as "Irma is moving south to north, the storm will likely make a "protracted slog" across South Florida, with hurricane-force winds lasting up to 12 hours."

USA Today (9/8, Rice) reports the projected path for Irma "is unusual, as many hurricanes approach the state at an angle." USA Today adds that "the two devastating Category 5 hurricanes that hit Florida – Andrew and the 1935 Florida Keys/Labor Day hurricane – both only went through part of the state."

Irma Hammers Cuba, Other Caribbean Nations En Route For Florida.

Reuters (9/8, Frank) reports Hurricane Irma on Friday "lashed Cuba and the Bahamas as it drove toward Florida...after hitting the eastern

Caribbean with its devastatingly high winds, killing 21 people and leaving catastrophic destruction in its wake.” The AP (9/8, Boylan, Fox) reports Irma also “battered the Turks and Caicos Islands early Friday” and the British territory’s communications “went down as the storm slammed into the islands, and the extent of the devastation was unclear.” NBC Nightly News 📺 Video (9/8, 1:38, Holt) Rehema Ellis reported that in the Bahamas, “authorities say those evacuated may have nothing to do back to.”

On the ABC World News Tonight 📺 Video (9/8, 2:05, Muir), James Longman reported the Prime Minister of Barbuda is now “worried about Jose, who may strike again after the island was nearly completely destroyed. ... and Jose is nearly a category four.” On the CBS Evening News 📺 Video (9/8, Glor, Mason), the BBC News’ Laura Bicker reported “Irma has reduced [Barbuda] to rubble. The ruins lie scattered, torn, and ripped apart.” Bicker added that “the sheer horrifying scale of the devastation here means that barely a building is salvageable.”

The Washington Post (9/8, Faiola, Bever, Degrandpre) reports “about 95 percent of the islands of Barbuda and St. Martin sustained some damage or were outright destroyed, officials and local residents said.” The Post adds “Irma’s death toll has reached at least 22, according to the Associated Press, a figure expected to rise as its punishing winds moved over Cuba and begin a potentially disastrous assault on the Bahamas and Florida.” While the US has deployed ships to Puerto Rico and the US Virgin Islands, “as of Thursday night, no other countries had asked for the U.S. military’s help, one official said, but Defense Department planners were preparing as though such requests may come.” John Cornelio, a spokesman for Northern Command, told the Post, “It’s safe to say things may progress. I don’t want to get ahead of ourselves, but one of the things DOD can provide is capacity.”

In addition, the Miami Herald (9/8, Gurney) reports US authorities "were unable to reach St. Martin on Friday as Hurricane Jose approached and instead are relying on the Netherlands and France to assist U.S. citizens, the State Department said." However, the US Navy has "sent ships to the Virgin Islands, and French, British and Dutch rescuers also sent rescuers to their territories." US Transportation Command is also "providing a C-17 Globemaster aircraft and the USS WASP is providing two MH-60 helicopters to assist with the relocation of hospital patients from the U.S. Virgin Islands."

Bloomberg News (9/8, Fieser) reports Irma "is already the most expensive storm in the Caribbean's history, according to" Germany-based "disaster risk assessor" Center for Disaster Management and Risk Reduction Technology at the Karlsruhe Institute of Technology, which said the storm so far has "caused around \$10 billion in damages as it leveled homes and destroyed infrastructure in places like Saint Martin, the US Virgin Islands and Antigua and Barbuda." In an interview, James Daniell, a senior risk analyst at the center, said, "This is the worst ever in terms of damages. ... We're at \$10.4 billion now and we're probably going to be at \$13 billion by the time it's finished with the Caribbean."

However, the New York Times (9/7, Robles, Semple, Yee) reports "not all the news was awful." The Times states that "despite the loss of power to most of the island, damage and loss of life on Puerto Rico was far less than feared." The Times adds that "Haiti and the Dominican Republic, which share the island of Hispaniola, were also spared direct hits."

Floridians Race Against Time To Leave State As Irma Approaches.

The Wall Street Journal (9/8, Kamp, Campo-Flores) reports Florida residents are racing to leave the state ahead of the arrival of Hurricane Irma as mandatory evacuations go into affect in numerous cities. According to the New York Times (9/8, Chokshi), "airline and airport workers raced to get flights off the ground as Hurricane Irma swirled toward Florida on Friday, filling the skies above the state with planes." The Federal Aviation Administration "said that its air traffic control center in Miami, which handles high-altitude flights over the southern half of Florida and the Caribbean, had managed 8,107 flights on Thursday, about 2,000 more than on the Thursday before. The agency said that it expected "increased volume" at airports in South Florida on Friday, too."

In an article headlined "In Florida, Anyone With A Plane Is Flying Away From Irma," Bloomberg News (9/8, Schlangenstein, Bachman, Levin) reports "at least 500 aircraft scheduled for flights into or out of the state will flee Friday and Saturday depending on the storm's direction, according to aviation consultant Mead & Hunt." In addition, Sam Engel, head of the aviation practice at consultant ICF, said that "as many as 210 planes that normally stay overnight in Florida would be among those shuttled out."

However, the Miami Herald (9/8, Herrera) reports crew shortages at American Airlines "has led the airline to cancel several flights last-minute – after passengers had already checked their baggage" while "personnel shortages at the airport – plus the thousands of bags now left without owners – have made it nearly impossible for the airline to reunite passengers with their luggage until after Irma has passed, the airline says." The Herald asserts that "there is such mayhem at that

airport and there are thousands of bags to sift through, there are just not enough people to sift through all the bags for the stranded passengers.”

Irma May Cut Off Power For More Than Nine Million Floridians.

Reuters (9/8, DiSavino) reports that Florida Power & Light CEO Eric Silagy said during a Friday news conference that Hurricane Irma threatens to knock out power to more than 4.1 million homes and businesses served by FPL, “affecting around nine million people based on the current storm track.” Outages across the state will “likely” surpass 4.1 million customers “since other utilities, including units of Duke Energy Corp, Southern Co and Emera Inc, will also suffer outages but have not yet estimated how many.”

Bloomberg News (9/8, Polson) reports that Hurricane Irma will test Florida Power & Light’s recent \$3 billion-worth of power-grid upgrades, which have included replacing wooden poles with concrete ones, installing flood monitors “to protect low-lying substations,” and distributing smart meters “to help track power outages.” FPL chief executive Eric Silagy also said Friday that restoring power “will take weeks should the company need to rebuild its power system, not merely repair it.”

NRC Sends Additional Inspectors To Florida's Nuclear Plants.

Reuters (9/8) reports the Nuclear Regulatory Commission said in a statement Friday it has sent additional inspectors to Florida's Turkey Point and St. Lucie nuclear plants in order to verify all hurricane preparations have been completed and that the plant's emergency diesel generators "are available to be used if the storm affects off-site power supplies." The inspectors will remain at the plants, which were expected to close Friday evening and Saturday morning, "until the agency is assured that the storm no longer poses a risk to these facilities."

Remembering Hurricane Matthew, North Carolina Watches With Concern.

The New York Times (9/8, Bidgood) reports on many North Carolina residents' concerns about the impact of Hurricane Irma – recalling the devastation left by the flooding from Hurricane Matthew last October that killed 31 people, displaced thousands more, and caused some \$4.8 billion in damage.

DACA Recipients Rush To Complete Renewal Applications Amid Hurricane Aftermath, Preparations.

The AP (9/8, Merchant) reports on Deferred Action for Childhood Arrivals recipients – 124,000 of whom live in Texas and more than 30,000 of whom live in Florida – who are working quickly to complete the necessary paperwork amid hurricane aftermath and preparations and the Administration’s announcement Tuesday that current participants whose permits are set to expire in the next six months may renew their status if they submit applications by October 5.

NYTimes Analysis Examines Cruz’s Changing Focus Amid Harvey Aftermath.

In an analysis, the New York Times (9/8, Flegenheimer) observes that as Sen. Ted Cruz is advocating for billions in federal aid for hurricane relief in Texas in the aftermath of Hurricane Harvey, he is shifting a political approach that during his Senate career has “often focused on cutting spending and building a national following as an avatar of unbending dogma.” The Times highlights Cruz’s opposition to a 2012 aid package for Hurricane Sandy relief and subsequent observations by colleagues and others who say Cruz in recent months has emerged as “an unlikely consensus builder among hard-right and moderate Republicans.”

46 Sites Released Hazardous Pollutants Because Of Harvey.

The New York Times (9/8, Griggs, Lehen, Popovich, Singhvi, Tabuchi) reports that in the days after Hurricane Harvey, from August 23 to August 30, 46 facilities in 13 Texas counties reported an estimated 4.6 million pounds of airborne hazardous pollutants “that exceeded state limits,” according to an analysis by the Environmental Defense Fund, Air Alliance Houston, and Public Citizen. Although federal and state regulators “say their air monitoring shows no cause for alarm,” the additional pollution “is just the latest concern” for a state that has seen at least 14 toxic waste sites flooded and “nearly 100 spills of hazardous substances.”

The AP (9/8, Bajak, Minkoff) reports on Houston metro area residents facing a “pollution spike” in the aftermath of Harvey, with people in affected areas who complained during and after the hurricane’s impact of “headaches, nausea, itchy skin and throats – classic symptoms of industrial chemical exposure – as plants and refineries raced to burn off compounds that could combust in extreme weather or power loss.”

Texas Energy Industry Recovering After Harvey.

The New York Times (9/8, Krauss) reports that two weeks after Hurricane Harvey’s landfall, “The port of Houston and the state’s other major ports are almost back to normal operations,” “oil and gas production in South Texas is quickly ramping up,” “eight of the 20 refineries that were totally or partly closed because of the storm are operating at normal levels,” and 11 of the 12 other refineries that were affected “are preparing to restart.”

Thousands Of Texas Students Forced To Relocate As Schools Address Damage.

Reuters (9/8, Ngai) reports that Texas officials said Friday that more than 55 public schools and charter districts remained closed and that “nearly 10 of the 55 districts that are closed will remain so until further notice.” Some Houston school buildings “will not reopen this year,” and students from nine schools that suffered damage are being relocated to temporary campuses. Altogether, “tens of thousands” of students must be relocated.

Some Houston Renters Facing Eviction.

In an analysis, the New York Times (9/8, Smith) reports on the fate of “countless” Houston-area renters whose landlords have voided their leases in the aftermath of the hurricane – state law permitting such if a unit is “totally unusable.” The Times highlights several cases of such eviction notices, the potential legal battles that may ensue, and efforts from some, such as The Metropolitan Organization, to appeal to Houston’s City Council to establish a grace period as the area recovers.

Hurricanes Jose And Katia Could Make Landfall This Weekend.

The Washington Post (9/7, Samenow, McNoldy) reports that Hurricanes Jose and Katia are forecast to strengthen and could impact land areas this weekend. While Hurricane Jose is expected to turn to the north out to sea "well before reaching the United States," it could pass "very close to the northern Leeward Islands as a major hurricane Saturday." Hurricane Katia "is forecast to track westward toward Mexico and make landfall as a hurricane on Friday night in the state of Veracruz."

The Wall Street Journal (9/8, Althaus, Whelan) reports that Jose was upgraded early Friday to a Category 4 hurricane with winds of 150 miles per hour. Irma was downgraded to Category 4, with similar wind speeds to Jose, according to the National Hurricane Center. Katia is a Category 2 with sustained winds of 100 miles an hour.

Lawmakers Urge Colleagues To Extend TPS For Caribbean Nationals Affected By Irma.

The Miami Herald (9/8, Daugherty) reports Reps. Ileana Ros-Lehtinen (R-FL), Eliot Engel (D-NY) and Barbara Lee (D-CA) are urging their colleagues in a letter circulating in Congress to support extending what's known as Temporary Protected Status to allow those in the US who are nationals of Caribbean countries affected by Hurricane Irma to stay. The countries would include the Dominican Republic and Antigua and Barbuda. On Monday, "they will send the letter to Trump."

Many Lake Okeechobee Residents Won't Evacuate.

The AP (9/8, Kay, Spencer) reports that many people "in the small, impoverished communities south of Lake Okeechobee" said Friday they would not evacuate the area – "saying they either had no transportation and nowhere to go, or they chose to accept whatever fate Hurricane Irma would inflict upon them."

Irma Forces Florida's Theme Parks To Close.

The Orlando (FL) Sentinel (9/8, Bevil) reports Hurricane Irma has forced the closure, starting Saturday evening, of Central Florida's amusement parks – including all four Disney theme parks, Universal's parks, SeaWorld's parks, Busch Gardens Tampa Bay and Adventure Island, and Legoland Florida, among others.

The AP (9/8, Koenig) reports that Florida resorts and hotels, which altogether account for 1.4 million jobs and attracted \$109 billion in tourism last year, "could suffer instant destruction from Irma's winds or lingering damage if vacationers stay away."

Trump Organization Closes Mar-a-Lago After Receiving Evacuation Order.

The Washington Post (9/8, Fahrenthold) reports Palm Beach County, Florida issued an evacuation order at 10 a.m. on Friday for President Trump's Mar-a-Lago resort "along with the rest of ritzy Palm Beach island, as Hurricane Irma's powerful winds and storm surge approached the Florida coast." According to the Post, the order "cover[s] low-lying areas along Lake Okeechobee, as well as a long swath of neighborhoods along the Intracoastal Waterway and the barrier islands off Florida's east coast."

In a statement, a spokesperson for the Trump Organization said, "Our teams at our four properties in Florida are taking all of the proper precautions and are following local and Florida State Advisories very closely to help ensure that everyone is kept safe and secure," Politico (9/8, McCaskill) reports. The statement added, "We strongly urge those guests currently holding reservations at Trump National Doral to make alternative lodging arrangements outside of the storm's reach." The statement continued. "We are no longer accepting any new reservations at this time and in the event that the city of Doral is included in any evacuation order, affected guests will be required to find alternate lodging outside of the evacuation zone or possibly relocate to an evacuation center. The hotel is waiving all cancellation penalties and change fees due to the storm and advising guests to visit the National Hurricane Center website at www.nhc.noaa.gov for the latest updates as well."

Meanwhile, Bloomberg News (9/8, Dopp) reports Trump's "Florida resort

he once dubbed 'The Winter White House,' readied Friday for Hurricane Irma" as "workers attached wooden storm shutters to the windows of the main club building and blocked the front gate with traffic cones." Although "Irma is likely to test President Donald Trump's longtime boast that his Mar-a-Lago mansion can withstand any storm," the AP (9/8, Spencer) asserts that "if history is any guide, the smart money this weekend will be on the house." The AP adds "four major hurricanes have done little damage to Mar-a-Lago in the 90 years since cereal heiress Marjorie Merriweather Post and her second husband, financier E.F. Hutton, built the 126-room, 62,500-square foot (5,800-square meter) mansion." The AP highlights that while "the 3-acre (1.2 hectare) Palm Beach estate is quite exposed to tropical weather, bisecting a narrow barrier island, flanked by the Intracoastal Waterway and the Atlantic Ocean," Mar-a-Lago's walls "are 3-feet (1 meter) thick, anchored by steel and concrete beams embedded into coral rock."

In addition, according to USA Today (9/8, Puente), one of Trump's "luxury abodes, a 'chateau' on the Caribbean island of St. Martin, has already been hit by Hurricane Irma." USA Today says "the current state of Trump's villa, located on Plum Beach in the plum Terres Basses enclave of luxury vacation villas, is as yet unknown," though "the American owners of another villa just above his, Villa Mille Fleurs, reported severe, but not catastrophic, damage to their house, in an email to USA TODAY."

Many Evacuees Having Difficulty Finding Hotel Rooms.

The Wall Street Journal (9/8, Kirkham, Campo-Flores) reports that people evacuating Florida's coast and other areas from the state's South

have found difficulty finding hotel rooms and other accommodations as thousands seek shelter, with hotels such as Quality Inn and Comfort Inn saying that hotels along evacuation routes are at full or nearly full occupancy levels.

The Miami Herald (9/8, Chang) reports on the “flood of evacuees” who had rapidly filled Miami-Dade shelters by Friday, “leaving some people standing outside unopened facilities and others told to go elsewhere.” Miami-Dade Mayor Carlos Gimenez “said the county has never before undertaken such a massive effort, racing to open the doors to at least 40 hurricane shelters for as many as 100,000 people.”

Many Hospitals, Nursing Homes Evacuated.

The Wall Street Journal (9/8, Evans) reports that according to data from Florida’s hurricane emergency operations center, 11 Florida hospitals had announced evacuations as of Thursday afternoon – a number expected to grow. About 140 assisting living centers, nursing homes, and other healthcare facilities also have announced evacuations.

Reuters (9/8, Steenhuysen, Mincer) reports some Miami hospitals “are offering shelter to their pregnant patients, bracing for the increase in births that often accompanies these large storms,” with at least three Miami hospitals offering care for women with advanced or high-risk pregnancies.

Miami's Homeless Ordered To Shelters.

The AP (9/8, Licon) reports that social workers and police officers in Miami have ordered the city's estimated 1,100 to storm shelters, with the warning of being held against their will for a mental health evaluation should they not comply. City officials have invoked the "Baker Act" – "a law that enables authorities to institutionalize patients who present a danger to themselves or others."

NYTimes Analysis: Many Elderly Bearing Brunt Of Storm.

In an analysis, the New York Times (9/8, Santora, Fountain) reports many elderly people are facing the brunt of Hurricane Irma, with roughly a half-million residents over the age of 75 in Miami-Dade, Broward and Palm Beach counties and with one in five Floridians over the age of 65, "a percentage greater than any other state."

Immigrant teen has abortion in Texas, overcoming Trump administration's objection

- An immigrant teen held in federal custody in Texas on Wednesday had the abortion she had been seeking for a month, overcoming the Trump administration's objection. Susan Hays, legal director for the Texas group Jane's Due Process, confirmed to The Associated Press that the teen had the procedure. The full U.S. Court of Appeals for the District of Columbia Circuit had cleared the way Tuesday for the procedure to take place. Wednesday's news came exactly a month after the teen obtained a state court order permitting her to have an abortion.

Undocumented teenager obtains abortion after court victory

A pregnant undocumented teenager in federal custody whose attempt to have an abortion set off a monthlong legal battle with the Trump administration terminated her pregnancy on Wednesday morning. She underwent the procedure a day after a court ruling forced federal officials to allow it.

New York Times, NY
Oct. 25, 2017

Undocumented teen finally gets abortion after month-long fight with Trump administration

- The undocumented minor who's been fighting for her constitutional right to an abortion finally underwent the procedure on Wednesday morning after the government tried to stop her for more than a month. This comes after an appeals court ordered the Trump administration yesterday to allow the

teen, who's been referred to as Jane Doe and is being held in a federal refugee shelter in Texas, to get the procedure.

Subject: request for comment, from The New Yorker Magazine (on deadline)

Dear Kenneth,

I am planning to publish an article about O.R.R. and the relatively recent shift in its policies with regard to the provision of abortions requested by minors in the office's care and custody.

A lot of what I include in the piece comes from the emails and documents revealed in the discovery process for the case involving Jane Doe, which we emailed about earlier.

But there is additional information about one person who appears in the story. Her name is Maggie Wynne, and she works at H.H.S.

I'd like to get your office's comment on the following details. If it's possible to speak with Ms. Wynne, I would welcome the opportunity. But in any case, I wanted to give you and your office a chance to respond to some of the facts I plan to publish in the article. I include them below.

My deadline is tomorrow afternoon.

Best,
Jon

-Maggie Wynn has worked at H.H.S. for more than a decade, under the Bush and Obama Administrations, in a range of different positions.

-One of those positions was the director of its anti-trafficking program.

- She once worked at the Knights of Columbus.
- Wynne helped lead the transition team at H.H.S. in the late fall of 2016.
- She was close to Tom Price.
- According to flight manifests, she was also some of the private chartered planes that Price took while head of HHS.
- During the presidential transition, appointees from the previous administration—which included all of the heads of H.H.S. offices—weren't invited to meetings.
- Only the career bureaucrats were invited, which many former members of the office described as unusual.
- Former colleagues of Ms. Wynne described her as strongly pro-life.
- As the director of the trafficking program at O.R.R., she oversaw a team of social workers who assessed the eligibility of victims to get temporary health benefits while their legal cases were being adjudicated.
- According to former colleagues, she often did not trust the stories of these individuals when they were represented by lawyers because she thought lawyers were coaching them on how to get the benefits.
- According to former colleagues, any time an individual's story changed, Wynne assumed she was lying.
- According to former colleagues, Wynne frequently looked for contradictions in the accounts of victims requesting benefits.
- When Wynne's office rejected a victim's request, an appeal generally followed, which caused a large backlog of cases that O.R.R. leadership had to clear.
- In 2011, the Obama Administration created new criteria for O.R.R. grants: if an aid organization refused to offer complete medical care to the minors in its custody at a shelter, it would receive a lower score on its grant application to obtain funds from O.R.R.
- A confidential government document outlining the new grant criteria was shared with Republican Congressman Darrel Issa.
- Several H.H.S. staffers claim that Wynne was responsible for sharing that memo with Issa.

- Wynne left H.H.S. in 2016 when she was passed over for a promotion.
- She rejoined the agency in January, 2017.
- In the early months of the new year, staffers at O.R.R. reported to her.
- In March, a memo circulated at O.R.R. with the subject line "custodial decisions to preserve the health of a pregnant UAC."
- Subsequent emails circulating at ORR indicated that shelters "should not conduct procedures, or take any steps that facilitate future procedures such as scheduling appointments, transportation, or other arrangements."
- One former HHS official with knowledge of the office maintains that Wynne was responsible for these policies.
- Scott Lloyd assumed the role of director of the office later that month.

Subject: Unaccompanied alien children program

Hello, Jonathan. I received a message that you are looking for comment on yesterday's decision.

The following is attributable to the Administration for Children and Families at the U.S. Department of Health and Human Services:

“The United States District Court made a troubling ruling that exceeds the U.S. Constitution and sets a dangerous precedent by opening our borders to any illegal children seeking taxpayer-supported, elective abortions. We are disheartened the ruling rewards ideologically motivated lawsuits filed in multiple courts by the ACLU and abortion advocates.

“Though the order overrides the policies and procedures of the Office of Refugee Resettlement designed to protect children and their babies who have illegally crossed the border, we will continue to provide them with excellent health care and protect their well-being in all our facilities. We will consider our next steps to ensure our country does not become an open sanctuary for taxpayer-supported abortions by minors crossing the border illegally.”

Kenneth J. Wolfe
Deputy director, Office of Communications
Administration for Children and Families
U.S. Department of Health and Human Services
Washington, D.C.

Subject: Re: Timely request for comment from Scott Lloyd

Thanks for your response Kenneth! I will include that statement, but it is not really relevant to the article I'm writing or the specific questions I asked. Is there a chance of getting any answers today, on background if necessary, to these two questions:

Was Lloyd involved in the interpretation of ORR's policy on allowing undocumented minors to obtain abortions, reinterpreted in a March 4, 2017 memo emailed to employees of HHS and ORR and saying that the director of ORR has to give "direction and approval" in order for minors to get abortions?

Why did Lloyd have an official HHS.gov email on March 4, even though he was not yet appointed?

Thanks!

Subject: Timely request for comment from Scott Lloyd

Hello,

I am writing an article on ORR director Scott Lloyd's involvement in the Garza v. Hargan case, and I had some questions about his past work. We are hoping to publish the article by the end of the day, so the sooner you could return these questions the better.

Was Lloyd involved in the interpretation of ORR's policy on allowing undocumented minors to obtain abortions, reinterpreted in a March 4, 2017 memo emailed to employees of HHS and ORR and saying that the director of ORR has to give "direction and approval" in order for minors to get abortions?

Why did Lloyd have an HHS.gov email on March 4, even though he was not yet appointed?

Does HHS or Lloyd have a response to claims from the ACLU that Lloyd flew to Texas in order to personally meet with an undocumented minor and persuade her not to have an abortion?

And lastly, does Lloyd or HHS have any comment about past articles Lloyd wrote for Ethika Politika and the National Catholic Register saying that women should have to sign a pledge not to have an abortion in order to receive government-funded contraception, and that state

legislators should pass laws requiring that a woman must gain consent from the man who impregnated her in order to get an abortion?

Please let me know what you think the timeline for responding to these requests are.

Thank you,

Ema O'Connor

Dear Mr. Lloyd,

I hope all is well. I wanted to touch base again to see if you would have time for a phone interview about the broader policy around abortion for unaccompanied minors in ORR's care. I realize the immediate Jane Doe case has been resolved, but would like to talk with you about broader policy here.

Thanks,

Renu

All,

Please be advised that I was just informed by program Medical Coordinator that UAC is out of procedure and has been released. Program staff and UAC are in route to care provider facility. Care provider staff were informed by health care center staff that procedure was complete by 7:00 a.m. this morning with no complications and that UAC was under observation from 7-10 a.m. at which time she was released into our care. Medical Coordinator was provided with blank consent forms, they are not copies of consent

forms UAC signed or acknowledged as the forms are blank, we will scan and provide copy of forms issued to us once staff arrive at facility. Care provider staff were also informed there is follow-up appointment, unless concerns arise then follow-up at health

center may be scheduled as needed. Care provider Medical Coordinator will review information provided in consent form and proceed with post-op care based on the recommendations issued on literature provided. UAC will be monitored closely and any issues or

concerns will be immediately addressed and elevated as needed to appropriate ORR officials. Primary Care Physician is also available to respond to any medical concerns UAC may encounter during the remainder of her placement as standard procedure dictates, unless we are otherwise directed.

Please advise as to whether care provider should proceed with submitting Significant Incident Report (SIR) regarding today's appointment and procedure. In addition, attorneys advised they would be visiting with UAC later in the day, no specific time for visit was provided.

Thank you,

(b)(6)

Subject: Fw: Appellate Decision & Appointments for (b)(6)

Good Evening,

Please see email below from attorneys, we have made all necessary arrangements to ensure minor is present at location at the newly requested time. Please note at this time care provider has not received confirmation of what service will take place tomorrow, we were under the impression UAC was going in for mandated counseling, however, provided newly requested time was issued at the request of health center and attending physician, it is unclear whether UAC will partake in mandated counseling or undergo medical procedure. Care provider Medical Coordinator and Child Care Worker will accompany UAC, it is my understanding that care provider staff will not be allowed to accompany UAC during any portion of tomorrow appointment and information provided to staff will be limited, we will be sure to update ORR with any information provided, thank you.

I apologize, I failed to provide consent forms shared with care provider, please see attached. Please note, these are only general copies of forms, the forms UAC signed/acknowledged were not provided to care provider. We are using the information provided on these forms to provide for UACs post-op care. In addition, care provider did not receive any record/documentation of today's appointment/procedure.

Subject: Re: Appellate Decision &Appointments for (b)(6)

All,

Please be advised that I was just informed by program Medical Coordinator that UAC is out of procedure and has been released. Program staff and UAC are in route to care provider facility. Care provider staff were informed by health care center staff that procedure was complete by 7:00 a.m. this morning with no complications and that UAC was under observation from 7-10 a.m. at which time she was released into our care. Medical Coordinator was provided with blank consent forms, they are not copies of consent

forms UAC signed or acknowledged as the forms are blank, we will scan and provide copy of forms issued to us once staff arrive at facility. Care provider staff were also informed there is follow-up appointment, unless concerns arise then follow-up at health

center may be scheduled as needed. Care provider Medical Coordinator will review information provided in consent form and proceed with post-op care based on the recommendations issued on literature provided. UAC will be monitored closely and any issues or

concerns will be immediately addressed and elevated as needed to appropriate ORR officials. Primary Care Physician is also available to respond to any medical concerns UAC may encounter during the remainder of her placement as standard procedure dictates, unless we are otherwise directed.

Please advise as to whether care provider should proceed with submitting Significant Incident Report (SIR) regarding today's appointment and procedure. In addition, attorneys advised they would be visiting with UAC later in the day, no specific time for visit was provided.

Thank you,

(b)(6)

Subject: Fw: Appellate Decision & Appointments for (b)(6)

Good Evening,

Please see email below from attorneys, we have made all necessary arrangements to ensure minor is present at location at the newly requested time. Please note at this time care provider has not received confirmation of what service will take place tomorrow, we were under the impression UAC was going in for mandated counseling, however, provided newly requested time was issued at the request of health center and attending physician, it is unclear whether UAC will partake in mandated counseling or undergo medical procedure. Care provider Medical Coordinator and Child Care Worker will accompany UAC, it is my understanding that care provider staff will not be allowed to accompany UAC during any portion of tomorrow appointment and information provided to staff will be limited, we will be sure to update ORR with any information provided, thank you.

Good Afternoon,

Please be advised that program staff and UAC have arrived at facility. I have been informed by Medical Coordinator that UAC has not reported any health related concerns and has only requested she be allowed to rest, we have made all necessary arrangements

to provide post-op care to UAC and she has been offered to spend the day in a dorm to herself if she so wishes. UAC will be closely monitored and staff assigned to her care and supervision have been issued very specific directives regarding her care. It is my understanding that TRO remains in place therefore care provider will continue to plan for provision of services and minor's care taking into account strict rules set forth by court order (TRO). It is also my understanding that (b)(6) and Rochelle Garza are to remain UACs attorney and Guardian Ad Litem, therefore care provider will continue to ensure to respond accordingly to attorneys request for visitation and contact with UAC, for example, last night attorney (b)(6) contacted me at approximately

10:00 p.m. and stated she needed UAC to contact her via mobile telephone therefore, I instructed staff to wake UAC in order to comply with attorney's request for UAC to contact her directly on attorney's mobile phone. Staff awoke UAC to relay message and UAC proceeded to make phone call to her attorneys from her designated dorm last night then returned to bed without issues. Care provider is not privy to information relayed to minor by her attorneys during late night phone call but we want to ensure ORR is

fully aware of all requests made by attorney. Care provider will ensure ORR is continuously updated with regards to communications, requests or inquiries from UACs attorneys.

I have a couple questions with regard to attorneys continued role and TRO :

Please be advised I have been informed by care provider Medical Coordinator that health center charge nurse has confirmed that minor is scheduled to undergo medical procedure this morning. In addition nurse explained to Medical Coordinator the following:

"cervix will be dilated with Cytotec and it will be a D&E". No further information available at this time.

If I receive any additional information I will be sure to continue to provide updates.

Thank you

Good Evening,

Please see email below from attorneys, we have made all necessary arrangements to ensure minor is present at location at the newly requested time. Please note at this time care provider has not received confirmation of what service will take place tomorrow, we were under the impression UAC was going in for mandated counseling, however, provided newly requested time was issued at the request of health center and attending physician, it is unclear whether UAC will partake in mandated counseling or undergo medical

procedure. Care provider Medical Coordinator and Child Care Worker will accompany UAC, it is my understanding that care provider staff will not be allowed to accompany UAC during any portion of tomorrow appointment and information provided to staff will be

limited, we will be sure to update ORR with any information provided, thank you.

(b)(6) <crivera@iestex.org>

Good Afternoon,

Please be advised that program staff and UAC have arrived at facility. I have been informed by Medical Coordinator that UAC has not reported any health related concerns and has only requested she be allowed to rest, we have made all necessary arrangements to provide post-op care to UAC and she has been offered to spend the day in a dorm to herself if she so wishes. UAC will be closely monitored and staff assigned to her care and supervision have been issued very specific directives regarding her care. It is my understanding that TRO remains in place therefore care provider will continue to plan for provision of services and minor's care taking into account strict rules set forth by court order (TRO). It is also my understanding that (b)(6) and (b)(6) are to remain UACs attorney and Guardian Ad Litem, therefore care provider will continue to ensure to respond accordingly to attorneys request for visitation and contact with UAC, for example, last night attorney (b)(6) contacted me at approximately 10:00 p.m. and stated she needed UAC to contact her via mobile telephone therefore, I instructed staff to wake UAC in order to comply with attorney's request for UAC to contact her directly on attorney's mobile phone. Staff awoke UAC to relay message and UAC proceeded to make phone call to her attorneys from her designated dorm last night then returned to bed without issues. Care provider is not privy to information relayed to minor by her attorneys during late night phone call but we want to ensure ORR is fully aware of all requests made by attorney. Care provider will ensure ORR is continuously updated with regards to communications, requests or inquiries from UACs attorneys.

I have a couple questions with regard to attorneys continued role and TRO :

- Are UACs attorneys allowed access to UACs case file on demand?

Not a requirement of the TRO.

Is care provider required to provide copies of information in minor's case file to attorneys at their request?

Not a requirement of the TRO.

Or must they submit formal request to ORR if they wish to obtain any case file documentation or request to review case file on premises?

ORR should probably follow its normal protocol in regard to attorneys'/guardians' requests for files and information.

- Should care provider identify a need seek medical attention for UAC for any reason or specifically if UAC complains of pain or discomfort following today's medical procedure are we required to notify attorney's of planned medical follow-up?

Medical treatment outside the abortion itself, or the pre-abortion counseling, is not addressed by the TRO.

If so are we required to provide immediate notification to attorneys?

Not a requirement of the TRO.

If so, what method of communication should care provider employ?

- In case emergency medical situation arises care provider must respond immediately, are we allowed to provide attending medical providers a complete medical history including that UAC underwent selective medical procedure to terminate pregnancy?

Technically the TRO says not to reveal her abortion decision to anyone. But OGC does not think we should interpret this to mean it can't be revealed to attending medical providers as needed in an emergency. Note also that the TRO expires on November 8.

Is care provider required or allowed update primary care physician Dr. (b)(6) and OBGYN Dr. (b)(6) that UAC terminated pregnancy, purpose is to ensure PCP has full medical history and OBGYN may provide records and be made aware UAC will not be returning to his care of standard prenatal care?

Best to do this on November 8 or after unless there is an emergency reason to do so sooner.

- Is care provider required/permitted to contact attorneys directly to inform them of ANY medical issues that may arise with UAC for the remainder of her placement?

Not a requirement of the TRO.

If so, what method of communication must care provider employ?

- Moving forward, are attorneys allowed access to UAC at all hours, care provider has usually issued "cut-off" time of 8:00p.m. due to UAC's personal hygiene and bed time schedule. Care provider has allowed attorneys access to UAC on demand up to this point, is care provider to continue this level of immediate accessibility?

Not a requirement of the TRO. ORR may follow normal protocols.

- Is care provider to request medical records from Whole Women's Health Center, typically when UAC in care undergoes any sort of medical procedure (speciality medical care) care provider is able to obtain medical records from provider?

The TRO does not prohibit this.

- Is care provider allowed to obtain outside community mental health services for minor, as previously discussed, UAC has requested an outside counselor for general counseling services?

The TRO does not prohibit this.

If so, are we required to notify attorneys UAC is seeking these services and is care provider required to provide contact and appointment information for community mental health provider??

Not a requirement of the TRO.

Also typically MH providers inquire about minor's history, major traumatic events, medical history, psycho-social history are we able to provide this information without violating TRO?

Best if this is shared after November 8, or if the minor is asking for this counseling to begin before November 8, that the minor signs in writing that she authorizes disclosing it to those MH providers.

I realize that these are alot of questions, please bear with me, as I want to be sure we fully meet the needs of this UAC and are in compliance with TRO....I truly appreciate your patience and guidance, I will wait to hear back from you.

Subject: Re: Appellate Decision & Appointments for (b)(6)

All,

Please be advised that I was just informed by program Medical Coordinator that UAC is out of procedure and has been released. Program staff and UAC are in route to care provider facility. Care provider staff were informed by health care center staff that procedure was complete by 7:00 a.m. this morning with no complications and that UAC was under observation from 7-10 a.m. at which time she was released into our care. Medical Coordinator was provided with blank consent forms, they are not copies of consent forms UAC signed or acknowledged as the forms are blank, we will scan and provide copy of forms issued to us once staff arrive at facility. Care provider staff were also informed there is follow-up appointment, unless concerns arise then follow-up at health center may be scheduled as needed. Care provider Medical Coordinator will review information provided in consent form and proceed with post-op care

based on the recommendations issued on literature provided. UAC will be monitored closely and any issues or concerns will be immediately addressed and elevated as needed to appropriate ORR officials. Primary Care Physician is also available to respond to any medical concerns UAC may encounter during the remainder of her placement as standard procedure dictates, unless we are otherwise directed.

Please advise as to whether care provider should proceed with submitting Significant Incident Report (SIR) regarding today's appointment and procedure. In addition, attorneys advised they would be visiting with UAC later in the day, no specific time for visit was provided.

Thank you,

(b)(6)

Subject: requesting comment from The New Yorker Magazine (on deadline)

Dear Ms. Yoest,

I'm a reporter with The New Yorker Magazine, and I'd like get your comment on a story I'm doing, on deadline, about a senior official at HHS. Her name is Margaret Wynne, and my information comes from a number of her former colleagues. My story is about the recent positions taken by O.R.R. with regard to abortions.

Below are the details I plan to include in my piece. I welcome any comments, clarifications, or corrections you may have.

Thanks for your time.

Best,
Jonathan Blitzer

Jonathan Blitzer

-Margaret Wynne has worked at H.H.S. for more than a decade, under the Bush and Obama Administrations, in a range of different positions.

-One of those positions was the director of its anti-trafficking program.

-She is currently the Counselor for Human Services Policy at H.H.S.

-Ms. Wynne once worked at the Knights of Columbus.

-She helped lead the transition team at H.H.S. in the late fall of 2016.

-According to flight manifests, Ms. Wynne was on some of the private chartered planes that former Secretary Price took while head of HHS.

-During the presidential transition, appointees from the previous administration—which included all of the heads of H.H.S. offices—weren't invited to meetings.

-Only the career bureaucrats were invited, which many former members of the office described as unusual.

-Former colleagues described Ms. Wynne as strongly pro-life and ideological in the performance of her job at the agency.

-As the director of the trafficking program at O.R.R., Ms. Wynne oversaw a team of social workers who assessed the eligibility of victims to get temporary health benefits while their legal cases were being adjudicated.

-According to former colleagues, she often did not trust the stories of these individuals when they were represented by lawyers because she thought lawyers were coaching them on how to get the benefits.

- According to former colleagues, any time an individual's story changed, she assumed that person was lying.
- According to former colleagues, Ms. Wynne frequently looked for contradictions in the accounts of victims requesting benefits.
- When Ms. Wynne's office rejected a victim's request, an appeal generally followed, which caused a large backlog of cases that O.R.R. leadership had to clear.
- In 2011, the Obama Administration created new criteria for O.R.R. grants: if an aid organization refused to offer complete medical care to the minors in its custody at a shelter, it would receive a lower score on its grant application to obtain funds from O.R.R.
- A confidential government document outlining the new grant criteria was shared with Republican Congressman Darrel Issa.
- Several H.H.S. staffers claim that Ms. Wynne was responsible for sharing that memo with Issa.
- Ms. Wynne left H.H.S. in 2016 after repeated clashes with members of the Obama Administration.
- She rejoined the agency in January, 2017.
- In the early months of the new year, staffers at O.R.R. reported to her.
- In March, a memo circulated at O.R.R. with the subject line "custodial decisions to preserve the health of a pregnant UAC."
- Subsequent emails circulating at ORR indicated that shelters "should not conduct procedures, or take any steps that facilitate future procedures such as scheduling appointments, transportation, or other arrangements."
- One former HHS official with knowledge of the office maintains that Ms. Wynne was responsible for these policies before Scott Lloyd took over as director O.R.R.

Subject: RE: Appellate Decision & Appointments for (b)(6)

(b)(6)

Providing answers to your questions below, based on consultation with HHS OGC and the Director of ORR:

- •
Are UACs attorneys allowed access to UACs case file on demand?

Not a requirement of the TRO. As much as possible, remain consistent with usual practice for attorneys of record for UAC

currently in care. In circumstances where we would do this for the attorneys of record of other UAC in care, we should do it for the attorneys for this UAC.

Is care provider required to provide copies of information in minor's case file to attorneys at their request?

Not a requirement of the TRO. As much as possible, remain consistent with usual practice for attorneys of record for UAC

currently in care. In circumstances where we would do this for the attorneys of record of other UAC in care, we should do it for the attorneys for this UAC.

Or must they submit formal request to ORR if they wish to obtain any case file documentation or request to review case file on premises?

Follow normal protocol in regard to attorneys'/guardians' requests for files and information. If that's something you would

do for other attorneys of record of other UAC in care, please do that for this UAC's attorneys.

- •
Should care provider identify a need seek medical attention for UAC for any reason or specifically if UAC complains of pain or discomfort following today's medical procedure are we required to notify attorney's of planned medical follow-up?

Medical treatment outside the abortion itself, or the pre-abortion counseling, is not addressed by the TRO.

If so are we required to provide immediate notification to attorneys?

Not a requirement of the TRO.

If so, what method of communication should care provider employ?

- •
In case emergency medical situation arises care provider must respond immediately, are we allowed to provide attending medical providers a complete medical history including that UAC underwent selective medical procedure to terminate pregnancy?

Technically the TRO says not to reveal her abortion decision to anyone. But HHS OGC does not think we should interpret this to mean it can't be revealed to attending medical providers as needed in an emergency. Note also that the TRO expires on November 8.

Is care provider required or allowed update primary care physician Dr. (b)(6) and OBGYN Dr. (b)(6) that UAC terminated pregnancy, purpose is to ensure PCP has full medical history and OBGYN may provide records and be made aware UAC will not be returning to his care of standard prenatal care?

Best to do this on November 8 or after unless there is an emergency reason to do so sooner.

- •

Is care provider required/permitted to contact attorneys directly to inform them of ANY medical issues that may arise with UAC for the remainder of her placement?

Not a requirement of the TRO.

If so, what method of communication must care provider employ?

- •

Moving forward, are attorneys allowed access to UAC at all hours, care provider has usually issued "cut-off" time of 8:00p.m. due to UAC's personal hygiene and bed time schedule. Care provider has allowed attorneys access to UAC on demand up to this point, is care provider to continue this level of immediate accessibility?

Not a requirement of the TRO. Follow normal protocols as you would for other UAC in care.

- •

Is care provider to request medical records from Whole Women's Health Center, typically when UAC in care undergoes any sort of medical procedure (speciality medical care) care provider is able to obtain medical records from provider?

The TRO does not prohibit this. The health and safety of the child, based on medical advice, should inform all decision making.

- •

Is care provider allowed to obtain outside community mental health services for minor, as previously discussed, UAC has requested an outside counselor for general counseling services?

The TRO does not prohibit this. Since this is consistent with her psychosocial needs, you should facilitate those services.

If so, are we required to notify attorneys UAC is seeking these services and is care provider required to provide contact and appointment information for community mental health provider??

Not a requirement of the TRO.

Also typically MH providers inquire about minor's history, major traumatic events, medical history, psycho-social history are we able to provide this information without violating TRO?

Best if this is shared after November 8, or if the minor is asking for this counseling to begin before November 8, that the minor signs in writing that she authorizes disclosing it to those MH providers.

Please advise if you need anything else.

Thanks,

Jonathan

Cc: Brooks, Teresa (ACF); De LA Cruz, James (ACF); (b)(6) (b)(6) (b)(6)

Subject: Re: Appellate Decision & Appointments for (b)(6)

Good Afternoon,

Please be advised that program staff and UAC have arrived at facility. I have been informed by Medical Coordinator that UAC has not reported any health related concerns and has only requested she

be allowed to rest, we have made all necessary arrangements to provide post-op care to UAC and she has been offered to spend the day in a dorm to herself if she so wishes. UAC will be closely monitored and staff assigned to her care and supervision have been issued very specific directives regarding her care. It is my understanding that TRO remains in place therefore care provider will continue to plan for provision of services and minor's care taking into account strict rules set forth by court order (TRO). It is also my understanding that (b)(6) and Rochelle Garza are to remain UACs attorney and Guardian Ad Litem, therefore care provider will continue to ensure to respond accordingly to attorneys request for visitation and contact with UAC, for example, last night attorney (b)(6) contacted me at approximately 10:00 p.m. and stated she needed UAC to contact her via mobile telephone therefore, I instructed staff to wake UAC in order to comply with attorney's request for UAC to contact her directly on attorney's mobile phone. Staff awoke UAC to relay message and UAC proceeded to make phone call to her attorneys from her designated dorm last night then returned to bed without issues. Care provider is not privy to information relayed to minor by her attorneys during late night phone call but we want to ensure ORR is fully aware of all requests made by attorney. Care provider will ensure ORR is continuously updated with regards to communications, requests or inquiries from UACs attorneys.

I have a couple questions with regard to attorneys continued role and TRO :

• •

Are UACs attorneys allowed access to UACs case file on demand? Is care provider required to provide copies of information in minor's case file to attorneys at their request? Or must they submit formal request to ORR if they wish to obtain any case file documentation or request to review case file on premises?

- •
Should care provider identify a need seek medical attention for UAC for any reason or specifically if UAC complains of pain or discomfort following today's medical procedure are we required to notify attorney's of planned medical follow-up? If so are we required to provide immediate notification to attorneys? If so, what method of communication should care provider employ?
- •
In case emergency medical situation arises care provider must respond immediately, are we allowed to provide attending medical providers a complete medical history including that UAC underwent selective medical procedure to terminate pregnancy? Is care provider required or allowed update primary care physician Dr. (b)(6) and OBGYN Dr. (b)(6) that UAC terminated pregnancy, purpose is to ensure PCP has full medical history and OBGYN may provide records and be made aware UAC will not be returning to his care of standard prenatal care?
- •
Is care provider required/permitted to contact attorneys directly to inform them of ANY medical issues that may arise with UAC for the remainder of her placement? If so, what method of communication must care provider employ?
- •
Moving forward, are attorneys allowed access to UAC at all hours, care provider has usually issued "cut-off" time of 8:00p.m. due to UAC's personal hygiene and bed time schedule. Care provider has allowed attorneys access to UAC on demand up to this point, is care provider to continue this level of immediate accessibility?

- •
Is care provider to request medical records from Whole Women's Health Center, typically when UAC in care undergoes any sort of medical procedure (speciality medical care) care provider is able to obtain medical records from provider?

- •
Is care provider allowed to obtain outside community mental health services for minor, as previously discussed, UAC has requested an outside counselor for general counseling services? If so, are we required to notify attorneys UAC is seeking these services and is care provider required to provide contact and appointment information for community mental health provider?? Also typically MH providers inquire about minor's history, major traumatic events, medical history, psycho-social history are we able to provide this information without violating TRO?

I realize that these are alot of questions, please bear with me, as I want to be sure we fully meet the needs of this UAC and are in compliance with TRO....I truly appreciate your patience and guidance, I will wait to hear back from you.

Subject: Re: Appellate Decision & Appointments for (b)(6)

All,

Please be advised that I was just informed by program Medical Coordinator that UAC is out of procedure and has been released. Program staff and UAC are in route to care provider facility. Care provider staff were informed by health care center staff that procedure was complete by 7:00 a.m. this morning with no complications and that UAC was under observation from 7-10 a.m. at which time she was released into our care. Medical Coordinator was provided with blank consent forms, they are not copies of consent forms UAC signed or acknowledged as the forms are blank, we will scan and provide copy of forms issued to us once staff arrive at facility. Care provider staff were also informed there is follow-up appointment, unless concerns arise then follow-up at health center may be scheduled as needed. Care provider Medical Coordinator will review information provided in consent form and proceed with post-op care based on the recommendations issued on literature provided. UAC will be monitored closely and any issues or concerns will be immediately addressed and elevated as needed to appropriate ORR officials. Primary Care Physician is also available to respond to any medical concerns UAC may encounter during the remainder of her placement as standard procedure dictates, unless we are otherwise directed.

Please advise as to whether care provider should proceed with submitting Significant Incident Report (SIR) regarding today's appointment and procedure. In addition, attorneys advised they would be visiting with UAC later in the day, no specific time for visit was provided.

Thank you,

Subject: Fw: Appellate Decision & Appointments for (b)(6)

Good Evening,

Please see email below from attorneys, we have made all necessary arrangements to ensure minor is present at location at the newly requested time. Please note at this time care provider has not received confirmation of what service will take place tomorrow,

we were under the impression UAC was going in for mandated counseling, however, provided newly requested time was issued at the request of health center and attending physician, it is unclear whether UAC will partake in mandated counseling or undergo medical procedure. Care provider Medical Coordinator and Child Care Worker will accompany UAC, it is my understanding that care provider staff will not be allowed to accompany UAC during any portion of tomorrow appointment and information provided to staff will be limited, we will be sure to update ORR with any information provided, thank you.

(b)(6)

Just a brief update regarding the email below.

Please approach UAC and ask for her consent to inform her parents of the pregnancy today, and give her the option to do so herself if she would like. Let her know that the program would like to inform them because these discussions between parents and children are often fruitful and lead to greater understanding.

If you receive permission, please proceed with parental notification today. If not, please ask if she could articulate reasons that she does not the parents to know, and share this information with us.

Thank you,

Scott

Subject: RE: Inquiry Regarding Request for Heightened Medical Service FW: Report of Significant Incident Addendum Event#110705

Dear (b)(6)

Thank you for the message.

Please direct the program to take the following steps:

- 1)
Confirm pregnancy with OB/GYN according to standard operating procedure.
- 2)
If further tests confirm pregnancy, the parents must be notified of the pregnancy. Either UAC or the program should notify parents, according to the UAC's preference.
- 3)
Please report back when the program has completed these steps.

Thank you,

Scott

Subject: [WARNING : MESSAGE ENCRYPTED] Inquiry Regarding Request for Heightened Medical Service FW: Report of Significant Incident Addendum Event#110705

Importance: High

Good Afternoon,

Please be advised, IES LF Shelter has a new arrival 17-year-old female UAC (b)(6) XXX-XXX (b)(6) from Guatemala in care (DOE 10/19/17) whom today (10/23/17) advised assigned Clinician that she wished “to take a pill to get rid of baby” directly implying to the Clinician that UAC does not wish to proceed with pregnancy. According to what UAC shared with assigned Clinician, the UAC explained her thoughts stating “she is too young, she does not have the resources to care for a child, she is afraid her family will be angry and that she and her family cannot deal with something like this at this time”. Please note UAC’s initial medical screening was completed on Friday, October 20th, 2017, an HCG test indicated UAC is pregnant. The pregnancy has yet to be confirmed by obstetrician, initial OB/GYN appointment is scheduled for 10/27/17 at 2:30 p.m. Please note, the primary care physician is not aware of minor’s thoughts on this matter and has issued a referral to OB/GYN for standard prenatal care. According to UAC, she was not aware she was pregnant when she departed from home country and she does not wish to disclose pregnancy with her family or sponsor. Minor reported she was raised by her mother in Guatemala and is not familiar with her biological father.

Based on limited available information, the minor is less than 4 weeks pregnant, she traveled from Guatemala with her adult sister and her sister’s child. Upon apprehension, UAC was separated from her adult sister and her adult sister remains in DHS custody. The UAC’s point of contact is her brother-in-law, (b)(6) whom currently resides in Idaho. The UACs plan was to travel to Idaho alongside her adult sister and to unite with her sister’s husband, (b)(6) whom currently resides in (b)(6). At this time care provider has not received documentation from potential sponsor (brother-in-law) to formally prove relationship with UAC. However, assigned Case Manager has made contact

with UAC's brother-in-law, the FRA has been forwarded and he has verbally agreed to the terms and conditions of sponsoring UAC. Mr. (b)(6) (minor's brother-in-law) has agreed to comply with all reunification requirements and provide all necessary documentation to move forward with reunification process. Care provider will ensure to provide sponsor with the support needed to facilitate the reunification process, at this time the UAC denies any history of abuse, neglect or mistreatment. There are no indicators or concerns of a history of trauma. At time, UAC has not attended Know Your Rights Presentation and is pending initial legal screening, these services are scheduled to take place tomorrow, October 24, 2017.

Care provider has not reached out to any community medical providers regarding minor's inquiry, no follow up appointments and/or information regarding the subject matter of minor's inquiry has been nor will be issued to UAC unless authorization is granted by ORR. This information will be elevated to designated ORR FFS and a Significant Incident Addendum (Event# 110705) has been submitted with regards to UAC's inquiry. Please advise on how to proceed should UAC continue to request information regarding this very specific heightened medical service, thank you, we will wait for further guidance.

Please note, due to the sensitive nature of this information, it is my intention to ensue ORR officials are made aware of this emerging matter promptly. Please let me know if there are any questions or concerns regarding the information provided, I will gladly be of assistance.

*Password to follow, thank you.

(b)(6)

Thank you.

She does not have to be the person to speak with her parents, but her parents have to know that she is pregnant. If she wants the abortion, we need her parents' consent.

Understood on number two.

The VD process is about as unfamiliar as it can be for me—can't offer any help there, just support.

Thank you,
Scott

Subject: RE: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6))
(b)(6)

Scott,

Understood.

- (1) Will have this communicated to program. Latest information I have is that the UAC is strongly opposed to parental notification, which may be the driver of present interest from others. Will see what I can do.
- (2) I am informed that the earliest available appointment at the counseling was for 10AM Monday, and that appointment is in place. (It is a 2.5-hour drive per the program to the nearest counseling site, so transportation arrangements have been made).
- (3) Do you have a lead on what we can do with the expedited VD process? That may be something that others can advise on; I am not aware of a mechanism for that (or we would do it often). My understanding is that this is in EOIR's hands since court involvement is required. The ProBar attorney, I understand, is working on that.

Jonathan,

A few things to add, please:

- 1) Parental notification of the pregnancy, and request for consent to termination if still desired, should happen without delay—as soon as operationally possible.
- 2) Same with options counseling—if there is a Saturday appointment available, program should attend that.
- 3) We should see what we can do about speeding up her VD process. We'll support an expedited effort whatever she decides.

Thank you,
 Scott

Good Afternoon,

Thank you for your email. Please let ORR know when an appointment has been made for the options counseling. Please ensure that the child receives all emotional / psychological support that she might need to work through her thoughts and emotions during what is certainly a difficult time.

I have spoken to leadership. To clarify, the program is not authorized to take her to receive termination services, or to any appointments that would prepare her for a termination, without consent from the Director. ORR Director consent cannot happen without written and notarized consent of her parents. Program should proceed with life-affirming options counseling and notification to the parents of the pregnancy and the request for termination, if still desired.

If you have any further questions, please feel free to contact ORR.

 (b)(6)

Good Afternoon Dr. Bartholomew, thank you for your prompt guidance.

We will proceed as directed and ensure to keep ORR up-to-date. Please note, at this time UAC continues to voice she does not wish to disclose pregnancy to her parents whom reside in home country (GU). To our knowledge and according to UAC she has no "next of kin" residing in the U.S. Potential sponsor and minor's POC in U.S. was an unverified "aunt" who declined to sponsor, there has been no further contact between care provider and this individual. Assigned Clinician will continue working closely with UAC with the hope that she will reconsider, at this point are there any other actions care provider must take due to the UAC being unwilling to proceed with parental notification?? We will be sure to inform ORR once appointment is secured, thank you.

Good Afternoon,

I have discussed this email with leadership.

In these particular situations, the child should seek spiritual counseling, options counseling, and parental notification via a family session.

Counseling can be provided at :

Pregnancy Center of the Coastal Bend	4730 Everhart St	Corpus Christi	TX
--------------------------------------	------------------	----------------	----

Please notify ORR when these services have been provided.

I have added Mr. De La Cruz in case he has additional guidance

Subject: [WARNING : MESSAGE ENCRYPTED] FW: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6) (b)(6)
Importance: High

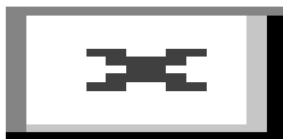

Good Evening,

Please be advised that IES LF Shelter has a 17-year-old female UAC (b)(6) (b)(6) from Guatemala in care (DOE 9/7/17) whom is inquiring about the possibility of terminating pregnancy. On 9/18/17 UAC disclosed to assigned Clinician that she did not wish to continue her pregnancy, she shared she wished to end her pregnancy and return to home country as she has no viable sponsor options. UAC attended initial OB/GYN appointment on 09/11/2017 at RGV Women's Health Center- Harlingen with Dr. (b)(6) (b)(6) MD. An intrauterine pregnancy was confirmed by an OB sonogram. Gestation is +/- 9 weeks. UAC did not share her thoughts with obstetrician during visit.

Please note, Dr. (b)(6) (obstetrician) and PCP Dr. (b)(6) are not currently aware UAC is seeking to terminate pregnancy, at this time the UAC has only shared this information with her assigned Clinician. In addition, care provider has not reached out to any community medical providers regarding minor's request, no appointment for the procedure/service has been made. This information has been elevated to designated ORR FFS and a Significant Incident Addendum (Event# 106940) has been submitted with regards to UAC's request for above referenced medical service. At this time care provider is reaching out to ORR Medical team in the hopes of obtaining procedural guidance regarding minor's specific request. Please advise on how to proceed with minor's request for this heightened medical service, thank you, we will wait for further guidance.

All,

Please be advised that care provider just received notice from legal service provider ProBar
 (see attached email correspondence) that UAC has a hearing scheduled on Monday,
 September 25,
 2017 at 8:00a.m. in the 107th District Court at the Cameron County Courthouse located in
 Brownsville, Texas. Therefore, care provider will reschedule counseling appointment for
 Tuesday, September 26, 2017. Please do not hesitate to contact me should anyone
 have any questions, we will be in touch.

Thank you,

Good Afternoon Dr. Bartholomew,

I appreciate the additional guidance regarding this matter, we will proceed accordingly. Please note, care provider has secured counseling appointment with ORR approved provider on Monday at 10:00 a.m. The center is about 2.5-hour drive from our facility and we have informed their office of our estimated time of arrival. With regard to parental notification and consent, as previously noted, we will continue working with the UAC and notify ORR of any new developments. Again, we will ensure to proceed as directed and keep ORR updated on this matter. Should we have any further questions or concerns we will be sure to reach out to ORR promptly, thank you again for the issued guidance, we will be in touch.

All,

Please be advised that care provider just received notice from legal service provider ProBar (see attached email correspondence) that UAC has a hearing scheduled on Monday, September 25, 2017 at 8:00a.m. in the 107th District Court at the Cameron County Courthouse located in Brownsville, Texas. Therefore, care provider will reschedule counseling appointment for Tuesday, September 26, 2017. Please do not hesitate to contact me should anyone have any questions, we will be in touch.

Thank you,

Good Afternoon Dr. Bartholomew,

I appreciate the additional guidance regarding this matter, we will proceed accordingly. Please note, care provider has secured counseling appointment with ORR approved provider on Monday at 10:00 a.m. The center is about 2.5-hour drive from our facility and we have informed their office of our estimated time of arrival. With regard to parental notification and consent, as previously noted, we will continue working with the UAC and notify ORR of any new developments. Again, we will ensure to proceed as directed and keep ORR updated on this matter. Should we have any further questions or concerns we will be sure to reach out to ORR promptly, thank you again for the issued guidance, we will be in touch.

(b)(6) (b)(6)

Good Afternoon,

Thank you for your email. Please let ORR know when an appointment has been made for the options counseling. Please ensure that the child receives all emotional / psychological support that she might need to work through her thoughts and emotions during what is certainly a difficult time.

I have spoken to leadership. To clarify, the program is not authorized to take her to receive termination services, or to any appointments that would prepare her for a termination, without consent from the Director.

ORR Director consent cannot happen without written and notarized consent of her parents. Program should proceed with life-affirming options counseling and notification to the parents of the pregnancy and the request for termination, if still desired.

If you have any further questions, please feel free to contact ORR.

Subject: RE: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6) (b)(6))

Good Afternoon Dr. Bartholomew, thank you for your prompt guidance.

We will proceed as directed and ensure to keep ORR up-to-date. Please note, at this time UAC continues to voice she does not wish to disclose pregnancy to her parents whom reside in home country (GU). To our knowledge and according to UAC she has no "next of kin" residing in the U.S. Potential sponsor and minor's POC in U.S. was an unverified "aunt" who declined to sponsor, there has been no further contact between care provider and this individual.

Assigned Clinician will continue working closely with UAC with the hope that she will reconsider, at this point are there any other actions care provider must take due to the UAC being unwilling to proceed with parental notification?? We will be sure to inform ORR once appointment is secured, thank you.

Good Afternoon,

I have discussed this email with leadership.

In these particular situations, the child should seek spiritual counseling, options counseling, and parental notification via a family session.

Counseling can be provided at :

Pregnancy Center of the Coastal Bend	4730 Everhart St	Corpus Christi	TX
--------------------------------------	------------------	----------------	----

Please notify ORR when these services have been provided.

I have added Mr. De La Cruz in case he has additional guidance

Subject: [WARNING : MESSAGE ENCRYPTED] FW: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6) (b)(6)

Importance: High

Good Evening,

Please be advised that IES LF Shelter has a 17-year-old female UAC (b)(6) (b)(6) from Guatemala in care (DOE 9/7/17) whom is inquiring about the possibility of terminating pregnancy. On 9/18/17 UAC disclosed to assigned Clinician that she did not wish to continue her pregnancy, she shared she wished to end her pregnancy and return to home country as she has no viable sponsor options. UAC attended initial OB/GYN appointment on 09/11/2017 at RGV Women's Health Center- Harlingen with Dr. (b)(6) MD. An intrauterine pregnancy was confirmed by an OB sonogram Gestation is +/- 9 weeks. UAC did not share her thoughts with obstetrician during visit.

Please note, Dr. (b)(6) (obstetrician) and PCP Dr. (b)(6) are not currently aware UAC is seeking to terminate pregnancy, at this time the UAC has only shared this information with her assigned Clinician. In addition, care provider has not reached out to any community medical providers regarding minor's request, no appointment for the procedure/service has been made. This information has been elevated to designated ORR FFS and a Significant Incident Addendum (Event# 106940) has been submitted with regards to UAC's request for above referenced medical service. At this time care provider is reaching out to ORR Medical team in the hopes of obtaining procedural guidance regarding minor's specific request. Please advise on how to proceed with minor's request for this heightened medical service, thank you, we will wait for further guidance.

*Password for attachment will follow in separate email, thank you.

Subject:	Re: Family planning services--scope
Date:	2017/09/21 18:35:12
Priority:	Normal
Type:	Note

Scott- I'll add this to the briefing document for you. Laura

On: 21 September 2017 17:53, "White, Jonathan (ACF)"
<Jonathan.White@ACF.hhs.gov>wrote:

Scott,

You requested earlier this week that we put together a synopsis of what types of interventions and services are provided under "family planning." below please see Tricia's brief based on policy as well as current practice as identified by the DHUC medical team.

Family Planning Policy

Policy is fairly limited here and largely stems from language of minimum standards from *Flores*, Exhibit 1, Paragraph 2, that UAC are entitled to “family planning services.” Policy language was added to define “family planning” which was not described in *Flores* itself.

See, ORR Policy Guide, section 3.3 Required Health Services:

“....Under the terms of the Flores Settlement Agreement, care providers must provide the following minimum services¹ for each unaccompanied alien child in their care: ...family planning services, including pregnancy tests and comprehensive information about and access to medical reproductive health services and emergency contraception...”

Also see, ORR Policy Guide, section 3.4 Medical Services:

“ORR facilitates and funds health care for all unaccompanied alien children in its custody. ORR has developed its health care policies with the goals of ensuring the children’s physical and mental well-being and the safety of care providers, medical personnel and communities. Through its care providers and other health care professionals, ORR provides the following services....[f]amily planning services, including pregnancy tests and comprehensive information about and access to medical reproductive health services and emergency contraception...”

Emergency contraception and sexually transmitted infections prophylaxis are also discussed in section 4.9.1 Emergency Medical and Mental Health Care Services. Following an Incident of Sexual Abuse, however as the section title suggests, this is not family planning services-this is related to response to a sexual assault of a UAC in ORR custody.

Family Planning in the Division of Health

Division of Health for Unaccompanied Children (DHUC) provides certain services considered family planning type services to UAC under a variety of circumstances including:

- Pregnancy screening for all UAC ages 10 years or older during the Initial Medical Examination (IME);
- Routine obstetric health care services for pregnant UAC;
- Access to emergency contraception in cases of sexual assault as required by PREA;
- Treatment of gynecological medical conditions and diagnoses;
- Distribution of Centers for Disease Control and Prevention (CDC) educational factsheets related to Zika virus transmission, including sexual transmission, at UAC discharge;
- Reproductive educational services in accordance to individual state licensing requirements of programs caring for UAC.

If you have other questions, let us know.

Subject:	ORR Weekly Litigation Update
Date:	2017/09/22 08:00:27
Priority:	Normal
Type:	Note

I have attached this week's litigation update.

UAC litigation. In *Flores* (bond hearings), on 9/15, the 9th Circuit ordered that the case is not selected for inclusion in the Mediation Program (counsel may contact circuit mediator to discuss services). Also, on 9/19, the Acting Solicitor General determined the United States would not seek en banc review of the July 5 decision by the 9th Circuit.

Refugee litigation. No updates this week.

UAC bond hearings.

- There are currently 21 outstanding bond hearing requests. Of these:
 - 1 hearing is scheduled for the Arlington court on October 18.
 - ORR is responding today to a scheduling notice for a bond hearing received from the San Francisco court.
 - Due to administrative problems at the New York court, ORR is re-filing motions, but must first receive confirmation from the court that the cases have been properly moved to that venue and have a judge assigned.
 - ORR will next file cases in San Antonio, TX and Portland, OR (2 in Portland mailed this week)
- Since last week, ORR argued two bond hearings:
 - San Francisco, CA (telephonically). ORR submitted a letter signed by the Director indicating ORR did not consider the minor to be a danger. The judge made a ruling consistent with that letter.
 - Arlington, VA. The judge continued the case to October, advising either transfer to another care provider facility or release by that time.
- **To date there have been:**

- 5 hearings resulting in IJ decisions. In all cases the judges agreed with ORR.
- 16 UACs who requested bond hearings but subsequently withdrew their requests
- 1 UAC who requested a bond hearing, but due to insufficient notice to ORR the court declined to provide the hearing and instead scheduled a Master Calendar Hearing.
- 10 UACs who requested bond hearings but no longer require them because they are no longer in ORR custody (e.g., because they were subsequently reunified with a sponsor, were ordered removed, aged out, etc.).

(b)(6)

I have reached out to the Director of ORR, Scott Lloyd, for guidance on what steps the program should take with regard to the minor we discussed. Please see below the instructions (which I am providing verbatim) from the director for Los Fresnos to follow in this child's case. If there are any questions or concerns, please route them directly to Mr. Lloyd (scott.lloyd@acf.hhs.gov) and please cc me.

The program must proceed as follows:

1) Notify the parents of the pregnancy tonight. The parents and the UAC should be given an opportunity to speak with each other about her options for the pregnancy. The UAC is not required to speak with the

parents if she does not want to. If she chooses not to speak with her parents, the parents should be asked whether they have any wishes regarding medical options concerning handling the pregnancy.

2) If the parents on their own prompting or the prompting of the UAC indicate they desire an abortion, they need to be informed we would need this in writing and notarized. No promise should be made concerning whether an abortion will be approved by the Director.

3) I would like to receive reports that this has occurred and what transpired, at least by phone.

Please acknowledge receipt and per Scott's direction, keep us updated on developments tonight.

Thank you,

Jonathan

Importance: High

Scott,

OGC got contacted today by ACLU re a pregnant Texas UAC. OGC reached out to AnnaMarie for info prior to speaking with ACLU.

Still developing details but I have to believe that the unnamed UAC is likely to be the UAC at IES in Texas requesting TOP. Just got update from Michael re medical info, am

circling up with DPP now. We will brief you later when more is known, but just wanted to give you a quick heads up.

Mr. Calero,

SWK is requesting further clarification on this case. We have read your email below and discussed it, but we are still in need of more information from you (ORR).

If the minor does not want SWK to disclose to the parents the pregnancy, is SWK being required to do so anyway? Your email says we should offer to disclose to the parents for her which we can easily do. But, your email is unclear as to the next step in the event the minor does not want SWK to disclose this information to the parents.

We want to make sure that we are clear on the directive from the ORR Director as it is important to us that we follow the directive precisely as intended. Please advise- we will wait to hear from you before we take the next step.

Ms. (b)(6)

I have been advised by my supervisor, Ivonne Velasquez, to forward a directive from the ORR Director. Per the ORR Director, the next step is for the program to inform the parents of the pregnancy in the above referenced case. If the UAC doesn't want to do it, the program should offer to do it. The parents should be notified by the end of the day barring some exigent circumstance.

Per the Director please advise ORR once the program has completed the notification requested.

Thanks for your attention on this matter.

Subject: RE: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6) (b)(6))

Good Afternoon,

Thank you for your email. Please let ORR know when an appointment has been made for the options counseling. Please ensure that the child receives all emotional / psychological support that she might need to work through her thoughts and emotions during what is certainly a difficult time.

I have spoken to leadership. To clarify, the program is not authorized to take her to receive termination services, or to any appointments that would prepare her for a termination, without consent from the Director.

ORR Director consent cannot happen without written and notarized consent of her parents. Program should proceed with life-affirming options counseling and notification to the parents of the pregnancy and the request for termination, if still desired.

If you have any further questions, please feel free to contact ORR.

Subject: RE: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6) (b)(6))

Good Afternoon Dr. Bartholomew, thank you for your prompt guidance.

We will proceed as directed and ensure to keep ORR up-to-date. Please note, at this time UAC continues to voice she does not wish to disclose pregnancy to her parents whom reside in home country (GU). To our knowledge and according to UAC she has no “next of kin” residing in the U.S. Potential sponsor and minor’s POC in U.S. was an unverified “aunt” who declined to sponsor, there has been no further contact between care provider and this individual. Assigned Clinician will continue working closely with UAC with the hope that she will reconsider, at this point are there any other actions care provider must take due to the UAC being unwilling to proceed with parental notification?? We will be sure to inform ORR once appointment is secured, thank you.

(b)(6) (b)(6)

Good Afternoon,

I have discussed this email with leadership.

In these particular situations, the child should seek spiritual counseling, options counseling, and parental notification via a family session.

Counseling can be provided at :

Pregnancy Center of the Coastal Bend	4730 Everhart St	Corpus Christi	TX
--------------------------------------	------------------	----------------	----

--	--	--	--

Please notify ORR when these services have been provided.

I have added Mr. De La Cruz in case he has additional guidance

Subject: [WARNING : MESSAGE ENCRYPTED] FW: IES LF Shelter-Inquiry Regarding Heightened Medical Service (UAC (b)(6) (b)(6))

Importance: High

Good Evening,

Please be advised that IES LF Shelter has a 17-year-old female UAC (b)(6) (b)(6) from Guatemala in care (DOE 9/7/17) whom is inquiring about the possibility of terminating pregnancy. On 9/18/17 UAC disclosed to assigned Clinician that she did not wish to continue her pregnancy, she shared she wished to end her pregnancy and return to home country as she has no viable sponsor options. UAC attended initial OB/GYN appointment on 09/11/2017 at RGV Women's Health Center- Harlingen with Dr. (b)(6) MD. An intrauterine pregnancy was confirmed by an OB sonogram Gestation is +/- 9 weeks. UAC did not share her thoughts with obstetrician during visit.

Please note, Dr. (b)(6) (obstetrician) and PCP Dr. (b)(6) are not currently aware UAC is seeking to terminate pregnancy, at this time the UAC has only shared this information with her assigned Clinician. In addition, care provider has not reached out to any community medical providers regarding minor's request, no appointment for the procedure/service has been made. This information has been elevated to designated ORR FFS and a Significant Incident Addendum (Event# 106940) has been submitted with regards to UAC's request for above referenced medical service. At this time care provider is reaching out to ORR Medical team in the hopes of obtaining procedural guidance regarding minor's specific request. Please advise on how to proceed with minor's request for this heightened medical service, thank you, we will wait for further guidance.

*Password for attachment will follow in separate email, thank you.
